JOSEPH MOORE, a pioneer of Southern Methodism, was born in the State of Virginia, in 1767. In his childhood his parents removed to Rutherford county, N. C. He enjoyed the advantages of early religious training, and in youth became a subject of Divine grace. He was licensed to preach in his nineteenth year, and five years afterwards admitted into the travelling connection. The Minutes show that he labored fourteen consecutive years in Virginia and North Carolina. In 1806 he located, which relation he retained until 1820, when he was readmitted into the So. Ca. Conference, where he remained until death released him from his toils and sufferings. Either as a travelling or local preacher, he sustained the character of a workman that needeth not to be ashamed. Though athletic in body and vigorous in mind, yet both failed him under protracted years of toil and disease. He has passed away. His worn out body sleeps in a peaceful grave, and his sainted spirit has flown to its home in the sky. He died in peace on the 14th of Feb., 1851, in his 85th year, having been 67 years a worthy member of the Church, and about 65 an effective minister of the Gospel of Christ.

"Servant of God well done;
Rest from thy loved employ;
The battle's fought, the victory won—
Enter thy Master's joy."

REDDICK BUNCH, son of the Rev. John Bunch, formerly of the So. Ca. Conference, died in great peace, at the house of Thomas Hardee; his kind physicians and friends could not turn aside the fatal shaft. He had but just entered upon the mission field, and the second year of his itinerancy, on the 14th of Feb. last, he was called to his reward. He was pious, devout and useful.

REPORT OF THE BOARD OF MANAGERS OF THE S. C. CONFERENCE MISSIONARY SOCIETY.

The Board of Managers of the Missionary Society of the So. Ca. Conf., on the recurrence of another anniversary, tender to the members of the Society, and to the friends of the holy cause in which they are engaged, sincere and hearty congratulations upon the triumphant success, which, under the blessing of God, has crowned their past labors, and the cheering prospect spread out before them in the future. In reviewing the history of the operations of the Society from the beginning, the devout heart swells with gratitude to God for the visible tokens of his divine approbation which have marked, without intermission, her onward career to the present time. The weapons of her warfare have not been carnal, but mighty, through God, to the pulling down of strongholds. A comparative view of the condition, physical and moral, of the negro race in the South, at the present day, and in 1829, when God put it into the hearts of members of the South Carolina Conference—still living—to essay, through Missionary labors, to Christianize and save them, must at once confound every infidel opponent of the enterprise, and cause the heart of the Christian philanthropist to overflow with joy.

Twenty years ago—multitudes of slaves, in sections of our country sparsely settled by the whites, were confined to plantations, remote from churches, and inaccessible to the ordinary efforts of the ministry. In numberless instances, no man cared for their souls. Shut out from the lights of the gospel, and the humanizing influences that spring from contact with the whites, they walked in the darkness of their father-land, and dwelt, literally, in the region and shadow of death. Now, every such portion of our territory is dotted with churches dedicated to their use. A special ministry is organized,

and constantly employed in laborious efforts for their religious improvement, whilst the night of their misery and wretchedness is fast disappearing before the advancing beams of the Sun of Righteousness. Hundreds of these precious souls for whom Christ died, have been turned from darkness to light, and from the power of Satan, unto God, in each successive year of missionary toil, and after devoted and exemplary lives spent in the service of the church on earth, have gone to rest with Lazarus in Abraham's bosom, and to form radiant stars in the diadem of the Redeemer. Meanwhile, the gospel in its onward progress, has been deepening and widening the channel of its influences among them. The leaven of Christianity operating silently but powerfully upon individuals, has rapidly spread through the whole mass. The negroes have been elevated in the scale of being, and made better men and better servants. Many have seen it, and feared and trusted in the Lord. The hasty apprehensions of the planter have vanished before the practical workings of a society, which, instead of imperilling his interests and safety, have firmly secured both, by converting the lazy, discontented, and vicious population of his estates, into one industrious, happy, and trust-worthy. Such has been, and such must continue to be, the results of the labors of a society which teaches for doctrine, not the commandments of men, but the hallowed precepts of an inspired apostle: "Servants, be obedient to them who are your masters according to the flesh, with fear and trembling, in singleness of your hearts, as unto Christ. Not with eye-service as man-pleasers: but as the servants of Christ, doing the will of God from the heart. With good will, doing service as to the Lord, and not to men: Knowing that, whatsoever good thing any man doeth, the same shall he receive of the Lord—whether he be bond or free."

