DEPARTMENTS OF INSTRUCTION.

Wofford College offers to students in the four college classes two parallel courses of study, each leading to the degree of Bachelor of Arts.

SUB-COLLEGIATE CLASS.

The Faculty would be glad to leave the work of preparation for college to the fitting schools of the State; but is forced, by reason of the insufficient number of these schools, to make some provision for such preparation. The Sub-Collegiate Class has, therefore, been formed to meet the needs of boys not fully ready for college. No boy under thirteen years of age is admitted into this class, nor are boys encouraged to enter it, who have not had some training in the ordinary branches taught in the high-schools and academies. In order to pursue the studies of this class successfully, the pupil must have a knowledge of arithmetic as far as Percentage, and of the inflections and simple constructions of English. The usual school-training in Geography, Reading, Writing, etc. is of course taken for granted; and it would be well that the pupil should have begun the study of Latin and Greek. Let it be carefully noted that pupils offering for this class must be present in October. It rarely happens that boys coming in the middle of the session are able to fall in with the Sub-Collegiate Class half advanced.

I.—MATHEMATICS AND ASTRONOMY.

PROF. J. H. CARLISLE.

Special attention is called to the necessity of thorough preparation in the elements of Arithmetic, especially Fractions and Proportion. Algebra is begun in the Sub-Collegiate Class, and will be continued, if necessary, in the Freshman year.

The Mathematical course is arranged for those taking the ordinary curriculum, and not for specialists. The Sophomore year is given to Trigonometry and its applications. In the Junior year the more important principles of Mechanics will be taken up, and parts of Algebra and Arithmetic reviewed. The Senior year will be given to Astronomy.

SUB-COLLEGIATE CLASS.—Five hours weekly. Arithmetic; Algebra.

FRESHMAN CLASS.—Five hours weekly. Wentworth's Algebra; Wentworth's Geometry.

SOPHOMORE CLASS.—Three hours weekly. Loomis' Trigonometry.

JUNIOR CLASS.—Three hours weekly. Mechanics.

SENIOR CLASS.—Three hours weekly. Loomis' Astronomy.

II.—PHYSICS, CHEMISTRY AND GEOLOGY.

PROF. D. A. DUPRÉ.

SOPHOMORE CLASS—Two hours weekly. Gage's Physics

JUNIOR CLASS—Three hours weekly. Ganot's Physics; Barker's College Chemistry.

SENIOR CLASS—Five hours weekly. LeConte's Elements of Geology; Dana's Manual of Mineralogy and Lithology; Blowpipe Exercises; Landauer's Blowpipe Analysis.

CLASS IN CHEMICAL ANALYSIS—Four hours weekly. Appleton's Qualitative Analysis; Appleton's Quantitative Analysis.

During the Sophomore year the elementary principles of Physics are illustrated by easy and simple experiments, and the importance of accuracy in scientific terms and methods emphasized.

The Junior Class consumes five months of the year in acquiring a more thorough knowledge of the theories of physical science, and in familiarizing themselves with scientific apparatus. The remainder of the year is given to the study of Inorganic Chemistry, with frequent lectures and experiments.

The Senior Class devotes three hours per week to Geology, and two hours per week to Mineralogy and Lithology. During the year, occasional excursions are taken to parts of the country, where

can best be seen examples of geological formations, and where are to be found a variety of minerals and rocks. Three additional hours per week are given to chemical experimentation, qualitative and quantitative analysis by those members of the Senior Class who desire to pursue the study of chemistry, beyond what is required for graduation. The blowpipe exercises, after a few months' experience, enable students to determine and classify all the more common minerals and rocks.

An unusually large collection of minerals of this and of foreign countries, is accessible to the class in Geology and Mineralogy. At least 1,200 specimens of minerals were the gift of Rev. H. A. C. Walker, of the South Carolina Conference, and of Dr. William Dogan, of Union, S. C.

