## GENERAL INFORMATION.

### ORGANIZATION OF CLASSES.

Applicants for admission will be assigned to such Classes as the Professor of each department shall, after examination, determine.

Believing that irregular courses of study are demoralizing to untrained minds, the Faculty urges all matriculates to take one or other of the two Bachelor of Arts (A. B.) Courses that the College offers. Recognizing, however, the fact, that a few applicants have neither the time nor the fitting for a regular course, it is willing to grant, in exceptional cases, the privilege of an election of studies within limits determined by itself, and always with the condition that the time of the student be fully occupied.

### TIME OF ENTRANCE.

*Attention is invited to this paragraph.*

Patrons of the College are earnestly requested to take care that their boys are present on the first day of October, when the entrance examinations are held, the classes organized, and the recitations begun. Those who enter after this time necessarily lose some part of the instruction, and are thus at a disadvantage in comparison with their more punctual classmates. Boys that delay their coming for a few weeks usually find themselves hopelessly behind, and are forced to drop into lower classes. Let it be especially noted that the middle of the session is not the time for entrance, for as the classes are then half advanced, it is almost impossible to classify those who at that time apply for admission. So far from gaining time, the whole year is often lost in this way. The Faculty begs that parents, guardians and students give serious attention to this matter.

## EXAMINATIONS.

Written and oral examinations are held, both to test the qualifications of applicants for admission and also to determine in connection with the current standing of the student, his fitness to pass on to the higher classes. The time and manner of these examinations are left to the judgment of each Professor; their length is limited to three hours. The Professors determine the condition of advancement from lower to higher classes in their several departments. A student failing to pass will be required either to take the same class another year or to do such extra work as the Professor may deem necessary.

## REPORTS.

During the Session four reports are sent to the parent or guardian, in which is given an approximate estimate of the class standing and deportment of each student.

The Faculty begs parents to note carefully any failure or falling off in the boy's work and to appeal to him at once. When it is thought necessary, special remarks will be added to the reports.

## HONORS AND DEGREES.

1. Certificates will be given to irregular students that complete the course of study in any department.

2. The degree of Bachelor of Arts (A. B.) will be conferred upon students that complete either of the following parallel courses of study:

I. The Departments of Mathematics and Astronomy; English Language and Literature; Latin Language and Literature; Greek Language and Literature; Metaphysics and Political Science; Physics, Chemistry and Geology.

II. The Departments of Mathematics and Astronomy; Physics, Chemistry, and Geology; Latin Language and Literature; German and French; Metaphysics and Political Science; English Language and Literature.

3. The degree of Master of Arts (A. M.) will be conferred on any Bachelor of Arts of this College who shall pass a satisfactory examination on courses of study prescribed by any two Professors the student may choose.

## LITERARY SOCIETIES.

The Calhoun and Preston Literary Societies meet weekly in their well furnished halls, for improvement in Declamation, Composition and Debate. Their orderly management and generous emulation make them a helpful element of collegiate training, and they are regarded by both students and Faculty as an indispensable part of the machinery of instruction. Their Anniversaries are held in November, and their final celebrations during the Commencement Exercises.

The beneficial influence of these Societies confirms the authorities in enforcing the rule that every student on entering College shall connect himself with one of them.

## READING ROOM.

An excellent Reading Room has been established, provided with a good assortment of the best American and English Periodicals. To the privileges and advantages of this Room, which is under the control of the Faculty, all students are freely admitted.

## LIBRARIES.

The Libraries of the College and of the Literary Societies, containing six thousand volumes, conveniently arranged, are opened, under proper restrictions, to all students.

The Classical Library, bequeathed to the College by the late Prof. David Duncan, is a valuable collection of fifteen hundred volumes, comprising the Latin and Greek Classics, numerous commentaries and histories, and many old and interesting books not to be found outside a few select libraries.

## RELIGIOUS OPPORTUNITIES.

All students are required to attend daily prayers in the College Chapel, and each student is expected to attend divine services on Sunday in any Church he or his parents may prefer.

Weekly prayer meetings, to which all students are gladly welcomed, are conducted by the Young Men's Christian Association of the College.

