What is Black History Month?

Black History Month began in 1926; Carter G. Woodson a historian and scholar launched Negro History Week to bring attention to the contributions of black people to American history. The second week of February was chosen because of two significant birthdays; those of Frederick Douglas and Abraham Lincoln. Negro History Week ultimately became Black History Month. It was the hope of Woodson that one day the need to have a special recognition of black history would be eliminated and that black history would be fully recognized as fundamental to American history. Today, we still celebrate Black History Month. Over the next twenty-six days you will receive tidbits of African-American History. I hope you enjoy and are enriched by the history.

**Reflections: "You can't handle the Truth!"**

Sojourner Truth (1797-1883): Ain't I A Woman?

Sojourner Truth was born Isabella Baumfree in 1797 in Ulster County, New York. She was one of 13 children born to slave parents. She spoke only Dutch until she was sold from her family around the age of eleven. Because of the cruel treatment she suffered at the hands of her new master she learned to speak English quickly, but would continue to speak with a Dutch accent for the rest of her life. She was sold several times and suffered many hardships under slavery. Isabella ended up in New York under her third slave master where she was forced to marry a slave named Thomas. She lived in New York until 1828, the year New York ended slavery. When she was force to stay in slavery she ran away settling in New York City. In 1843, Isabella was inspired by a spiritual revelation that would forever change her life. She changed her name to Sojourner Truth and walked through Long Island and Connecticut, preaching "God's truth and plan for salvation." After months of travel, she arrived in Northampton, MA, and joined the utopian community "The Northampton Association for Education and Industry," where she met and worked with abolitionists such as William Lloyd Garrison, Frederick Douglass and Olive Gilbert. Her dictated memoirs were published in 1850 as The Narrative of Sojourner Truth: A Northern Slave. She eventually added abolitionism and women's suffrage to her oratory, often giving personal testimony about her experiences as a slave. In 1851, she spoke at a women's convention in Akron, Ohio. The legendary phrase, "Ain't I a Woman?" was associated with Truth after this speech.
“Well, children, where there is so much racket there must be something out of kilter. I think that 'twixt the negroes of the South and the women at the North, all talking about rights, the white men will be in a fix pretty soon. But what's all this here talking about?

That man over there says that women need to be helped into carriages, and lifted over ditches, and to have the best place everywhere. Nobody ever helps me into carriages, or over mud-puddles, or gives me any best place! And ain't I a woman? Look at me! Look at my arm! I have ploughed and planted, and gathered into barns, and no man could head me! And ain't I a woman? I have borne thirteen children, and seen most all sold off to slavery, and when I cried out with my mother's grief, none but Jesus heard me! And ain't I a woman?”

Sojourner Truth
Charlie and Susan Gray welcomed a new granddaughter; Lilly Eve Pryor arrived at 6:21 pm on Thursday, February 2. She weighs seven pounds 12 ounces and is 19 inches long. Mother (Ginny), father (Bill), big brother (Bill) and grandparent are all doing well.

Buster Keaton Tonight in McMillan
There’s are good reasons why people call the 1920s a golden age of American movie comedy, and the best of those reasons is the work of Buster Keaton. It’s good for laughs, but it’s got a little something more. (Here’s a hint: Samuel Beckett wanted Buster to perform in “Waiting for Godot”.) Beginning at 7pm in McMillan Theater, the evening includes a highlight reel from a cross-section of Keaton films and a screening of his masterpiece, “The General.”

Hungarian painting collection on display through February 9
The Teszler Collection of Hungarian paintings is on exhibition in the Library gallery through February 9th. This remarkable group of Hungarian impressionist and post-impressionist paintings was assembled by the late Sandor Teszler, for whom the Library is named.

Members of the Class of 2006:
We will have our first meeting as a class this Tuesday, February 7th at 11 am in the Anna Todd Wofford Room of Andrews Field House. Please attend, as this meeting will be brief but very informative concerning important Commencement Events and other class activities.

If you are unable to attend, you are encouraged to contact one of the four Senior Class Officers for an information packet.

See you there!

Hadley Green, President (greenhe@wofford.edu)
Katie Langley, Vice President (langleykj@wofford.edu)
Mary Beth Weaver, Secretary (weaverme@wofford.edu)
Elizabeth Frazier, Treasurer (fraziereq@wofford.edu)
As of December 8, 2005, the delegation of Wofford College's Campus Union has created, for a short time, a Greek ad-hoc committee to discuss and research some of the topics/events/attitudes affecting the lives of Greeks and non-Greeks on campus. Over the past couple months, the committee has met and determined some of the topics we would like to research in detail.