Any like gift, mineral or fossil, will be gratefully acknowledged by the faculty of the College.

III.—ENGLISH LANGUAGE AND LITERATURE.

PROF. F. C. WOODWARD.

SUB-COLLEGIATE CLASS.—Three hours weekly. Some knowledge of English inflections and constructions, an acquaintance with parts of speech and tolerable ease in parsing are necessary for pursuing successfully the work of this class. During the year thorough drill is given in forms, Syntax, and Analysis, together with a study of simpler English history and the continual class-reading of English authors.

Text-Books: Bain's Briefer English Grammar; Morris's English Grammar; Readings from English History; Seven British Classics; Six Selections from Irving; Scott's Marmion; Weekly Exercises.

FRESHMAN CLASS.—Three hours weekly. This class undertakes the more difficult constructions, by the method of logical analysis of sentences. It makes a careful study of English idioms and begins the study of the historical development of the mother tongue. Here, as in all the English classes, the critical reading of the best English is given a prominent place in class work, in illustration and application of the principles taught.

Text-Books: Dalglish's Analysis; Abbott's How to Parse; Morris's Historical Grammar; Sir Roger de Coverley; Hales's Longer English Poems; Bunyan's Holy War; Weekly Exercises.

SOPHOMORE CLASS.—Three hours weekly. For the intelligent understanding of the growth of the English language and of the development of the grammar, Anglo-Saxon is taught and the history of the language is continued with illustrative study of various periods of literary growth and change.

Text-Books: Sweet's Anglo-Saxon Reader; Lounsbury's History of the English Language; Zupitza's Old and Middle English Reader; Bacon's Essays; Macaulay; Goldsmith; Dryden; Weekly Exercises.

JUNIOR CLASS.—Three hours weekly. In this Class along with the philological study of Early and Middle English, attention is given to figures of speech, the structure of sentences and paragraphs, and the elements and qualities of style. The theory and practice of English composition are taught by careful study of the best models and by frequent and regular exercises in written composition.

Text-Books: Zupitza's Old and Middle English Reader; Clark's Practical Rhetoric; Minto's Manual of English Prose; Macbeth; DeQuincey; Carlyle; Burke; Swift; Fortnightly Compositions.

SENIOR CLASS.—Two hours weekly. The student is now exercised in the higher qualities of style and in the more difficult kinds of composition. A critical comparative study of a few good writers is made, and some special branch of English literature is emphasized.

TEXT-BOOKS: Tuckerman's English Prose Fiction; Dowden's Shakespeare Primer; Taine's English Literature (for reference); Shakespeare; Fielding; Scott; George Eliot; Thackeray; Wordsworth; Tennyson; Monthly Essays.

In each English class a course of Parallel Reading is prescribed.

IV.—LATIN.

PROF. J. A. GAMEWELL.

SUB-COLLEGIATE CLASS.—Five hours weekly. During the first three months of the session this Class is drilled in the regular forms

and the construction of simple sentences. The object is to acquire such familiarity with inflections and elementary Syntax as will enable the pupil to understand easy Latin prose. The remainder of the session is given to the study of one book of Cæsar's Gallic War, and daily practice in turning English into Latin. A boy who has no knowledge of Latin when he enters this Class cannot do the work satisfactorily.

Text-Books: Gildersleeves's Latin Grammar; Whiton's Six Weeks' Preparation for Reading Cæsar; Kelsey's Cæsar.

FRESHMAN CLASS.—Four hours weekly. Applicants for admission into this Class are required to stand an examination on the second book of Cæsar's Gallic War, or its equivalent, and to translate simple English sentences into Latin. Forms are rapidly reviewed, and simple constructions are taught by reading and daily exercises in Latin prose composition.

Text-Books: Cæsar; Sallust; Ovid; Gildersleeve's Latin Grammar; Roman History; Trollope's Life of Cæsar; Church's Life of Ovid.