#### PRIVILEGED STUDENTS.

All students preparing for the ministry, and the sons of itinerant ministers, are exempted from the payment of tuition, but are required to pay all matriculation fees. Ministerial students must present the recommendation of the Quarterly Conference of the pastoral charge to which they belong, and if not sons of itinerant ministers, must give their notes for the full amount of their tuition, payable in the event of their failure to enter the work of the ministry.

#### LOCATION.

Wofford College is located in Spartanburg, a healthy and thriving town of Upper South Carolina, situated twenty miles from the mountains, in a region noted for its healthfulness, its pleasant scenery, and the excellent moral tone of its people. It is the summer resort of many living in malarious parts of the State, and the abundant productions of the surrounding country make the cost of living in it unusually cheap.

The prohibition of the liquor traffic within the limits of the town must commend it to parents for its comparative freedom from the allurements of the bar-room and saloon.

#### ROUTES.

Spartanburg is easily reached by the following railways and their connections: Spartanburg, Union and Columbia Railway, Atlanta and Charlotte Air Line Railway, Ashville and Spartanburg Railway, Greenwood, Laurens and Spartanburg Railway. Several telegraph lines offer students speedy communication with their friends.

#### MESS HALL.

Although the College is conducted on the non-resident system, yet a few students are permitted to occupy vacant rooms in the College building and to take their meals in a room provided and

fitted for this purpose. This arrangement enables needy students to board at the low rate of seven dollars per month.

WOFFORD COLLEGE.

TO THE FATHER AND MOTHER, WHO SEND THEIR  
SON TO US.

Before your son leaves home for College, give him a last, earnest charge, to be reverent, truthful, pure in language as well as in life, obedient to all proper authority, industrious and modest. Let these elementary foundations of character be well laid.

Have him here in time to begin the studies of the first day. As our work is arranged, it is a serious loss to a student, except in very rare cases, if he is absent for any part of a session. If financial difficulties seem to require you to keep him at home until January, write to us in time, and we will do all in our power to bring him here on the first day of October. We propose to give one day only at Christmas. Unless for very special reasons, please do not ask for a longer time. Our College year is quite short, and we need all of it to do our work well. Every day's absence for any cause, adds one to the probabilities of his failure.

Unless you choose a boarding house for him, let him consult us. To become a boarder, will be a striking change in his life. He needs some wise hints, just now, from his mother. His behavior at the boarding house does much to honor or to shame his home training. Make your wishes clearly known to him, as to his manner of spending Sabbaths, and a regular, well-behaved attendance at your church and Sunday-school. If he is a member of any church, charge him by all means to make himself known as such when he comes here. Expect him to be consistent. Question him from time to time, about his habits, in all these very important respects. Let your warnings about the dangers of profanity, vulgarity, gaming, drinking, irregular hours, promiscuous visiting, questionable associations, and seductive friendships, be very particular and repeated. If he is to succeed as a student, many pleasant things, not wrong in themselves, must be given up, during the working part of the year. Do not give him an amount of money which invites extravagance. You may perhaps be able

to afford this. The parents of most of his fellow students can not. Teach him the value of money, and the danger of debts. His happiness and success while here will not depend, in any degree, on fine clothes, livery-stable rides, or a wide margin of pocket money. Perhaps, there is no place where money has less to do in fixing a man's position, than in a College campus. Intelligence and integrity determine the standing of every student. Therefore, your boy can surely win his proper place, in the estimation of Professors, fellow-students, and the community, without any display of money.

When he enters College, he will be expected to join one of the two Literary Societies. The libraries, and weekly exercises, may be of great service to him, if he will use them wisely. There are, besides, several Secret Fraternities. The student who joins one of these, does not violate any College law. The professors are sometimes asked by parents, and by students, as to the benefit of a connection with them. We are willing to give you, very frankly, our judgment, that it may be best for your son not to join any Secret Fraternity.

Write to him often and freely. Write to us at any time, giving us full information about his health, temperament, causes of discouragement, supposed grounds of complaint, against any college regulation, &c., as this may enable us to give him timely help. We propose to trust him generously, in all our intercourse with him, professional and private. Let us work together, in trying to make him every way worthy of the confidence, which, you and we alike place in him, just now, when he is making the great change from the "negative innocence of boyhood, to the tried virtue of young manhood."

May he in coming life, richly repay all your parental sacrifices and cares!

JAS. H. CARLISLE,  
*For the Faculty.*
