WOFFORD COLLEGE NEWS LETTER

Volume I

AUGUST 1, 1943

Number 6

DEAR ALUMNUS IN UNIFORM :

This letter marks the end of volume one of a series of bi-monthly letters begun last October. We hope you have liked them. Always we have had two objectives in mind: to give you information about fellow Wofford men in the service and to bring back pleasant memories of the good days spent at Wofford—good days for us here, we know; good days for you, we hope.

The major part of this letter is being taken up by a list of all of you. We should like to give home and camp addresses, but problems of censorship and space prevent. For any errors of commission or omission—and there are many, we know—we hope you will pardon us, as you have so

charitably done in the past. Won't you please let us know of any mistakes you may detect in the following list? We shall be very grateful. Don't be over modest about your own promotions and exploits! Remember, it's all in the family!

The abbreviations used in the list are as follows: A—Army; AAF—Army Air Force; N—Navy; NAC—Naval Air Corps; NC—Navy Chaplain; AC—Army Chaplain; FI—Flight Instructor; S. F.—San Francisco; N. Y.—New York; N. O.—New Orleans; FP—Fleet Post Office; L. O.—Los Angeles; CG—Coast Guard; M—Marines.

About Commencement

In our June letter we gave you the Commencement program. (Did you get the letter—the one with the picture of the cadets at Retreat on front of the Main Building? If not, let us know, and we'll send you one—the letter went second class and may not have been forwarded.)

But back to Commencement: It went off according to schedule, with one or two changes. Dr. John W. Rushtin of College Place Methodist Church in Washington spoke on "Tomorrow Comes the Dawn." President Rufus Harris of Tulane talked in the Chapel on the necessity of preserving the Liberal Arts in a Democracy. Aubrey Faust, All-Little America and All-State, received the Rembert award as the athlete who had contributed most to Wofford during the year. Aubrey Oglesby of Selma, Alabama, and Fletcher Padgett of Saluda, S. C., spoke for the seniors. The Aviation Students put on an impressive Retreat Parade in honor of the graduating class. The Reverend J. O. Smith, '22, ably substituted at the Alumni Banquet for Col. Geo. W. Wannamaker, who was on a special War Department assignment. Lt.-Col. C. W. Derrick, '28, spoke to the R. O. T. C. graduates.

Dr. Greene's first baccalaureate address to the Senior class at Bethel Church was something "to go home with," everybody agreed. Speaking on the subject, "Where Do You Live?" President Greene said that we *exist* in a world of actuality, in a physical, intellectual, spiritual, and moral universe. But, he said, we *live* in a world of our own creation, which consists of things we appropriate from the world that exists. Dr. Greene, in the nature of a challenge, asked his hearers four questions: (1) Do you live in a world of open-mindedness? (2) Do you live in a world of symbolism? (3) Do you live in a world of great literature, which is the life blood of master spirits? (4) Do you live in a world of spiritual power and reality?

Mr. H. B. Carlisle, Chairman of the Board of Trustees, formally conferred upon President Greene the office of the Presidency of Wofford College with all its rights, privileges, and "difficulties."

Aviation Students

The third class of Aviation students recently graduated and went to Classification center. We like them and hope they like us. They learn quickly—even as you did—to understand the "quips and cranks and wanton wiles" of their instructors, even though there may be a scarcity of "nods and becks and wreathed smiles such as hang on Hebe's cheek and love to live in dimples sleek!"

The Aviation students are publishing a four-page, bi-weekly newspaper entitled *Flight Record*, two excerpts from the "Gigs and Gags" and humor columns of which may bring back a nostalgic memory of your own student days and what you wisecracked about, both in and out of class: "Math teacher in 109, as noisy pupil comes charging into the building: 'Sounds like a tank going upstairs!' Student: 'Not up those stairs, sir!'" . . . "Professor: 'A fool can ask questions a wise man can't answer.' Student to his neighbor: 'That's why we all flunked the exam.'" The newspaper also reported that Coach Petoskey, who is doing an excellent job of getting the men into good physical condition, recently had a song dedicated to him over the local radio station. The name of the song? "Let's Call the Whole Thing Off." Incidentally, when the Aviation students graduate they are able to do a non-stop, five-mile run without shouting "Uncle!"