SOPHOMORE CLASS.—Three hours weekly. An accurate knowledge of more advanced Syntax is acquired by the careful study of Latin prose and poetic authors, and by weekly exercises in composition. The Dactylic Hexameter verse, is taught. The lives of Livy and Virgil are studied.

Text-Books: Livy; Cicero; Virgil; Gildersleeve's Latin Grammar; Weekly Exercises; Parallel Reading; Life of Livy, by Collins; Life of Virgil, by Collins.

JUNIOR CLASS—Two hours weekly. The more difficult constructions and the Horatian metres are studied.

Text-Books: Pliny; Cicero; Horace; Life of Cicero, by Collins; Life of Pliny, by Church and Brodribb; Life of Horace, by Martin; Exercises.

SENIOR CLASS.—Two hours weekly.

Text-Books: Horace; Plautus; Tacitus; Lives of Tacitus (Donne); Plautus (Collins); Terence (Collins); Juvenal (Walford).

V.—METAPHYSICS AND POLITICAL SCIENCE.

PROF. A. COKE SMITH.

JUNIOR CLASS—Three hours weekly. Jevon's Logic; Walker's Science of Wealth; Lectures.

SENIOR CLASS—Four hours weekly. Munsell's Psychology; Gregory's Christian Ethics; Lectures.

Books for general reference: Ueberweg's History of Philosophy; Schwegler's History of Philosophy; Hamilton's Metaphysics; Porter on Human Intellect; Cousin's Lectures; Hickock's Rational Psychology; Jouffroy's Ethics; Mill's Principles of Political Economy; Bowen's Americal Political Economy.

VI.—GREEK.

GRANVILLE GOODLOE.

I. SUB-COLLEGIATE CLASS—*Five hours weekly.* This class spends the fall term in the study of Goodwin's Greek Grammar, as far as Syntax. In connection with this, they have some elementary exercises in translating from White's First Lessons in Greek, or Leighton's Greek Lessons. The spring term is spent in translating from Moss' First Greek Reader, and studying the leading principles of Syntax in the Grammar. They also have a slight drill in translating English into Greek.

N. B.—*In rare cases can students who have never studied Greek succeed in this class, entering after the first of January.*

II. FRESHMAN CLASS—*Four hours weekly.*

Text-Books: Xenophen's Anabasis (Goodwin preferred) and Herodotus.

This class takes a thorough review of the Grammar, both Etymology and Syntax, looking closely to the construction of cases and modes. They write weekly exercises in Greek Composition, involving the leading grammatical forms, as well as the syntax of the simple sentences (White or Leighton).

Students from other schools offering for this class in the fall term, must pass a satisfactory *written* examination on the subjects pursued by the Sub-Collegiate Class, or their equivalent. Those

applying in the spring term will come prepared to be examined on two or three books of Xenophon's *Anabasis* (or *Cyropedia*), with the accompanying *Syntax* and *Greek Composition*.

III. SOPHOMORE CLASS—*Three hours weekly.*

Text-Books: Homer; Demosthenes, or Plato. In connection with Homer they recite in Beren's *Myths and Legends of Greece and Rome*. The simple metres, notably the hexametre, are studied. A thorough application of *Syntax* is continued. They write weekly exercises in *Greek Composition*—compound and complex sentences, involving the moods and tenses, especially of *oratio obliqua*.

IV. JUNIOR CLASS—*Two hours weekly.*

Text-Books: Thucydides; Euripides; Aristophanes.

Goodwin's *Moods and Tenses*; *Greek History* begun; *Greek Metres*; *Exercises in Greek Composition*.

V. SENIOR CLASS—*Two hours weekly.*

Text-Books: Sophocles and Aeschylus; *Greek History and Literature*; *Old Greek Life*; *Greek Composition*.

In the Junior and Senior Classes parallel reading will be assigned in the course of "Ancient Classics for English Readers."

VII.—MODERN LANGUAGES.

