**SI Applications Due This Friday**

Are you interested in learning to juggle more than your schedule?
Do you want to know what you are really saying when you talk with your hands?
Do you have a creative impulse that you cannot hide any longer?
Are you an overachiever?
Did your SAT score misrepresent your real intelligences?
Are you still looking for your place in the Wofford community?

Maybe the Success Initiative is a place where you can be different like everybody else.

The Success Initiative is a scholarship-supported, projects-based, student-led learning community that is grounded in the liberal arts. It is designed to reinforce the traditional liberal arts concepts of critical thinking, effective communications, knowledge of self and others, creativity, and collaborative problem-solving.

Any current Wofford student is invited to apply for membership in the Success Initiative. Go to [http://success.wofford.edu](http://success.wofford.edu) and download the SI application form. Do not be afraid to show us your individuality or share information about obstacles you have overcome.

Students applying for fall 2006 membership in the program should submit applications before
April 14 at 5:00p.m.

Each semester some students receive sizeable SI scholarships. A few more students choose to walk on to the program because they want the invaluable SI experience.

I write with sad news that Fred T. Adams, Wofford Professor Emeritus, died yesterday morning. He had been hospitalized for a couple weeks. (I think the problem was heart and lung failure.) There will be a Graveside service at Greenlawn at 11:00 am Tuesday. (I am sorry it was scheduled at the same time as the faculty meeting.)

Fred taught at Wofford from 1958 until he retired in 1984. He was chair of the sociology department for most of those years. He was a good friend and colleague who made important contributions to the college.

Dan
From: Laura Corbin, associate director of communications/news media relations

The Communications Office asks that members of the campus community alert us to events – concerts, exhibitions, productions, student activities, service learning projects, special speakers, etc. – as well as stories about interesting personalities, special interests and expertise, or unique, innovative courses, projects and collaborations.

We have implemented a set of procedures for submitting, evaluating and implementing appropriate communications for these suggestions. These are categorized into three broad areas – Routine Events, Major Media Opportunities, and Faculty/Staff Achievements. Depending on the nature of the information, it may be disseminated on campus, off campus or both in a variety of ways.

Please review these guidelines/procedures for submitting information:

**Routine events** – To have an event publicized through the media, the event coordinator should complete the “Wofford Event” form at www.wofford.edu/newsroom/formRoutineEvents.asp at least 100 hours before the event is to occur, excluding weekends. These events do NOT include items for which a simple posting on the Wofford Calendar on the College Web site is sufficient. (Remember to post your events to the online Wofford Calendar, and remember to reserve your venue with the appropriate staff person.)

**Major Media Opportunities** – The Communications Office will undertake expanded initiatives to place media items in a wider array of regional and national media using stories, events, personalities and programs that have strategic and regional or national significance. Ideas for these initiatives may come from any office, department or person on campus using the “Major Media Opportunities” form found at www.wofford.edu/newsroom/formMediaOpps.asp. Media stories in this category will customarily require at least 15 working days to implement and, depending on the scope of the suggestion, perhaps more. Suggestions for these efforts, therefore, will be submitted at least 15 days in advance.

**Faculty/Staff Achievements** – Individuals, officers and departments wishing to provide information on professional accomplishments and activities should complete the “Faculty/Staff Achievements” form at www.wofford.edu/newsroom/formAchievements.asp and submit it to the Communications Office. Receipt of this information will be acknowledged, and the initiating party may be contacted for further information as necessary. These achievements/activities will be included in the appropriate print or online publication, and may be used for select hometown and other news release opportunities.

In all cases (Routine Events, Major Media Opportunities, Faculty/Staff Achievements), the Communications Office will assign the information to a staff person who will assess its feasibility according to criteria found in Section 7d of the Marketing and Communications Policy and Procedures Manual. After a determination has been made as to the desirability and feasibility of the suggestion, the initiating office, department or person will be notified. If a positive determination is made, the initiating office may be asked to assist in implementing the suggestion.
If you have questions about these guidelines, please contact Laura Corbin, associate director of communications/news media relations, at x4180 or at laura.corbin@wofford.edu.