One concern of ours is the way Greeks and non-Greeks are viewed and treated by the faculty and staff of Wofford College. We know that each of you has a very busy schedule, especially with spring semester starting. However, we would greatly appreciate it if each of you would take the time to answer the following five questions:

- What do you think the role of Greek Life is on campus?
- What are some of the stereotypes concerning students in Greek organizations? Concerning independent students?
- Are students in Greek organizations affected positively or negatively by the requirements/events/etc of their organizations?
- Do you believe Wofford should move to spring rush? Explain.
- Do you think Greek participation/involvement alters a student's performance in the classroom?

You may answer all of the questions or choose to answer only a few or come up with your own. Any viewpoint or opinion you can give us will be most helpful; please, just be honest with your responses and we will be much appreciative. Please also let us know if you'd be willing to further discuss the Greek situation at a later date. Thank you for your time and let either of us know if you have any questions.

To: Members of the Faculty and Administrative Staff  
From: Brian Lemere, Director of Residence Life  
         Joshua Jabbour, Resident Director, Living-Learning Communities  
Date: Thursday, February 2, 2006

One year ago, the Office of Residence Life began the Living-Learning Communities as a way to enhance the academic and social success of the students of Wofford College. This program was designed to give students the opportunity to blend their residential and academic experiences, thereby enhancing the overall quality of their college life while providing the possibility of living with other students who share a common interest.

In preparation for the 2006-07 academic year, we have decided to make some small changes to provide for the continued success of this program.

Our first change will be re-branding the program “Residential Learning Communities” in an effort to better differentiate them from the interdisciplinary Learning Communities.

Additionally, the Office of Residence Life will be taking a more active role in managing and supporting the communities by providing an RLC Coordinator who will dedicate 10-20 hours per week to working with participating students.

The final change will be in the way students apply to the program. In addition to students who apply as a community, the Office of Residence Life will sponsor four Residential Learning Communities for the 2006-07 academic year, to which interested students can apply individually. The four community themes will be:

- **The Arts**
  Exploring the fine, musical, and performing arts.
- **Diversity & Multicultural Issues**
  Exploring issues dealing with race, diversity, multiculturalism, and international affairs.
- **Civic Engagement & Service Learning**
  Exploring community engagement, social justice, and service learning opportunities.
- **Interfaith Exploration**
  Exploring the great religions and wisdom traditions of the world.

**We are writing to request your assistance with the success of this program.**

First, you are invited to recommend students who might be interested in participating in one of the proposed communities. Please suggest this program to your students, and send us the names of any students you feel would be especially interested. We would like to invite dedicated, academically talented and stimulated students to participate in these communities.

Second, you are invited to advise one of the communities. We are looking for a faculty or staff advisor who would be willing to make a small monthly time commitment to meet with the community, would be active in helping the students plan and shape the direction and objectives of the community, and would communicate with the students and RLC Coordinator to help ensure the community meets its goals and obligations. This faculty advisor would serve as the thematic advisor to the community, while the RLC Coordinator would serve as the administrative and...
advisor to the community, while the RLC Coordinator would serve as the administrative and residential advisor.

Additionally, if you would like to be a resource for a community and share your particular knowledge and expertise when possible, but can’t commit the time or resources to be the main thematic advisor, please contact us and we will gladly involve you in some way.

We welcome any guidance, advice, or wisdom you want to share with us as we seek to build this co-curricular opportunity for our students. If you have students you would like to recommend for a specific community or are willing to advise one of the proposed communities, please contact the Office of Residence Life.

Last weekend at the KA Province Council in Atlanta GA, Wofford’s Delta chapter was the recipient of the George C. Marshall award for chapter excellence. This award recognizes Wofford’s KA chapter as the top chapter in the United States out of 138 KA chapters nationwide. This is the first time Delta has received this prestigious honor since the chapter’s inception in 1869. The awards application was based on performance from Fall of 2004 through the Spring of 2005 and includes all aspects of chapter operation including growth, finances, campus involvement, risk management, communications, housing and especially scholarship. The chapter received further honors for Academic Excellence, Membership Recruitment and received the Ammen Award which recognizes the top 10% of KA chapters. “Full Court Press” Directed by Jeff Parrish & Lee Morris Victory is more than just a winning score. Student athletes face hardships of which stadium crowds, professors and fellow students are acutely unaware. From August to March twelve individuals come together from different worlds to form bonds that transcend victory or defeat.
"Searching for #1" Directed by Thom Kaye - A childhood hero is revealed as human. The filmmaker is forced to confront his view of success as he travels from childhood to adulthood.

