Wofford Theater presents "The Visit"

The Wofford Theater will be presenting "The Visit" on March 9-11 and 15-18 at 8 p.m. in the Tony White Theater

The Visit by Friedrich Dürrenmatt
A Tragicomedy

"Feeling for humanity, gentlemen, is cut for the purse of an ordinary millionaire; with financial resources like mine you can afford a new world order."

A dramatic exploration of vengeance and the relationship between wealth and morality, The Visit tells the story of a rich widow's triumphant and presumably charitable return to her hometown of Gullen, which has languished in poverty for years. With her artificial body parts, bizarre retinue, and boundless wealth Claire Zachanassian is one of the theatre's most compelling female characters. The cast is rounded out by essentially two other characters: Alfred Ill, her former lover and the real reason she is back in town; and the people of the town of Gullen, who form a sinister Greek chorus. Through these characters, Dürrenmatt gives us a darkly comic, breathless, and in the end, unanswerable debate about the nature of justice and redemption.

Win prizes!

Grab two or three of your friends and sign up for the Terrier Trivia Tournament, sponsored by the College Bowl Team! The format will be a Jeopardy!-style team contest, so get your buzzer fingers ready! There is no entry fee. Winning team members will each receive \$20 gift cards from Best Buy; second place team members will receive \$10 gift cards. Teams from Greek and other campus organizations are encouraged! Wofford Theater presents "The Visit"

The Wofford Theater will present "The Visit" tonight at 8 p.m. in the Tony White Theater.

The Visit by Friedrich Dürrenmatt
A Tragicomedy

"Feeling for humanity, gentlemen, is cut for the purse of an ordinary millionaire; with financial resources like mine you can afford a new world order."

A dramatic exploration of vengeance and the relationship between wealth and morality, The Visit tells the story of a rich widow's triumphant and presumably charitable return to her hometown of Gullen, which has languished in poverty for years. With her artificial body parts, bizarre retinue, and boundless wealth Claire Zachanassian is one of the theatre's most compelling female characters. The cast is rounded out by essentially two other characters: Alfred Ill, her former lover and the real reason she is back in town; and the people of the town of Gullen, who form a sinister Greek chorus. Through these characters, Dürrenmatt gives us a darkly comic, breathless, and in the end, unanswerable debate about the nature of justice and redemption.

"The Visit" will run from March 9-11 and 15-18 at 8 p.m. in the Tony White Theater.

Win prizes!

Grab two or three of your friends and sign up for the Terrier Trivia Tournament, sponsored by the College Bowl Team. The format will be a Jeopardy!-style team contest, so get your buzzer fingers ready! There is no entry fee. Winning team members will each receive \$20 gift cards from Best Buy; second place team members will receive \$10 gift cards. Teams from Greek and other campus organizations are encouraged! To sign up, send your team name and roster (you may have three or four on your team) to Professor Cathey at cathey@wofford.edu.

The requirements are an overall GPA =>2.5 and a major in accounting or finance. Salary is 35k+DOE. Deadline for submission of resumes to Career Services is Friday, March 10 at 5:00 PM.

Housing Deposits due Wed. March 15

Wofford presents "The Visit" tonight at 8

The Wofford Theater will present "The Visit" at 8:00 p.m. tonight in the Tony White Theater in the Raines Center.

THE VISIT by Friedrich Dürrenmatt
A Tragicomedy

"Feeling for humanity, gentlemen, is cut for the purse of an ordinary millionaire; with financial resources like mine you can afford a new world order."

A dramatic exploration of vengeance and the relationship between wealth and morality, The Visit tells the story of a rich widow's triumphant and presumably charitable return to her hometown of Gullen, which has languished in poverty for years. With her artificial body parts, bizarre retinue, and boundless wealth Claire Zachanassian is one of the theatre's most compelling female characters. The cast is rounded out by essentially two other characters: Alfred Ill, her former lover and the real reason she is back in town; and the people of the town of Gullen, who form a sinister Greek chorus. Through these characters, Dürrenmatt gives us a darkly comic, breathless, and in the end, unanswerable debate about the nature of justice and redemption.

W.A.C.-y Wednesday

Join the members of the Wofford Activities Council between 11 am and 4 pm for W.A.C.-y Wednesday! Make your own Music Video and/or fill out a W.A.C. survey and be entered in a drawing for one of two \$100 prizes. Don't forget that applications for W.A.C. Earth Friendly Sources of Energy

At 4PM on Monday, March 27th, in Milliken Science 318E, entrepreneur-businessman John Dodson, a graduate of West Point and founding member of the Hudson Valley Heritage Task Force, will survey on-going projects for delivering power without burning fossil fuel. His firm specializes in the development and installation of alternative energy systems to industry and government. The perspective garnered by Mr. Dodson from his own engineering background and his contacts with leading-edge members of the R&D community has been pragmatically broadened by the profit challenge; therefore, our speaker brings a wealth of experience on what's scientifically possible versus what's socially feasible on a cost-benefit basis.

Mr. Dodson lives in a 160-year-old restored home that sits on the Hudson River (about 70 miles north of Manhattan). His interest in the environment came early; in fact, his Boy Scout nature projects resulted in his becoming the youngest Eagle Scout on record, an honor still unmatched. Dodson's first foray into the energy field was the mini hydro unit he personally installed in 1982 to power his home from the rushing waters of a creek that flows down his hilltop property. The ensuing battles with his local electric company (a competitor!) helped to ignite his current career. John Dodson is articulate, enthusiastic, knowledgeable, and affable. All are welcome. Questions?: Call Prof. Machovec at 585-9881.

