The Hypnosis of Michael C. Anthony

See the Show or Be the show... Thursday at 8pm in Leonard Auditorium.

Imagine... You’re sitting in the front row and several of your good friends are up on stage to volunteer for Michael C. Anthony’s performance. Michael utters a few words, snaps his fingers, and you see your friends, one by one, drop to the floor sound asleep.

Michael then works his 'magic' and upon awakening, one of your friends suddenly jumps to her feet, grabs the microphone, and starts singing because she believes she is Madonna. Another friend has a horrified look on his face because he can’t remember his name no matter how hard he tries. Somebody else is frantically scratching all over her body from imaginary insects. All along your most intelligent friend has been rolling all over the stage in combat, shooting invisible aliens with his shoe!