J. H. MARSHALL.

1. German.

FRESHMAN CLASS.—Four hours weekly. In this class the forms and elementary principles of the language are studied. Translation of easy selections from German literature will be taken up during the year. Weekly exercises.

Text-Books: Cook's-Otto's *German Grammar*; Jaynes-Otto's *German Reader*.

SOPHOMORE CLASS.—Three hours weekly. In this class proficiency in translation is acquired; the forms and syntax of the language are thoroughly studied. Lectures upon the *History and Literature of the language*. Weekly exercises.

Text-Books: Otto's *German Grammar*; Auebach's *Barfüszelc*; Schiller's *Maria Stuart*; Goethe's *Faust*.

2. French.

JUNIOR CLASS.—Three hours weekly. This year will be given to the study of forms and simpler constructions. Translation will be begun early in the session; the idioms of French and English will be carefully compared. Weekly exercises.

Text-Books: Otto's *Grammar*; *Le Roman d'un Jeune Homme Pauvre*, and other easy plays.

SENIOR CLASS.—Three hours weekly. In this year special attention is given to the verbs and syntax of the language. Translation from French to English will be continued throughout the year; in the latter part of the session the *History and Literature* will be studied. Weekly exercises.

Text-Books: Otto's *Grammar*; Corneille; Racine, Molière.

GENERAL INFORMATION.

ORGANIZATION OF CLASSES.

Applicants for admission will be assigned to such Classes as the Professor in each department shall, after examination, determine.

Believing that irregular courses of study are demoralizing to untrained minds, the Faculty urges all matriculates to take one or other of the two Bachelor of Arts (A. B.) Courses that the College offers. Recognizing, however, the fact, that a few applicants have neither the time nor the fitting for a regular course, it is willing to grant, in exceptional cases, the privilege of an election of studies within limits determined by itself, and always with the condition that the time of the students be fully occupied.

TIME OF ENTRANCE.

Attention is invited to this paragraph.

Patrons of the College are earnestly requested to take care that their boys are present on the first day of October, when the entrance examinations are held, the classes organized, and the recitations begun. Those who enter after this time necessarily lose some part of the instruction, and are thus at a disadvantage in comparison with their more punctual classmates. Boys that delay their coming for a few weeks usually find themselves hopelessly behind, and are forced to drop into lower classes. Let it be especially noted that the middle of the session is not the time for entrance, for as the classes are then half advanced, it is almost impossible to classify those who at that time apply for admission. So far from gaining time, the whole year is often lost in this way. The Faculty begs that parents, guardians and students give serious attention to this matter.

EXAMINATIONS.

Written and oral examinations are held, both to test the qualifications of applicants for admission and also to determine in connection with the current standing of the student, his fitness to pass on to the higher classes. The time and manner of these examinations are left to the judgment of each Professor; their length is limited to three hours. The Professors determine the condition of advancement from lower to higher classes in their several departments. A student failing to pass will be required either to take the same class another year or to do such extra work as the Professor may deem necessary.

REPORTS.

During the Session four reports are sent to the parent or guardian, in which is given an approximate estimate of the class standing and department of each student.

The Faculty begs parents to note carefully any failure or falling off in the boy's work and to appeal to him at once. When it is thought necessary, special remarks will be added to the reports.

HONORS AND DEGREES.

1. Certificates will be given to irregular students that complete the course of study in any department.
2. The degree of Bachelor of Arts (A. B.) will be conferred upon students that complete either of the following parallel courses of study.

I. The Departments of Mathematics and Astronomy; English Language and Literature; Latin Language and Literature; Greek Language and Literature; Metaphysics and Political Science; Physics, Chemistry, and Geology.

II. The Departments of Mathematics and Astronomy; Physics, Chemistry, and Geology; Latin Language and Literature; German and French; Metaphysics and Political Science; English Language and Literature.

3. The degree of Master of Arts (A. M.) will be conferred on any Bachelor of Arts of this College who shall pass a satisfactory examination on courses of study prescribed by any two professors the student may choose.