From: President Dunlap

The attached letter concerning next year's comprehensive fee was sent to the parents of all current students.

Fee letter
-3-06.doc

March 13, 2006

To Wofford College Parents and Students:

Our annual letter reporting next year's comprehensive fee almost invariably amounts to good news and bad news. The good news concerns the enhancements of our students' experience. The bad news has to do with how much those enhancements will cost.

As far as enhancements go, dramatic changes are underway in every aspect of the college—its faculty, facilities, academic programs, extra-curricular activities, and reputation as measured by any number of national surveys and polls. The Wofford Board of Trustees has decided that we should build on such conspicuous momentum to assure a significantly richer college experience and, in a very real and tangible sense, much greater value for money. I am appending a short list of ways in which Wofford will offer more to its students during the 2006-2007 academic year than ever before in our history.

At the same time, our trustees recognize that every increase in cost involves potential hardship to students and parents whom we prize as members of the Wofford community, and I am also appending information for those who wish to pursue further opportunities for financial aid.

With those considerations in mind, I wish to report that next year's comprehensive fee for a day student will be \$26,110, which represents an increase of \$1,980. The comprehensive fee for a residential student will be \$33,370, which represents an increase of \$2,435.

I need hardly point out that, as in previous years, those figures remain below comparable fees at virtually all of our benchmark institutions—and well below those of other national liberal arts colleges throughout the country and region. Nevertheless, they constitute very large sums of money, and I want to assure you that, as stewards of this uniquely fine institution, we are doing our best to balance frugality with quality. Our continuing inclusion on the nation's list of "Best Value" colleges is confirmation that we are accomplishing precisely that.

We know your most valued asset is your child. That is equally true for us.

Yours sincerely,

Benjamin Dunlap
President

ENHANCEMENTS FOR THE 2006-2007 ACADEMIC YEAR

The Academic Program: In keeping with the Board of Trustees' commitment to a 30% increase in faculty over a five-year period and the increase of five new professors this year, next year's academic program will be enhanced by the addition of six new professors. Among other additions and expansions, Wofford's new and flourishing Chinese language and culture program will increase its offerings, and, with the recent appointments of a renowned author and editor duo, Elizabeth Cox and Michael Curtis, our admired Creative Writing program will become one of the finest in the nation. This summer we will inaugurate the highly innovative Wofford College Community of Scholars, providing returning students with a chance to earn generous stipends as well as summer-long room and board on the Wofford campus while pursuing supervised independent research projects within a cross-disciplinary residential setting. In these and many other ways, such as increased numbers of paid internships in valuable and often exciting situations, our students will benefit from new academic opportunities.

Social and Cultural programs: Our extra-academic services will also be significantly expanded. What used to be known as Career Services is being transformed into the Center for Leadership, Career, and Calling, offering programs designed to facilitate career and employment decisions throughout the entirety of a student's time at Wofford. At the same time, our budgetary allocation for the programming of campus-wide social and cultural events will be increased several times over, greatly increasing the quality of our students' extra-academic experience.

Facilities: If you have visited the Wofford campus in past few months, you have seen such dramatic enhancements as the Raines Center Commons, the Martha Cloud Chapman Art Gallery, the Anna Todd Wofford Center for sororities and women's organizations, Russell C. King Field and Switzer Stadium. We have completed the first third of the historic \$7.4 million renovation of Old Main, our largest and most important classroom facility, meeting space, faculty office building, and religious and community service center. The central portion of that project, including Leonard Auditorium, will be completed by the end of the current semester and the final third of the project by next fall. A large new indoor-outdoor gathering space tentatively dubbed "The Pavilion" will be ready for use by late April or early May. And, most impressively, the first phase of a new residential option for upperclassmen, the so-called Wofford Village project, will be ready for occupancy by 84 students in September. Part of that ambitious project also involves the transformation of Evins Street, linking the old and new portions of our campus in a way that underscores the new opportunities for both academic and extra-academic interaction.

It is hard to imagine a wider array of additions and improvements to every aspect of campus life than will welcome returning students in the next academic year.

ADDITIONAL FINANCIAL INFORMATION

For those who wish to pursue further opportunities for financial aid, assistance is available. Financial aid instruction packets to apply for need-based financial aid were mailed this month to returning students at their home addresses. Free Application for Federal Student Aid (FAFSA) and instruction packets to apply for need-based aid are being mailed to new students as they apply for admission. All new students are considered for merit scholarships based on the completed application for admission. Additional information can be found on the college's web site at www.wofford.edu. Students applying for need-based financial aid should have submitted the completed FAFSA, due at the U.S. Department of Education no later than March 15, 2006. Federal Hope and Lifetime Learning tax credits are extended to all eligible families, and South Carolinians may also benefit from state tuition grants and Hope, Life, or Palmetto scholarships. If you need information about any of these programs, our Financial Aid staff will be pleased to assist you by telephone at 864/597-4160 or by e-mail to finaid@wofford.edu.

Information on Wofford's monthly payment plan will be provided later this spring. If you need immediate information about this option, our Business Office will be pleased to assist you at 864/597-4220.