The Wofford Communications Office recently implemented the Marketing and Communications Policy and Procedures Manual, which includes these policies and guidelines pertaining to news media and to the Wofford calendar. For a full description of these policies and guidelines, please go to http://www.wofford.edu/newsroom/policyProcedureManual.pdf. (This is a PDF file.)

Abercrombie receives Excellence in Teaching Award

Dr. Clarence (Ab) Abercrombie was among the first recipients of Excellence in Teaching awards presented recently by South Carolina Independent Colleges and Universities Inc. (SCICU). He and other recipients were honored at a banquet on Tuesday, April 4, in Columbia, during South Carolina Independent Higher Education Week (April 3-7) as proclaimed by Gov. Mark Sanford.

Abercrombie, a professor of biological and sociological sciences, has served as a professor in mammology and wildlife management at Vietnam National University. He has taught wildlife ecology, wildlife management and agricultural statistics at Africa University in Zimbabwe, and he has worked as a consultant on population modeling and statistics and as a field assistant in herpetological research for the Florida Game and Fresh Water Fish Commission. Abercrombie has particular expertise on crocodiles and alligators, and his research has been included in such publications as Journal of Herpetology and Crocodilian Biology and Evolution.

The recipients of the 2006 SCICU Excellence in Teaching Award were honored with a certificate and a professional development grant for $3,000. The award is given to one faculty member at each of the 20 SCICU member colleges and universities. Each recipient was chosen by his or her institution according to rigorous criteria. Special Convocation

On Thursday, April 20, there will be a special convocation tradition started at Wofford. On this day, we will have the inaugural Sandor Teszler Award Convocation, scheduled for 11:00 am outdoors on the lawn in front of the F. W. Olin Building. Keynote speaker will be Mrs. Marian Wright Edelman, Founder and President of the Children's Defense Fund, an organization based in Washington, DC, that is devoted to the cause of children's rights. Mrs. Edelman, a native of Marlboro County, SC, is widely regarded as the leading advocate for children's issues in the world today. She will receive an honorary degree and will be the first recipient of the Sandor Teszler Award for Moral Courage and Service to Humankind.

At this occasion, we will celebrate humanitarian service and the examples lived by Mrs. Edelman and the late Mr. Teszler, illuminating them as the kinds of people all of us at Wofford should strive to emulate. All students, faculty and staff are strongly urged to attend this convocation; Mrs. Edelman is a powerful and provocative speaker, and her appearance at Wofford will be one of the most memorable occasions in the recent history of the college.

Marian Wright Edelman
All students, faculty and staff are strongly urged to attend two campus events tomorrow, Thursday, April 20, in which Mrs. Marian Wright Edelman, the Founder and President of the Children's Defense Fund, will be participating. At 9:00 am in the Anna Todd Wofford Center, I will be moderating a roundtable discussion with Mrs. Edelman, at which invited guests from around the community, state and region will also be participating. Seated around the table will be persons who work with organizations and/or programs of varying types, all of which are involved with children's issues and especially bettering the lives of disadvantaged children. The event is not open to the public, mainly because of space limitations, but there will be an area of seating available in the Anna Todd Wofford Center for persons interesting in this conversation. It will conclude by 10:30 am.

At 11:00 am, we will have the inaugural Sandor Teszler Award Convocation, scheduled to be held on the lawn in front of the F. W. Olin Building. At this ceremony, the faculty will march in academic regalia, and Mrs. Edelman will be awarded both the Sandor Teszler Award and an honorary degree, plus she will deliver the keynote address. Mrs. Edelman is truly an international giant, a native South Carolinian, widely recognized as the leading authority and spokesperson for children's rights, and one of the great humanitarians of our time.

We need a great campus-wide turnout for these events, and especially for the 11:00 convocation. I am urging that, as practical, campus offices be closed at 10:45 am so that all members of the staff who wish to attend may do so. I look forward to your help in welcoming this most distinguished visitor to the Wofford campus.