"Prescription Vegan" Directed by Kim Boone - The filmmaker steps from the world of traditional American fare into the borderline militant world of the raw foodist and vegan. The film explores the culture of meat and the challenges and commitment raw foodists face.

Reflections: Remembering Coretta Scott King

Thousands will gather today at New Birth Missionary Baptist Church in Atlanta, Georgia to pay their last respects to the "First Lady" of the Civil Rights movement. I have stood by and watched the news and seen the video of all of what Mrs. King meant to her family, and her husband. I was reflecting on the life of Dr. King during his birthday celebration here at Wofford, when I started to consider what it must have been like for Coretta King. My wife is the "First Lady" of our small Baptist church on the Southside of Spartanburg. Martetha and I always talk about the challenges she faces in the Church. She faces unrealistic expectations by the women in the church. She is asked constant questions about her hair, or her weight, or what she is wearing. If I have preached a bad sermon, she will be asked, "What is wrong with Pastor?" This is a lot of pressure! I thought about our forty plus members and then I thought about the countless men, women, and children that relied on Mrs. King. Wow! To say that this woman was graceful under pressure is an understatement. To say that she was poised in the face of persecution grossly misstates what she meant to our country. In the face of the assassination of her husband, she continued the march in Memphis. In the face of ridicule she continued to speak out against injustice. She is a hero! If not for her quiet and strong leadership in convincing then Presidential candidate John F. Kennedy to call Dr. King while he was in jail, the Civil Rights movement could have been completely different. Thank you, Mrs. King for all you have done for us. God bless you!

Please join us today at 11:00 am in the AAAS Lounge for with Reflections with Mr. Albert W. Gray.

**Reflections: "One of the Big Six"**
Senator John Lewis was born the son of sharecroppers on February 21, 1940, outside of Troy, Alabama. He grew up on his family's farm and attended segregated public schools in Pike County, Alabama. As a young boy, he was inspired by the activism surrounding the Montgomery Bus Boycott and the words of the Rev. Martin Luther King Jr., which he heard on radio broadcasts. In those pivotal moments, he made a decision to become a part of the Civil Rights Movement. Ever since then, he has remained at the vanguard of progressive social movements and the human rights struggle in the United States.

As a student at Fisk University, John Lewis organized sit-in demonstrations at segregated lunch counters in Nashville, Tennessee. In 1961, he volunteered to participate in the Freedom Rides, which challenged segregation at interstate bus terminals across the South. Lewis risked his life on those Rides many times by simply sitting in seats reserved for white patrons. He was also beaten severely by angry mobs and arrested by police for challenging the injustice of Jim Crow segregation in the South.

During the height of the Movement, from 1963 to 1966, Lewis was named Chairman of the Student Nonviolent Coordinating Committee (SNCC), which he helped form. SNCC was largely responsible for organizing student activism in the Movement, including sit-ins and other activities.

While still a young man, John Lewis became a nationally recognized leader. By 1963, he was dubbed one of the Big Six leaders of the Civil Rights Movement. (The others were Whitney Young, A. Phillip Randolph, Martin Luther King Jr., James Farmer and Roy Wilkins). At the age of 23, he was an architect of and a keynote speaker at the historic March on Washington in August 1963.

In 1964, John Lewis coordinated SNCC efforts to organize voter registration drives and community action programs during the Mississippi Freedom Summer. The following year, Lewis helped spearhead one of the most seminal moments of the Civil Rights Movement. Hosea Williams, another notable Civil Rights leader, and John Lewis led over 600 peaceful, orderly protestors across the Edmund Pettus Bridge in Selma, Alabama on March 7, 1965. They intended to march from Selma to Montgomery to demonstrate the need for voting rights in the state. The marchers were attacked by Alabama state troopers in a brutal confrontation that became known as "Bloody Sunday." News broadcasts and photographs revealing the senseless cruelty of the segregated South helped hasten the passage of the Voting Rights Act of 1965.

In 1981, he was elected to the Atlanta City Council. While serving on the Council, he was an advocate for ethics in government and neighborhood preservation. He was elected to Congress in November 1986 and has served as U.S. Representative of Georgia's Fifth Congressional District since then. That District includes the entire city of Atlanta, Georgia and parts of Fulton, DeKalb and Clayton counties.

Reflections: Dr. King’s trusted advisor

Ralph David Abernathy was born in Lindon, Alabama, on 21st March, 1926. The son of a farmer, Abernathy was ordained as a Baptist minister in 1948.
Abernathy studied sociology at Atlanta University before becoming a pastor of the First Baptist Church in Montgomery, Alabama. In Montgomery, like most towns in the Deep South, buses were segregated. On 1st December, 1955, Rosa Parks, a middle-aged tailor's assistant, who was tired after a hard day's work, refused to give up her seat to a white man.