In 1829, when our operations began, the So. Carolina Conference gave to the Church a membership in the proportion of 16,000 colored to 18,500 whites. Now she gives 37,850 colored to 30,906 whites. How the Missionary Society connects with this gratifying increase, and to what extent she is to be credited for an enlarged membership, both white and colored, may, perhaps, be best exhibited by placing our Conference in juxtaposition with some of our neighbors. In 1829, the territory now embraced in the Virginia and North Carolina Conferences, gave to the Church a membership in the proportion of 9,700 colored to 28,300 whites. Now it gives 16,687 colored to 57,012 whites. Thus, our Conference, with very nearly its present contracted limits, has, in a little more than 20 years, outstripped both the aforesaid Conferences, operating together in a territory more than three times as large, in an almost quadrupled ratio, as it regards the colored membership, and more than kept pace with them in the white membership. In 1830, our annual missionary contribution, including anniversary, amounted to only \$261.33. Now it is \$17,743.76. The two Conferences aforesaid together \$12,452.89. How comes this result? It is the effect of the Missionary fire kept constantly burning on the altars of this Society, and diffusing heat, and animation, and vigor throughout our entire Conference system. Nor have the good effects been confined to ourselves. They have extended to sister Conferences, and caused the heart of the entire Church to throb with new pulsations of life. A vast change, too, has been superinduced upon the entire Southern mind, and the general condition of the slaves everywhere incalculably improved. That cautious jealousy which Northern fanaticism engendered, and which watched the opening efforts of Missionary enterprise with a vigilance and severity which amounted, in effect, to a prohibition, has given place to a permissive policy, which grants free access to plantations every where in our Southern country: a religious sentiment with regard to the evangelization of the blacks, deep and permanent among the planters, has been developed into active and systematic efforts for their christian improvement, whilst a sound public opinion protects and guards their rights, and places them for comfort and happiness, far in advance of the poorer classes of every other nation under heaven.

Thus, whilst the pseudo-philanthropist has been saying, be ye warned and filled, but supplying neither clothing nor food, our devoted missionaries

have been penetrating swamps and savannahs, brooking labor and exposure of all kinds, to save from death eternal the precious soul of the negro. There is not a field occupied whether at home or abroad, in which a more self-sacrificing spirit is demanded, and in which the sustaining principles of the gospel of Christ are more necessary, and at the same time more beautifully exhibited, than in our *Domestic Missions to people of color*, and the Ethiopian may as soon be expected to change his skin, or the Leopard his spots, as the natural man patiently to endure the hardships of our missionaries, or fully to appreciate the motives and feelings that urge them, from year to year, to undertake these god-like labors. But none of these things move them, neither count they their lives dear unto themselves, so that they might finish their course with joy, and the ministry which they have received of the Lord Jesus, to testify the Gospel of the grace of God, and fill up that which is behind of the afflictions of Christ in their flesh, for his body's sake, which is the Church. Here is devotion pleasing to Heaven—self-denial richly to be rewarded when Christ shall come to reckon with his servants. What higher honor than to be counted worthy to labor in such a cause! What richer portion than to be translated to heaven from such a field!

"Dulce et decorum est pro patria mori,"
"It is sweet to die for one's country,"

is a poetic and truthful sentiment, that has thrilled the heart of the patriot in every age. But how infinitely better to die battling for the Lord of hosts, and in defense of the interests of our holy religion. Such has been the lot of one of our devoted number during the past year. Brother Bunch is no more. He fell in the battle field, and died covered with glory. "His witness is in heaven, and his record on high."

From the regular quarterly reports of our beloved brethren Taylor and Jenkins we are encouraged to hope for the richest results from their labours in the Celestial Empire. They are doing a great work. In much toil and sacrifice, they are in connexion with other devoted men of sister denominations, preparing the way for the establishment of the Christian Church in that far off pagan land. And though in the providence of God, the Church may be called to exercise much faith, and patience, before she is cheered with the news of the multitudes, turned from idol vanities, to serve the living God; yet ought she not to yield to discouragement. It was twelve years before the apostolic mission to the Empire of Pagan Rome, was honored with the conversion of the first heathen idolater; 388 years passed away before a senate vote was obtained, and that, too, under the auspices of a Christian Emperor, Theodosius, declaring the religion of Christ the religion of the Empire; 1000 years more were required for the extinction of Paganism from the land. But who doubts the value of this first apostolic mission of which Saul and Barnabas were the chosen agents and master spirits? What a tide of prosperity and power has flowed into all nations which it has visited? And yet, what centuries of toil—what thousands of martyrs—what millions of money has this mission cost the church? God has dealt even better with us. Already have our representatives been honoured with the conversion of the Chinese Senate recognize the religion of Christ as the religion of the land, and a thousand years in addition before Paganism is extinguished. And what though all this cost labour, and men and money, shall we despise? Nay, verily the work is of God. We will multiply our agents—we will redouble our exertions, surely trusting in the promised blessing. "For as the rain cometh down, and snow from heaven, and returneth not thither, but watereth the earth, and maketh it bud and bring forth that it may give seed to the sower and bread to the eater, so shall God's word be that goeth forth out of his mouth. It shall not return to him void, but shall accomplish that which he pleases and prosper in the thing whereto he doth send it."