Students offering for the degree of Mastor of Arts (A. M.) are required to stand their examination at the College.

LITERARY SOCIETIES.

The Calhoun and Preston Literary Societies meet weekly in their well furnished halls, for improvement in Declamation, Composition and Debate. Their orderly management and generous emulation make them a helpful element of collegiate training, and they are regarded by both students and Faculty as an indispensable part of the machinery of instruction. Their Anniversaries are held in November, and their final celebrations during the Commencement Exercises.

The beneficial influence of these Societies confirms the authorities in enforcing the rule that every student on entering College shall connect himself with one of them.

READING ROOM.

An excellent Reading Room has been established and provided with a good assortment of Magazines and Newspapers. To the privileges of this Room all students are admitted. This has become one of the most popular and helpful educational influences of the College. Its effect is marked in the encouragement of a thoughtful inquiry into current questions; and it has conducted in no small degree to the growth of good reading habits among the students.

LIBRARIES.

The Libraries of the College and of the Literary Societies, containing six thousand volumes, conveniently arranged, are opened, under proper restrictions, to all students.

The Classical Library, bequeathed to the College by the late Prof. David Duncan, is a valuable collection of fifteen hundred

volumes, comprising the Latin and Greek Classics, numerous commentaries and histories, and many old and interesting books not to be found outside a few select libraries.

RELIGIOUS OPPORTUNITIES.

All students are required to attend daily prayers in the College Chapel, and each student is expected to attend divine services on Sunday in any Church he or his parents may prefer.

Weekly prayer meetings, to which all students are gladly welcomed, are conducted by the Young Men's Christian Association of the College.

PRIVILEGED STUDENTS.

All students preparing for the ministry, and the sons of itinerant ministers, are exempted from the payment of tuition, but are required to pay all matriculation fees. Ministerial students must present the recommendation of the Quarterly Conference of the pastoral charge to which they belong, and if not sons of itinerant ministers, must give their notes for the full amount of their tuition, payable in the event of their failure to enter the work of the ministry.

LOCATION.

Wofford College is located in Spartanburg, a healthy and thriving town of Upper South Carolina, situated twenty miles from the mountains, in a region noted for its healthfulness, its pleasant scenery, and the excellent moral tone of its people. It is the summer resort of many living in malarious parts of the State, and the abundant productions of the surrounding country make the cost of living in it unusually cheap.

ROUTES.

Spartanburg is easily reached by the following railways and their connections: Spartanburg, Union and Columbia Railway, Atlanta and Charlotte Air Line Railway, Asheville and Spartanburg Rail-

way, Greenwood, Laurens and Spartanburg Railway. Several telegraph lines offer students speedy communication with their friends.

MESS HALL.

The Mess Hall offers peculiar advantages to those wishing economical boarding. The average monthly expense for the table is under seven dollars. We are planning to increase the facilities for this class of students. Very material reduction in the expense of a college course is gained by those wishing to board themselves. We invite correspondence with parents or students on this point.

EXPENSES.

The necessary expenses of a student in this College are very small.

Tuition Fee, payable in October and February \$60 00
 Matriculation Fee, payable in October and February . . . 10 00
 Board from \$7 to \$15 per month.

Thus the expenses of the whole Collegiate year are ;

Tuition \$ 60 00	Tuition \$ 60 00
Matriculation . . 10 00	Matriculation . . 10 00
Board 127 50	Board 59 50
\$197 50	\$129 50

Chemistry Fee (for Chemistry Students only) strictly in advance \$ 4 00
 Diploma Fee 5 00

The authorities beg leave to remind patrons that tuition fees must be paid in advance, half in October and half in February, and are not refunded in whole or in part except in case of protracted sickness.

If, for any reason, indulgence is desired, special arrangements must be made with the Treasurer of the College.

The Matriculation Fee must be paid in advance, half in October half in February. This fee is not refunded in any case, and no indulgence is granted.