After her arrest, Abernathy and his friend, Martin Luther King, organized protests against bus segregation. It was decided that black people in Montgomery would refuse to use the buses until passengers were completely integrated. King was arrested and his house was fire-bombed. Others involved in the Montgomery Bus Boycott also suffered from harassment and intimidation, but the protest continued.

For thirteen months the 17,000 black people in Montgomery walked to work or obtained lifts from the small car-owning black population of the city. Eventually, the loss of revenue and a decision by the Supreme Court forced the Montgomery Bus Company to accept integration. The boycott came to an end on 20th December, 1956.

In 1957 Abernathy, Martin Luther King and Bayard Rustin, formed the Southern Christian Leadership Conference (SCLC). King was president and Abernathy became the secretary-treasurer. The new organisation was committed to using nonviolence in the struggle for civil rights, and SCLC adopted the motto: "Not one hair of one head of one person should be harmed." Over the next few years Abernathy was arrested nineteen times.

Abernathy worked closely with Martin Luther King until his assassination in 1968. After King's death Abernathy became the president of the Southern Christian Leadership Conference.

He directed the Poor People's March in Washington (May, 1968), helped organize the Atlanta sanitation workers' strike (1968) and the Charleston hospital workers' strike (1969).

In 1977 Abernathy resigned from the Southern Christian Leadership Conference and ran unsuccessfully for the Georgia congressional seat. His autobiography, And the Walls Came Tumbling Down, was published in 1989. Ralph David Abernathy died in Atlanta on 17th April, 1990.

No Glass @ the Row

This is just a reminder that Glass Bottles are Not allowed at the Row anytime.
The story of Judge Matthew James Perry, Jr. is a remarkable one. Although faced with many hardships, Perry became a distinguished attorney in South Carolina and caught the eye of President Jimmy Carter who named him federal district judge for South Carolina in 1979. Born on August 3, 1921, he attended Booker T. Washington High School in Columbia. Following the death of his father when he was 12, Matthew was raised by his mother and his grandfather, a strict disciplinarian.

In 1939, he began working part-time jobs to pay for his tuition at South Carolina State College. He served in the US Army during World War II and completed his education with a degree in business administration in 1948. He earned a law degree from South Carolina State College in 1951. As a young civil rights lawyer, Perry was instrumental in achieving many successes for African-Americans. He tried cases which led to the integration of beaches, parks, restaurants, and public schools. His trial work led to the release of some 7,000 people arrested for sit-in protests.

In 1963, he won the case which forced Clemson University to admit black students; Perhaps his most significant case resulted in the reapportionment of the SC House of Representatives Perry waged an unsuccessful campaign for a seat in the US House of Representatives in 1974. In 1975, he was appointed to the US Military Court of Appeals, and a year later WIS-TV of Columbia named him South Carolinian of the Year.

“Full Court Press” Directed by Jeff Parrish & Lee Morris Victory is more than just a winning score. Student athletes face hardships of which stadium crowds, professors and fellow students are acutely unaware. From August to March twelve individuals come together from different worlds to form bonds that transcend victory or defeat.

"Searching for #1" Directed by Thom Kaye A childhood hero is revealed as human. The filmmaker is forced to confront his view of success as he travels from childhood to adulthood.
"Prescription Vegan” Directed by Kim Boone. The filmmaker steps from the world of traditional American fare into the borderline militant world of the raw foodist and vegan. The film explores the culture of meat and the challenges and commitment raw foodists face.

**Reflections: Brown v. Board started in SC?**

Reverend Joseph A. DeLaine - Civil Rights Leader

To the South, the United States Supreme Court's decision to end segregation in the nation's public schools was a calamity; for a middle age Methodist minister from Clarendon County, South Carolina, it was the fulfillment of a lifelong crusade. The Reverend Joseph Armstrong DeLaine, who died in 1974, was one of the true heroes in the civil rights struggle to break down the barriers of segregation. DeLaine's commitment to his faith and to the cause of civil rights began at an early age. Expected to become a farmer or a craftsman, he enrolled instead at Allen University in Columbia, where he earned a bachelor's degree in 1931.

To finance his education, DeLaine worked as a laborer and ran a dry cleaning business near the campus. DeLaine remained at Allen to pursue a bachelor of divinity degree at the universities Dickerson Seminary. He combined preaching with teaching and was a public schoolteacher in South Carolina for 17 years. As a teacher at the Macedonia Baptist High School in Blackville, DeLaine saw that discrimination was not just racial. Despite his being a popular and effective teacher, the school's trustees would not give him a permanent appointment unless he left the African Methodist Episcopal Church.