The geographical position of California, midway between China and the enterprising Christian nations, invests it with peculiar interest as a theatre

for missionary operations. It is destined to become the channel through which all intercourse is to be kept up between Eastern Asia and Western Europe. Consequently it is of the last importance strongly to fortify this land with Christian principles, and erect it into a beacon for the guidance of all nations to the true religion. The mixed character of its population presents another interesting feature. What means the providence of God by bringing this land under the dominion of the principles of free religious toleration, and gathering into it representatives from all nations? Is not California to be the seminary for preparing teachers for all heathen countries, and the open door through which the church is to find most ready access to the empires of Paganism? Already are 6000 Chinese to be found in this land of gold! More languages are now spoken on the Pacific coast than were spoken in Jerusalem on the day of Pentecost. What must be the result of a general revival of religion in this polyglottal nation? As in the early dispersion of the disciples from the Jewish Capitol, "they went everywhere preaching the word" so these new converts burning with zeal for the true religion, must return to their several lands, and scattering the seeds of Christianity broad-cast over the nations, yield a rich harvest to the Redeemer. We would therefore especially cherish this mission field and strive to impart to it all the element of success.

The number of missions under the immediate supervision of this society is twenty, two of these are missions to the whites and eighteen to blacks. They embrace a membership of 674 whites and 8700 colored, exhibiting an increase since the last annual report of 227 whites and 304 colored. The number of children under catechetical instruction is 107 whites and 5185 colored. 248 plantations are served by 25 missionaries, as follows:

The Board recommend the division of this field into a circuit and mission, the former is to be called Mt Tryon, the latter Table Rock.

10. *Wateree Mission* has been served by Rev'ds D. G. McDaniel and A. J. Cauthen. There are 10 preaching places convenient to from 3 to 4000 persons, 35 plantations, 48 white and 866 colored members, 714 children catechized.

JOINT BOARD OF FINANCE

REV. F. BOYD OF FINANCIAL.
Revs. H. A. C. Walker, C. H. Pritchard, W. Martin, C. Murchison, C. S. Walker, J. Stacy, and W. A. McSwain; and F. R. Shackelford, R. Bryce, Penn H. Nutt, J. P. Smith, Esquires, and Dr. W. J. T. Miller.

REPORT OF THE BOARD OF FINANCE.

REPORT OF THE BOARD OF FINANCE.
The Joint Board of Finance respectfully report that they find themselves under the painful necessity of settling with deficient claimants at a discount of 48½ per centum. Though this is an improvement on last year, yet the advance is so trifling, and the deficiency still so great, there is little cause for congratulation, while there is occasion for deep regret, and perhaps, also, for much self-reproach. It ought to be said, however, that while many places appear very deficient, others have cheerfully reached the assessment made by the Board last winter, while a few have gone beyond it: nor are the places which have met the claim more wealthy, proportionally, than those where the drafts have been dishonored. It should be borne in mind, however,

that it was late in the year before proper efforts were put forth in this particular direction; so that the greater part, perhaps all, of the blame is lying at our own door. The Board asks earnestly, *cannot this reproach be wiped away from us and from our people?* We think it can if timely and proper efforts be made by all concerned in accordance with the Plan of Finance. That this interest may not be put off too late, and so fail, again the Board recommend to the Conference that the second article of the Plan of Finance be so altered as to read as follows:

Each preacher in charge shall take up a conference collection, in the usual manner, in the early part of the year, and as soon after receiving his appointment as he can arrange for it, and shall take up a second similar collection in the course of the year, should the first fail to reach the assessment; and shall make all other proper efforts to collect the amount apportioned to his charge by the Board.

The Board also recommended that the eighth article be stricken out, the requirement thereof being more definitely provided for in the foregoing alteration.

The Board further recommend the adoption of the following

OUR OWN WILMINGTON CHURCH.

REPORT ON WILMINGTON CHURCH.

