Last chance to Win

Dear Faculty,

We need your book orders for summer and fall. The deadline to win the \$250.00 textbook scholarship is May 1, 2005. However, if you get them in today we will still enter your name in the drawing.

The professor who wins the certificate gets to pick a worthy student to receive the textbook scholarship. That professor will also be put in the national drawing to bring a speaker to Wofford. This prize is valued at up to \$15,000.00.

If you need any help with your book order please give Andy or Kathryn a call.

Thank You
Ben Wofford Books

Art History Talk This Evening: Titian's Nudes

Tonight at 7pm in the Olin Theater, Irene Trevor (University of Houston) will give a talk entitled: "Unveiled Images: Mythology and the Female Nude in the Art of Titian"

Titian is the Renaissance artist most closely associated with sensuous portrayals of the female nude. Some of his most famous nudes occur in a series of mythological pictures painted for Philip II, King of Spain. These works are, on the one hand, erudite depictions of classical myth, and, on the other, unabashed celebrations of naked flesh and the female body. Professor Trevor will consider this complex duality, examining Titian's work in the context of the intellectual and artistic culture of Renaissance Italy.

I just wanted to say the most heartfelt THANK YOU that I can possibly come up with for all of your positive thoughts and prayers for Tommie during these past several days. We feel very blessed to be a part of such a wonderful "family". I can not describe the amount of support that has come from this community. I honestly feel that without the support from you all and God's blessings we would not have made it through this ordeal. There is still the road back home but I know that your support will make it a much easier one. All I can say at this point is that Wofford College is the place to be! 😊 Thank you again.

Attn Seniors-Help Repaying Your Stafford Loan

The interest rate for your student loans is going to be increasing July 1st. In order to benefit from the current low rates, you need to combine your loans through a consolidation process. You can get more information by reading the release below or you can begin this process by contacting www.scstudentloan.org or calling 800-347-2752.

For Immediate Release
May 9, 2005

STUDENTS URGED TO CONSOLIDATE, BEAT RATE HIKE

(Columbia, SC) – The lowest student loan interest rates in history are about to be a thing of the past. On July 1, rates will increase by as much as 2 percent. Students can still lock in these low rates by consolidating their student loans.

A Federal Consolidation Loan allows borrowers who are in their grace period or in repayment to combine all their federal loans into a single, fixed-rate loan with only one payment per month. The interest rate is calculated by taking the weighted average of the interest rates on all the loans the borrowers wish to consolidate and rounding up to the nearest one-eighth of a percent. Consolidating also could extend the life of the loan, lowering the monthly payment significantly.

"Students can lock in an interest rate as low as 2.875% if they consolidate during their grace period, before they enter repayment and their interest rates rise," South Carolina Student Loan Corporation President Bill Mackie said. "This is an opportunity to save money that is just too good to pass up."

But time is running out. To ensure eligibility, South Carolina Student Loan Corporation, South Carolina's statewide lender, must receive applications in their office by June 30.

South Carolina Student Loan makes it even more attractive to consolidate by offering several benefits. Borrowers receive a reduced interest rate for the first year of repayment that is one percent lower than the average rate. There is also a 1/4 percent interest rate reduction if you sign up for automatic bank draft. And finally, South Carolina Student Loan offers an additional one percent interest rate reduction for making your first 48 payments on time. These Consolidation Loan benefits have saved borrowers millions over the last several years.

SC Student Loan is a non-profit organization established by the state to make educational loans to South Carolina residents and students attending South Carolina institutions. SC Student Loan

has made over 1.2 million loans to more than 346,000 students and parents totaling \$4.4 billion since it began in 1973.

SC Student Loan works for the benefit of its borrowers, and is the only lender in the state to offer education loans with no origination or guarantee fees.

