Colleagues,

I have a dilemma that I need your help with.

During halftime of Saturday's basketball game against Chattanooga a promotion was set up dubbed "Battle of the Network Stars" in which members of the NewsChannel 7 staff would take on members of the Herald Journal staff in a basketball game (about 9 minutes long).

Fortunately, Channel 7 jumped at the idea and will have Tom Crabtree and Todd Summers there along with three members of the behind the scenes staff (and 50 others from the office there to cheer them on). Unfortunately, I learned late yesterday that the Herald has nobody signed up at the moment. Another effort was made today and it seems they will not have representation as it stands now.

I am now making the offer out to the Wofford faculty and staff that I need 4 members of the staff to take on NewsChannel 7 in what is being renamed "Battle the Network Stars" on Saturday night. I will be participating in this event as well.

I know this is very short notice, but any help you can lend would be greatly appreciated. I think our students would love it. Again, this is at halftime of Saturday's men's basketball game (7:00 pm tip-off).

Thanks in advance for your help. Look forward to hearing from you and feel free to forward this to any interested parties on campus.

To:       Members of the Faculty and Administrative Staff
From:   Kris Neely, Director of Residence Life
         Colleen Henry, Resident Director of Skylyn Place
Date:   January 20, 2005

During the fall semester, Wofford College was fortunate enough to acquire several houses on McDowell Street, behind the college tennis center. The acquisition of these residences led to thoughts of creating “Living-Learning Communities” for students who have been exemplary in their academic, social, and residential life at Wofford. We are writing to request your assistance with this undertaking, be it in the McDowell Street houses, or elsewhere on campus.

First, you are invited to nominate rising seniors who should be considered for this opportunity. We hope to have a relatively concrete compilation of nominees for the first year of this program by February 11th, 2005. We will invite dedicated, academically talented and stimulated students to participate in the proposed communities.

Second, you are invited to suggest a theme or project for a community. A community could be oriented around particular curriculum requirements, relevant civic, service, or leadership issues. Some ideas that have been suggested include: a foreign language, environmental issues, service learning, diversity and leadership, athletic team captains, outdoor sports, study abroad participants; or a literary and film society. We do not have any current commitments from faculty or staff sponsors for these suggestions, so you are invited to volunteer to sponsor a program for a living-learning community.

Our idea is that the students who are selected for this special program will form the guiding parameters of their individual community within the Wofford Community. In addition, the students in each living learning community will choose a project to complete. The object of the exercise is for students to be responsible for the project, drawing upon the resources of the college to develop the community’s program as the year progresses. The faculty and staff advisors will be asked to commit some of their time and expertise to a single community or a shared undertaking with support from the Residence Life staff. Due to the limited residential spaces on campus, each community will involve a minimum of four and a maximum of thirty students.

We welcome any guidance, advice, or wisdom you want to share with us as we seek to build this co-curricular opportunity for students. If you have an idea for a community, students you would like to nominate for that specific community, and you are willing to help sponsor the project, we are more likely to select your program in this first year. Please contact one of us.