The Committee to whom was referred the communication of Bro. James Cassidy, of Wilmington, N. C. beg re peetfully to report: That they have had the aforesigned letter with several others of a similar kind, from influential sources, addressed to different members of this body, under careful advisement. The committee learn from these reliable sources, that very serious dissatisfaction prevails among various of the most worthy members of the M. E. Church at Wilmington, with the arrangements made at the late N. C. Conference to supply that station with ministers during the ensuing year. In withdrawing the Rev. W. G. Connor from Wilmington after stamping him there at the last session of the S. C. Conference, Bp. Paine is understood by bro. Cassidy and his friends, to have pledged to them the appointment, every alternate year of ministers from this body. With this pledge both parties in Wilmington professed, at the time, to be satisfied, and all opposition to the N. C. Conference preachers was withdrawn. By some unfortunate mis-understanding it seems to have been supposed by the representatives of Wilmington, at the late session of the N. C. Conference, that it had become a matter of indifference to our friends whether Bp. Paine's pledge was carried out or not; and in fact, the Conference aforesaid claimed, under the grant of the General Conference, the right to make null and void all the prospective arrangements of Bp. Paine, and demanded of Bishop Andrew that Wilmington should be served exclusively an exequoritatem hereafter, by ministers of her own body, refusing to the Bishop the exercise of all discretionary power in the premises, and hazarding all issues that might grow out of the repudiation of former pledges. From the evidence before the Committee it is found that a painful state of excitement now prevails in a portion of the Wilmington society, as the result of the appointments made at the N. C. Conference; and we are earnestly called on to suggest some measure which may afford relief to these members. Deeply afflicted, they took to the S. C. Conference, now in session assembled, for protection and aid. This state of things has enraged the enemies of your Committee. For the present they see no constitutional remedy open to them but to recommend to the Wilmington brethren to appeal to the Bench of bishops. A meeting of these venerable overseers of the flock will be convened at Mobile, Ala. in a few weeks. It is thought by your Committee, that a memorial addressed to them setting forth the true state of the case, would not only meet with respectful notice, but might lead to the adoption of prospective measures, which might prevent a schism in the Wilmington church, and forestall unhappy consequences until it can be ascertained whether the General Conference will reconsider its ill-advised action in respect to the territory excluded from the N. C. Conference. Your Committee accordingly recommend, for the adoption of this body, the following resolution:

R. so're. This we sympathize most deeply with our afflicted brethren of Whitington, as well as with these similarly circumstanced in other portions of the transferred territory; we rejoice tender to them in the assurance of our deep and unshaken interest in their spiritual welfare and entertain a lively recollection of former days of happy pastoral intercourse with them before the approach of sedition and peace to the young state.

Resolved, 2. That in view of our undiminished confidence in the *conservative* character and power of the Ep's option, for the exercise of which there never has occurred a more urgent or fitting occasion; and in the assurance that the court of appeals is of these venerable fathers of the church may devise a remedy for the painful state of things now existing; we hereby recommend to our Washington brethren to appeal by memorandum to the bishops, at their meeting in Mobile, next. It is convenient for them to conclude upon carrying out at least the *spirit* of Bishop

Paine's provisional arrangement after the close of the ensuing year; and th's Annual Conference hereby in earnestness and respectfully commends to the notice of the Bishop whatever petition or memorial may be presented from our brethren in Wilmington, or any other portions of the excised territory.

Resolved. 3. That, should the remedy suggested in the foregoing resolution fail, this Annual Conference still will not despair of devising means to prevent the loss to Methodism, of the valuable and beloved families now involved in painful distress in the community aforesaid.

Resolved. 4. That it is the firm conviction of the S. C. Conference—long entertained and deepened by the occurrences of the last two years—that the maintenance of the rights of Annual Conferences, touching the matter of boundaries and the transfer of territory, is vital to the peace of the church; that no important changes in these particulars, should be made by the General Conference without due consent, and especially against the protest of Annual Conferences. And we again pledge ourselves to use all constitutional and honorable means, at the next session of the General Conference, to have the excised portion of our territory restored to the ecclesiastical connection it has held for the last half century.

Resolved, finally. That a copy of the foregoing be forthwith forwarded by the Secretary of this Conference, to Dr. Bellamy, and Messrs. Cassidy and Nutt, the committee on whose representations, last year, Bishop Edmonson entered into the stipulations referred to in this report.

All of which is respectfully submitted. W. M. WIGHTMAN, chairman.

RESOLUTIONS.

Resolved. 1. That the first Friday in April and October be observed as days of fasting and prayer throughout the Conference district, and that our preachers, as far as may be practicable, assemble our people at their respective places of worship, and that they make special and earnest prayer to Almighty God for an outpouring of his Spirit upon the Church, and for an increase of laborers in the Gospel Vineyard.

Resolved. 2. That we, as members of the S. C. Conference, in view of the melancholy cases which have come up in review before us at our present session, do observe in our ministerial character, the first Friday in April as a day of humiliation before God, and that we, in private and public, earnestly pray for each other, and for the purity and success of the word as preached by us.

The S. C. Conference having learned with great pleasure, that the Rev. Dr. Summers has nearly in readiness for the press, a treatise on the subject of Infant Baptism: Therefore,

Resolved, That in the judgment of this Conference such a work from the pen of Dr. Summers, is called for, and promises great good to the Church, and we cordially recommend its publication.