The Board of Trustees has made the following regulations to govern the financial administration of the College :

"*Resolved*, That the Treasurer shall have entire and sole charge of all matters connected with the finances of the Institution; shall collect all fees due the college from students, and be responsible to the Board of Trustees, through the Executive Committee, for the proper discharge of his duties.

"*Resolved*, That the Treasurer shall collect the fees for tuition and incidental expenses for each session *in advance*. But whenever this cannot be done, he may, in his judgment, receive, *for tuition fees alone*, the note of the parent or guardian for the amount, bearing interest at the rate of ten per cent. per annum, and payable ten days before the close of the session, with the distinct understanding that, if not paid by that time, the pupil will not be allowed to pass to a higher class or to graduate. This is not intended to apply to worthy young men, who are, under present regulations received, and who give their own note, payable after graduation."

Students in A. B. Course I. are allowed an election in Senior Year between Latin and Greek.

WOFFORD COLLEGE.

TO THE FATHER AND MOTHER WHO SEND THEIR
SON TO US.

Before your son leaves home for College, give him a last, earnest charge to be reverent, truthful, pure in language as well as in life, obedient to all proper authority, industrious and modest. Let these elementary foundations of character be well laid.

Have him here in time to begin the studies of the first day. As our work is arranged, it is a serious loss to a student, except in very rare cases, if he is absent for any part of a session. If financial difficulties seem to require you to keep him at home until January, write to us in time, and we will do all in our power to bring him here on the first day of October. We propose to give one day only at Christmas. Unless for very special reasons, please do not ask for a longer time. Our college year is quite short, and we need all of it to do our work well. Every day's absence for any cause, adds one to the probabilities of his failure.

Unless you choose a boarding house for him, let him consult us. To become a boarder, will be a striking change in his life. He needs some wise hints, just now, from his mother. His behavior at the boarding house does much to honor or to shame his home training. Make your wishes clearly known to him, as to his manner of spending Sabbaths, and a regular, well-behaved attendance at your church and Sunday-school. If he is a member of any church, charge him by all means to make himself known as such when he comes here. Expect him to be consistent. Question him from time to time, about his habits, in all these very important respects. Let your warnings about the dangers of profanity, vulgarity, gaming, drinking, irregular hours, promiscuous visiting, questionable associations, and seductive friendships, be very particular and repeated. If he is to succeed as a student, many pleasant things, not wrong in themselves, must be given up, during the working part of the year. Do not give him an amount of money which invites extravagance. You may perhaps be able to afford this. The parents of most of his fellow students can not. Teach him the value of money, and the danger of debts. His happiness and success while here will not depend, in any degree, on fine clothes, livery-stable rides, or a wide margin of pocket

money. Perhaps, there is no place where money has less to do in fixing a man's position, than in a College campus. Intelligence and integrity determine the standing of every student. Therefore, your boy can surely win his proper place, in the estimation of Professors, fellow students, and in the community, without any display of money.

When he enters College, he will be expected to join one of the two Literary Societies. The libraries, and weekly exercises, may be of great service to him, if he will use them wisely. There are, besides, several Secret Fraternities. The student who joins one of these, does not violate any College law. The Professors are sometimes asked by parents, and by students, as to the benefit of a connection with them. We are willing to give you, very frankly our judgment, that it may be best for your son not to join any Secret Fraternity.

Write to him often and freely. Write to us at any time, giving us full information about his health, temperament, causes of discouragement, supposed grounds of complaint against any College regulation, etc., as this may enable us to give him timely help. We propose to trust him generously, in all our intercourse with him, professional and private. Let us work together, in trying to make him every way worthy of the confidence, which, you and we alike place in him, just now, when he is making the great change from the "negative innocence of boyhood, to the tried virtue of young manhood."

May he in coming life, richly repay all your parental sacrifices and cares!

JAS. H. CARLISLE,
For the Faculty.
