Welcome Back Meri Lynch

We are pleased to announce that Mrs. Meri Lynch has returned to the college as Director of College Programs. In this new position she will operate the Student Employment Program helping students find off-campus employment. Mrs. Lynch will also serve as Panhellenic Advisor and will assist with the volunteer services program. Her office is located on the second floor of the Campus Life Building next to the Bonner Scholars Office. Her extension is 4045.

Through the Years on the Web

Spend a few minutes with Wofford history this week! There are three new entries in the Through the Years feature at www.wofford.edu - the experiences of a Japanese student who graduated in 1910; the football exploits of Claude Finney '29; and suggestions on choosing a college by President Henry Nelson Snyder, an article originally published in 1940.

Publicity for awards and honors

This is the time of year when organizations and departments are presenting awards and the various honor societies are electing officers and inducting new members. Please remember that publicizing such student recognition is very meaningful to parents and other folks back home. The communications office is eager to prepare and distribute news releases, but we need the appropriate information from your organization. Simply e-mail Laura Corbin (corbinlh@wofford.edu) or Doyle Boggs (boggsdw@wofford.edu). You also may send a summary to the Communications Office through campus mail.

Emphasis in Information Management (EIM)

Business and Computer Science--Emphasis in Information Management

Realizing the importance of information management as it relates to business, the Departments of Computer Science, Accounting and Finance, Economics, and Foreign Languages are proposing an Emphasis in Information Management (EIM) for interested students who are obtaining a business-related major. Pending Faculty approval, coursework and an internship experience will afford such students a solid grasp of information management subject areas, particularly in 'the capture, digitization, representation, organization, transformation, and presentation of information; algorithms for efficient and effective access and updating of stored information, data modeling and abstraction, and physical file storage techniques.'

The proposed requirements for an Emphasis in Information Management (EIM) are as follows:

1. Major in Accounting, Business Economics, Economics, Finance, or Intercultural Studies for Business
2. Programming in C++ (CS 235; offered MWF at 9:30 and 1:00 in the fall)
3. Data Structures (CS 350)
4. Introduction to Databases (CS 330) or Advanced Web Programming (CS 335)
5. Software Engineering (CS 410)
6. Internship involving computing in business (no course credit)

If you have any questions, please contact Dr. Angela Shiflet, shifletab, #4258, OB 204 F.

Women In Medicine

The Health Careers Society has invited Dr. Nancy Henderson, a local pediatrician, to speak on the topic of women in medicine--specific challenges, advantages, disadvantages, etc. The meeting will be in the Milliken Pit on TUESDAY, APRIL 9th at 6:30 PM. (Rising seniors, this is immediately following room lottery--come as soon as you can). Following her talk, we will have a question/answer session and perhaps move into the Acorn Cafe.

Cultural Affairs Reminder

Proposals for Cultural Affairs funding were due yesterday, April 10. The committee will consider proposals submitted by Friday, April 12. Please send proposals via e-mail to richardsmm@wofford.edu or by snail mail to CPO 82.

Proposals should include as much specific information as possible about speakers' fees, travel and publicity expenses. Also helpful is an indication of the success of previous programs, especially audience size.

Philosophy Lecture on Globalization

This Thursday, April 11th, at 7:00 pm in the Papadopoulos Room, the department of philosophy will host a lecture by Professor Liam Harte entitled 'A Spanking from the Invisible Hand: The Moral Consequences of Globalization.' Birch Family Camp interest meeting

Now in its 14th year, Birch Family Camp is a week-long camp held every August in Putnam Valley, New York for families from New York City living with HIV/AIDS. Birch Camp provides a sanctuary for those infected and affected by HIV. Children get 'to be ordinary for a change' and participate in typical summer camp activities and parents get a needed rest and break as more than two hundred volunteers (including an expert medical staff) are responsible for the workings of the camp's two sessions. Over the last five years, twenty Wofford students have volunteered at Birch as counselors, lifeguards, and activity (Nature, Arts&Crafts, Sports, etc.) specialists. The first session of Birch Camp runs August 11 - 19. Several Wofford students plan to return and would love for more members of the Wofford community to join them. An interest meeting will be held on Tuesday, April 16th at 8pm upstairs in the Campus Life Building (outside Dean Line's and the Bonner Scholars Office). All those interested in Birch Camp are encouraged to attend. If you are interested and unable to attend the interest meeting or if you have questions, please contact David Hoyle at x5448 or hoyletd@wofford.edu .

Don't miss this wonderful, free program of music from Spain, Brazil, and Mexico.

This is a reminder that your book adoptions for the Fall 2002 semester are due no later than Monday April 22nd. The form says the 20th which is actually Saturday, but these book orders have to be turned into the bookstore no later than Monday.

If you are teaching a class during the summer terms, the deadline for ordering books has already passed - they were due on April 15th. Thank you for your cooperation.

Share your good news

This has been a busy year off-campus for Wofford faculty, staff and students. You have published articles and books, you have won prestigious grants and awards, and you have held organizational offices at state and national level. At the request of President Dunlap, I am trying to put together a list of such achievements for use in various public information programs. I need you help in sending me information about your own activities and those of Wofford colleagues and friends. I would prefer e-mail (boggsdw@wofford.edu) or written notes through the campus mail rather than phone calls, but I do not need anything elaborate- just 'bullets' that cover the basic five W's- who, what, when, where, why the reader should care. I would greatly appreciate your response on or before April 30.
Thank you very much.

Rising Juniors: Career Planning Workshop

Sign up during lunch on Monday for the Career Services 'Career Planning' workshop. There are six workshop times from which you can select. This workshop is especially important for those who will be off campus during the fall of '02.

Subject: Wofford College Information Help Desk - KLEZ Virus information
Date: April 30, 2002 at 12:18 PM
To: Wofford_Faculty_Staff webmaster@wofford.edu

KLEZ virus generates blank e-mails

The campus is experiencing e-mail traffic generated by the KLEZ computer virus.

The virus sends e-mails to addresses in the infected computer's e-mail address book. The e-mails sent *appear* to come from addresses other than the actual sender, which is confusing to the recipient.

Computers protected by virus protection software (Wofford-owned computers are protected) will NOT get this virus, but may still receive e-mails (often blank) already cleaned by campus anti-virus software.

While inconvenient, the remedy is simply to delete these e-mails. Unprotected users should acquire anti-virus software for their computers as soon as possible.

Mac/Unix/Linux machines are unaffected by KLEZ. More information is available at www.symantec.com.