For more information about these programs, visit SC Student Loan www.scstudentloan.org or call 800-347-2752. Media contact: Jennifer Hair (803) 612-5051

Non-governmental organizations (NGOs) and their networks are proliferating in all regions of the world. They address every transnational issue from population to peace, human rights to species rights, genocide to AIDS. NGOs have overthrown dictators, provided life support for collapsed states, and reengineered the family. Their historical origins contrast sharply with current realities, and show signs of radical change in the future.

From HR - Important Message

Important Message from PAI

Subj: Unique Member Identification Numbers (UMID)
Execution Effective Date: January 1, 2006

Not including South Carolina, there are some states that currently prohibit or apply certain restrictions on the use of a social security number upon the health benefit identification card (ID card).

PAI is currently in the process of implementing a plan to remove the social security number from the ID card and replace it with a unique member identification number (UMID). The revised ID cards, along with an informational insert, will be mailed no later than January 1, 2006.

Why January 1, 2006?

In converting the member's ID card to a UMID card, there are a number of obstacles to consider. Provider education is at the top of the list (immediate changes would lead to a sharp increase in the time it takes to process claims). Since it is not a specific need for South Carolina participants to comply until 1/1/2006, it would benefit our groups and their participants if we follow our current business plan for conversion and target date. This will allow us to fall in line with BlueCross BlueShield of South Carolina (BCBSSC). By BCBSSC taking the lead on switching from Social Security Number ID cards to UMID cards, it will minimize the impact on claims filing, processing, and provider education.

This message is also posted on the HR Website.

Baseball hosts final series this weekend

The Terrier baseball team hosts Western Carolina Friday night and Saturday afternoon at Russell C. King Field in the final home games of the year.

Friday night's game begins at 7:00 with Saturday's doubleheader beginning at Noon. Kids can come out on Friday night and meet Bomber the Mouse, the mascot of the Greenville Bombers as well.

"Fan Appreciation Weekend" is presented by C.J. Compton Plumbing.

Old Athletic Media Guides available

Anyone interested in picking up an old Wofford media guide or program from various teams and seasons (mostly in the last 5-7 years) can come by the Richardson Building Athletic Administration Office during normal business hours.

The guides will be available until June 1 before they are recycled.

Baseball, Football & Soccer Shirts

Finally,

We have our new Wofford baseball, football and soccer t-shirts. The basketball will be here soon. Stop in and check them out.

Also, don't stop bringing those books in to sell back. That old book might be worth something.

We are still taking orders for the new Harry Potter book. You save 40% off the regular price. Pay 17.99 instead of 29.99. Last day for preorders is June 12th.

Thanks

IRS Rule Change to Flex Spending

Unexpected Change to Use-it-or-Lose-it Rule
From Flores

The IRS has made an unexpected change to the Use-It-Or-Lose-It rule that affects flexible spending accounts. Simply stated, the new rule allows plan administrators to accept claims for services that have been incurred up to 2.5 months after the close of the plan year. This extension is not required, but is now an option for those who wish to allow their participants additional time to use allocated funds.

An example of this change would be a participant who is enrolled in the medical flexible spending account for \$1,000.00 for the 1/1/2005-12/31/2005 plan year. Under the old rules, this participant was required to incur \$1,000 in expenses by 12/31/2005 or forfeit unused funds to the plan at the close of the run-out period. If this participant's group restated its plan documents with the new rules the participant would have until 2/15/2006 to incur those expenses for the 1/1/2005-12/31/2005 plan year.

Flores is currently assessing what changes will be necessary to allow our systems and legal documents to allow for these new options. This new ruling will create some grey areas as to which plan year a claim received in the first 75 days of a new plan year should be paid from as well as some other administrative issues. As soon as we have finalized policies and procedures for dealing with these new situations we will notify you of the guidelines we will use to administer claims according to the new "grace period." We plan to have some concrete information available within the next couple of weeks.

Human Resources will keep you informed on this change and how it will affect Flex participants.
Reminder: Flex open enrollment begins in November.
