To: Wofford College Faculty and Staff  
From: Bernie Dunlap  

At the end of September, we concluded two arduous but productive years during which the entire administrative staff of the college was engaged in implementing the Banner administrative software system. Many worked long hours and endured frustrating complications, but they consistently displayed extraordinary cooperativeness and good will--and they have brought us to the present milestone on time and under budget. Their heroic effort deserves recognition, and, in their honor, we are declaring Friday, December 26th, and Friday, January 2nd, to be official college holidays. Individual offices should determine whether some sort of token presence is needed on those days. But everyone should join me in congratulating those in whose name this announcement is being made. If you are one of the many who contributed to this noble effort, you have earned this reward. If, like me, you are merely one of the beneficiaries, be sure to thank your colleagues.

Wofford's College Bowl Team performed well at this past weekend's tournament at Georgia Tech. Wofford's next tournament will be November 14-15 at Berry College.

Courage to Care

Positive Peer Influence on the College Campus.

In 1990, Carolyn had called a college friend with the tragic news of a drunk driving accident involving a fellow sorority sister. 'Oh, Carolyn,' came the reply. 'We always thought it would be you.' Carolyn was speechless. She now realized that as far back as her college days, her friends knew she had a problem with alcohol. But no one had ever confronted her about it. Why didn’t anyone- especially her friends- say something all those years ago? This revelation solidified Carolyn’s commitment to educate college students about the warning signs of out-of-control drinking and to help those with alcohol problems. Carolyn Cornelison, Ph.D. will deliver her powerful message to the Wofford Community on Tuesday, October 21st at 8:30 p.m. in Leonard Auditorium.

Donate Platelets & Get a Free Meal

This message is from the Piedmont Blood Center and is open to students, faculty, and staff. Please help if you can!

Our demand for platelets for our cancer, leukemia, aplastic anemia and bone marrow transplant patients is already exceeding our supply; we must improve the donor base for platelets.

College blood drawings have been a tremendous help in the past so we are asking for a few students to help us meet this challenge to help save lives. Donating platelets requires anywhere from one and one-half hours to two and one-half hours. You could study, read, listen to music or watch videos during the donation period.

We can arrange the donation times to meet your schedule and to offer some incentive for this help the Blood Center is in the process of trying to obtain some certificates from local merchants and restaurants which we could present to you.

We are located at 175 Dunbar Street between Mimi’s Deli and Prices Men’s Store. For more information and/or to set up an appointment, please contact Sharon Adams or Darlene Brooks at 582-6366.

Exercise Room Closings

Be advised that the Exercise Room in the Richardson Building will close at 4:30 pm Friday for the Dorman/Spartanburg High Football Game.

The Exercise Room will re-open following the Wofford/Appalachian State Football Game (kickoff is 12:20 pm)

Thank you for your cooperation.

Thinking about Grad School in the Humanities?

To students (and advisers of students) thinking about graduate school in history, English, art history, philosophy, or another subject within the humanities--Here’s a course for you:

HIST 389 Modern Intellectual History.

In this course, we will cover a number of theorists and ideas central to study in the humanities: Barthes and structuralism; Derrida and deconstruction; Foucault and poststructuralism; the Frankfurt School and critical theory; Baudrillard and the critique of consumer society; feminist criticism and gender theory; and many more.

Having exposure to these ideas before graduate school will give you a leg up on some of the other students. None of these theories are easy, but they are inescapable once you enter graduate school.

The course will meet in the afternoons on Monday and Wednesday, from 2:30 until 3:50. For more information, you can check out the following tentative website: http://webswoffordedu/whisnantcj/his389.htm

Feel free to write or call with questions!

**Thinking about Grad School in the Humanities?**

To students (and advisers of students) thinking about graduate school in history, English, art history, philosophy, or another subject within the humanities--Here’s a course for you:

HIST 389 Modern Intellectual History.

In this course, we will cover a number of theorists and ideas central to study in the humanities: Barthes and structuralism; Derrida and deconstruction; Foucault and poststructuralism; the Frankfurt School and critical theory; Baudrillard and the critique of consumer society; feminist criticism and gender theory; and many more.

