Lab One Card Program

To: Guardian Major Medical Participants

From: Human Resources

The Lab One Lab Card Program is part of our current healthcare plan that allows Guardian insured and their dependents to receive free outpatient laboratory testing. Lab One is a fully accredited and certified laboratory, licensed by the U.S. Department of Health and Human Services and is also accredited by the College of American Pathologists and certified by the Substance Abuse and Mental Health Services Administration.
The following options are available for free outpatient laboratory testing:

(1) Participating physicians may collect the specimen in his/her office and send the specimen to the LabOne facility in Greenville. Some physicians may charge a minimal collection fee that will be subject to the annual Guardian deductible, but the lab analysis, if performed by LabOne, is free. Fees charged by other laboratories are subject to the annual deductible.

(2) Lab Card members whose physicians do not collect specimens in their office can call LabOne at 1-800-646-7788 (also printed on the Lab card) to see if there is an approved LabOne collection center in their area.

(3) Exam One, located at 1218 H. John B. White Sr. Blvd., Suite A is an approved LabOne collection center. They will collect the specimen at no-cost to you and send it to the Lab One facility in Greenville via same day courier service or express overnight for specimens collected after courier pick up. The results will be sent to the participating physician in approximately 24-48 hours for routine lab work. Their office hours are 8:30-5:00, M-F, and their number is 595-0988. Patients are to obtain a lab work order from their physician and make an appointment with Exam One. Patients must present the work order, Guardian insurance card, LabOne card and drivers license at the time of the appointment.

Patients are under no obligation to use Exam One. It was offered as an option to the closure of the Spartanburg LabOne facility. Participating physicians should be agreeable to and accommodating in using the services of LabOne. If they are not, it is a significant concern and worthy of investigation. Wofford College, LabOne, and Guardian are committed to providing quality and satisfactory service, and resolving participant’s issues. You are encouraged to address any specific problems you have encountered or may encounter when using the LabOne Lab Card Program with Human Resources.

The same “no-cost” benefit is applicable to biopsies, cultures, and pap smears.

Supervisors, please remember to share this information with employees who do not have access to blast email.

**Student Research Meeting**

Good news. The Board of Trustees has formally endorsed faculty/student research. Our next steps are to plan how to 'institutionalize' the activity. I take that to mean, among other things, that we create a formal place for it in our curriculum, provide for funding, workload credit and promotion/tenure credit for faculty, along with several other features.

Dr. Maultsby and I have identified time for a luncheon meeting to determine how to proceed. The purpose of the luncheon is to learn what tangible and administrative support we need so that student research will be most effective:

Thursday, April 10, Holcombe room in Burwell building, 11:00 am lunch will be provided.

Interested students, faculty, and staff are invited.

If you wish to attend, please respond to me at scottdm@wofford.edu and I will forward an advance agenda of topics that must be considered. Also, I can get a head count (one head per person, please) so we can put enough goodies in the oven for everyone.

Dr. Don Scott  ext.4643