Of this incident, he wrote: "A person who hates another because of looks is just as bad as one who stupidly hates another's faith in the church of his choice." DeLaine's name will always be associated with Clarendon County. In 1943, he was instrumental in obtaining the county's first NAACP chapter and became its president. "He had so much integrity and the people had absolute..."
NAACP chapter and became its president. "He had so much integrity and the people had absolute confidence in him," recalled Robert Pamer, NAACP chapter president of Sumter County. "He was a humble man, but fearless." Courage and dedication were essential qualities that the early pioneers of the civil rights movement had to possess.

During his activist years in the 1950s, DeLaine received death threats. Both his home and his church were burned to the ground, and he fought off an angry mob who came to remove him from his parsonage. The origins of the now famous Clarendon County School Segregation Case began in the late 1940s when DeLaine, along with other African-Americans, sought to secure equal educational opportunities for black children. Many participants in the movement lost their jobs. DeLaine, his two sisters and a niece were all fired from their teaching positions.

In 1950, for his own safety, he was moved from Clarendon County to another pastorate in Lake City. In May 1951, this first legal challenge to the validity of the "separate but equal" doctrine in public schools was heard in Charleston before a panel of three federal judges. Among them was Judge J. Waties Waring who issued the dissenting opinion that segregation in South Carolina's public schools was unconstitutional. Upon appeal to the United States Supreme Court, Briggs v. Elliott, as the case was known, was returned to the lower court for a review of South Carolina's efforts to improve the conditions in black schools.

Ultimately, Briggs v. Elliott became one of five cases which were considered and heard collectively under the name of Brown v. Board of Education of Topeka, Kansas. Success came at a price for DeLaine. In Lake City, he was subjected to a reign of terror that eventually persuaded him to leave the state. "I am not running from justice but INJUSTICE," he told the FBI. He was relocated to upstate New York, where he organized and became pastor of an AME church in Buffalo. Appropriately, the new church was called the DeLaine-Waring AME Church, after the two men who had done so much to revolutionize the educational system of South Carolina.

College Bowl Team Needs Your Help!

Reflections: A little taste Gullah

Along the southeastern coast of the United States there is a narrow strip of land which is known to linguists and dialect geographers as the Gullah Area. This region, which includes the sea islands along the coast, extends roughly from Jacksonville, North Carolina to Jacksonville, Florida, and inland for about one hundred miles.

Contrary to the belief still held by some, Gullah is not poor, or broken English. It is not a dialect of any other language, neither is it Black English. Gullah possesses every element necessary for it to qualify as a language in its own right. It has its own grammar, phonological systems, idiomatic expressions, and an extensive vocabulary. Since this language was never intended to be written, there are no hard and fast rules governing its orthography. However, Ambrose Elliot Gonzales during the 1920s wrote the Black Border series, and at the time established a synchronic orthography which represents the sounds of spoken Gullah as perfectly as they can be written. No scholar has been able to improve on Ambrose Gonzales' written representation of the rich, soft sounds that fall so easily from the Gullah tongue.

To describe the language, Gullah is spoken softly, with a rolling rhythm. As the Gullah speak, you can almost hear the wind ruffling the marsh grasses. Their words sway like the long banners of moss that hang from oak trees that grace their homeland.

Since this language is an English-based, or English-derived creole, it sounds like English, but there is a certain flavor of the West African coast in its intonation and stress. On hearing it for the first time you are apt to think you are listening to the Krio spoken in Sierra Leone, or the Jamaican or Barbadian creoles spoken in the West Indies. The vocabulary of Gullah is mostly English with only a few words from African languages reminiscent of its pidgin stage.

Friends,

The Office of Multicultural Affairs' annual Literary Salon is right around the corner -- Tues., 2/28, 7pm -- and I'm hoping to encourage you to attend and to ask your students to do the same. It's a really fun evening of poetry/spoken word, dance, song, personal reflections, etc., and some exceptionally talented people take the stage. The Salon's also the result of many folks' dedication and hard work and deserves the acknowledgment and recognition of the community.

Many thanks for your help in making this year's Salon a big success.

Last night, in the Raines Center Commons, we inaugurated the Martha Cloud Chapman Gallery. The current exhibition is a collection of paintings by Dorothy Chapman Josey. It includes a portrait of Martha Cloud Chapman.

Gratitude is due especially to David Beacham, David Wood, and Oakley Coburn, who worked tirelessly to make this dream a reality.

The Gallery is a scintillating addition to an already fulgent Commons. Please drop by when you have a chance.