Having exposure to these ideas before graduate school will give you a leg up on some of the other students. None of these theories are easy, but they are inescapable once you enter graduate school.

The course will meet in the afternoons on Monday and Wednesday, from 2:30 until 3:50. For more information, you can check out the following tentative website: [http://webs.wofford.edu/whisnactcj/his389.htm](http://webs.wofford.edu/whisnactcj/his389.htm)

Feel free to write or call with questions!

Donate Platelets & Get a Free Meal

This message is from the Piedmont Blood Center and is open to students, faculty, and staff. Please help if you can!

Our demand for platelets for our cancer, leukemia, aplastic anemia and bone marrow transplant patients is already exceeding our supply; we must improve the donor base for platelets.

College blood drawings have been a tremendous help in the past so we are asking for a few students to help us meet this challenge to help save lives. Donating platelets requires anywhere from one and one-half hours to two and one-half hours. You could study, read, listen to music or watch videos during the donation period.

We can arrange the donation times to meet your schedule and to offer some incentive for this help the Blood Center is in the process of trying to obtain some certificates from local merchants and restaurants which we could present to you.

We are located at 175 Dunbar Street between Mimi’s Deli and Prices Men’s Store. For more information and/or to set up an appointment, please contact Sharon Adams or Darlene Brooks at 582-6366.

Exercise Room Closings

Be advised that the Exercise Room in the Richardson Building will close at 4:30 pm Friday for the Dorman/Spartanburg High Football Game.

The Exercise Room will re-open following the Wofford/Appalachian State Football Game (kickoff is 12:20 pm)

Thank you for your cooperation.

Courage to Care Tonight

Positive Peer Influence on the College Campus.

In 1990, Carolyn had called a college friend with the tragic news of a drunk driving accident involving a fellow sorority sister. 'Oh, Carolyn,' came the reply. 'We always thought it would be you.' Carolyn was speechless. She now realized that as far back as her college days, her friends knew she had a problem with alcohol. But no one
had ever confronted her about it. Why didn’t anyone—especially her friends—say something all those years ago? This revelation solidified Carolyn’s commitment to educate college students about the warning signs of out-of-control drinking and to help those with alcohol problems. Carolyn Cornelison, Ph.D. will deliver her powerful message to the Wofford Community on Tuesday, October 21st at 8:30 p.m. in Leonard Auditorium. Sponsored in part by an Educational Grant from the NCAA.

**College Bowl Tournament Delay Disrupts Competition**

Wofford's College Bowl Team performed well at this past weekend's tournament at Georgia Tech. Led by Captain Benjamin Ingram, with Catherine England and Stacie Truitt, the team defeated the University of Tennessee and the University of Kentucky in the morning matches. Unfortunately, a 2-hour delay at the start, combined with a lack of officials, prevented Wofford's team from staying to compete in the playoff matches. To the team's delight, however, not a single person mispronounced 'Wofford' at this tournament, as the school is now a familiar competitor.

Wofford's next tournament will be November 14-15 at Berry College.

Duke narrowly edged out the Wofford Team, which also included Melia Brannon and Stacie Truitt, on a controversial call. A second Wofford Team, consisting of students Patrick Holland, Daniel Thompson and Diana Robinson, also performed well, helping to establish Wofford as a team to watch out for in the Southeastern Region.

To: Wofford College Faculty and Staff  
From: Bernie Dunlap

At the end of September, we concluded two arduous but productive years during which the entire administrative staff of the college was engaged in implementing the Banner administrative software system. Many worked long hours and endured frustrating complications, but they consistently displayed extraordinary cooperativeness and good will—and they have brought us to the present milestone on time and under budget. Their heroic effort deserves recognition, and, in their honor, we are declaring Friday, December 26th, and Friday, January 2nd, to be official college holidays. Individual offices should determine whether some sort of token presence is needed on those days. But everyone should join me in congratulating those in whose name this announcement is being made. If you are one of the many who contributed to this noble effort, you have earned this reward. If, like me, you are merely one of the beneficiaries, be sure to thank your colleagues.