Main Building Picture in Color

Remember the four-color, 9x12-inch picture of the Main Building that appeared in the 1941 *Bohemian*? Well, the 300-dollar plates have been saved, and if we get as many as two or three hundred orders, we can deliver copies of the picture, suitable for framing, at 25 cents postpaid to any address. Address all orders to Editor, the NEWS LETTER, Wofford College. They will be delivered not later than the middle of September, perhaps earlier. This is *not* a money-making venture!

New Registrar

Miss Dorothy Woodward, for many years Dr. Snyder's secretary, was recently elected to the post of Registrar to succeed Professor Herbert, who resigned in order to devote all his time to teaching Aviation students. Needless to say, Miss Woodward is discharging her duties with efficiency and intelligence, as those of you who knew her would expect.

From Us to You

Ed. Note: Here, at last, are some of those letters from the Faculty that we have been promising. There'll be more later.

"One hundred and sixty-seven years ago, American patriots pledged their lives, their fortunes, and their sacred honor to make the American Declaration of Independence a living reality for Americans.

"Today, you have the incomparable opportunity of helping to make a World Declaration of Independence a living reality for all mankind.

"Keep the flame of that great purpose alight in your souls and remember

that the foundation stone in the pyramid of human greatness is purpose self-abandon in some great and noble and enduring cause.

"WALTER KIRKLAND GREENE"

"Sometimes, no doubt, you are worried by the contentions and strifes on the 'home front.' Some of this is due to the struggles of selfish men for position and power and gain, but behind most of it is a patriotism as sincere as yours. Be assured that the great heart of your country is sound, in millions of homes like those from which you come is the grim, unflinching courage to win. Just remember, too, Washington is not America, in every crisis in your country's history it has been saved by the 'folks at home,' and they are on this job with the old conquering unity of purpose and faith.

"H. N. SNYDER"

"Having taught in Wofford College for eighteen years, I have had the privilege of knowing most of our men who are now in the service of the Nation. I greatly appreciate the messages that have come to me from many of you who are now in service in so many parts of the world. I could but get you together again in anthropology or political science, with a marvelous course of study you could give me!

"We, here at Wofford College, are following with grateful pride the signal service rendered the Nation by Wofford men. From every part of the global theater of this War reports come to us telling of your valor and efficient service. We send you sincerest greetings and pray that God may be with you.

"C. C. NORTON"

"To all Wofford men in the armed services, we send greetings. At home and abroad, in the camp and on the field of battle, multiplied instances of your conspicuous service and gallantry in action are reported. This is no surprise. It was expected that you would follow in the footsteps of the men who have gone before in offering your services in defense of the ideal upon which our country was founded, and with which it must be preserved if we are to lead this world to a better day. May you be returned to your friends and families as sound in mind and body as you went away.

"JOS. K. DAVIS"

"You would find the old college more interesting and attractive than ever. The carefully groomed campus is lovely. Even the walls of the English room can now be looked upon without pain. Flies and pestiferous insects cannot bother the office force in either wing of the Main Building. Ice water cools the parched lips of the cadets as they change classes. The R. O. T. C. building you would scarcely recognize, with its fireplace, bar shop, and powder room. My class book would remind you of a northern university football squad. The cadets are from many states and people but fine Americans all. Their stock excuse for inadequate preparation would delight you: 'Sir, I was flying.' You, too, were sometimes 'up in the air,' you know.

"W. L. PUGH"

"On Christmas Day, 1935, the King of England sent a hope and prayer that all who were united in the great Family of Nations might be strong to endure, to achieve and to prevail in whatever tasks the year might bring. The eight years since that day have given proof of the English people's fidelity to their King's confidence in them.

"I give you a prayer which some of you read and commented upon in the years now gone, but not forgotten. It is written in the *Imitation of Christ*, by Thomas a Kempis: 'Set me free from all evil passions, heal my heart of all inordinate affections, that being inwardly cured and thoroughly cleansed, I may be fit to love, courageous to suffer, and steady to persevere.' A mystic thought, but a very practical one.

"A. M. TRAWICK"

A Little About a Lot of You