President Benjamin B. Dunlap

Parking
Faculty and staff who customarily park in the Admissions lot near the Hugh Black and F. W. Olin Buildings should make plans to park elsewhere tomorrow morning, April 20. A significant number of spaces in that lot will be reserved for off-campus guests participating in the visit of Marian Wright Edelman to the college. Those spaces should be available following the 11:00 convocation for the remainder of the day.

**Renowned Zen photographer to lecture Thursday**

John Daido Loori will present a lecture on Zen and Creativity on Thursday, April 27, at 7:00 PM in the Olin Theatre
Daido Loori is the foremost name in American Zen Buddhism and is a world-renowned photographer. He is the author of 18 books and has had numerous exhibitions, lecturing widely as both an artist and naturalist.

This lecture will explore the unique aesthetic of Zen Buddhism and how it not only defines the fine arts of Zen but also informs the creative process as well. While Western art is mostly concerned with form, Zen art stresses the depiction of spirit. In the Zen arts such as calligraphy, haiku, and painting, the artist tries to convey the inherent nature of the subject itself. This process calls for a new way of seeing and creating.

The lecture accompanies the current exhibitions of photographs by Loori now on view in the Library gallery. The lecture is free and open to the public.

The conversation will be informal as we discuss issues that haven’t been specifically addressed at previous luncheons (for example, advising or interim questions.)

Please join us in the Holcombe room if this topic interests you; you are welcome to bring your lunch or purchase one from the Faculty Dining Room. (Although the topics discussed are primarily of interest to faculty with five or fewer years of experience, all faculty and staff are welcome to attend.)

Renowned Zen photographer to lecture tonight--Olin

John Daido Loori will present a lecture on Zen and Creativity tonight, April 27, at 7:00 PM in the Olin Theatre

Daido Loori is the foremost name in American Zen Buddhism and is a world-renowned photographer. He is the author of 18 books and has had numerous exhibitions, lecturing widely as both an artist and naturalist.

This lecture will explore the unique aesthetic of Zen Buddhism and how it not only defines the fine arts of Zen but also informs the creative process as well. While Western art is mostly concerned with form, Zen art stresses the depiction of spirit. In the Zen arts such as calligraphy, haiku, and painting, the artist tries to convey the inherent nature of the subject itself. This process calls for a new way of seeing and creating.

The lecture accompanies the current exhibition of photographs by Loori now on view in the Library gallery. The lecture is free and open to the public.

**New Course Opportunity in Kinetic Sculpture**
Next fall term Professor Mac Boggs of Converse College and Dr. Dan Lejeune of Wofford will jointly teach a course in Kinetic Sculpture at Converse College. The course is Art 360. Five spaces are being held for Wofford students.

Kinetic Sculpture always refers to sculpture that moves—powered by wind, motors, water, etc. Most pieces created in the course would use welded steel. At the end of the course, the finished sculptures would spend several months on display on the grounds of both colleges.

Submissions to Wofford Online Calendar
Faculty, staff and student organizations are reminded that the Wofford Online Calendar is the official campus calendar. All events affecting the campus, even those that are by-invitation-only and off-campus groups holding events here, should be posted to the online calendar.

To do so, go to the Wofford home page (www.wofford.edu), click on Calendar, then on Add Event (upper right-hand side). Fill in the form and submit. The information will be reviewed, and in most cases will be approved and posted the same day.

It is essential that when there is a CHANGE in a calendar event – date, time or location – you notify Laura Corbin (laura.corbin@wofford.edu) immediately. As the official campus calendar, it is used for planning campus events to avoid major conflicts and encourage appropriate participation in these events. We realize that changes often are unavoidable, but they have potential to cause additional work and confusion, especially with our off-campus audience and the news media.

If you are planning a major campus event, but only have a tentative date, it is advisable to post that tentative date as such to "hold" the date so that others planning events can either avoid the date or inquire about the availability.

If you have questions about the online calendar, or have problems posting, please contact Laura Corbin (x4180 or laura.corbin@wofford.edu).

You also are reminded to follow the Communications Office Policies and Procedures regarding on-campus and off-campus promotions for events. (See http://www.wofford.edu/newsroom/policyProcedureManual.pdf)

Campus Update

The purpose of this email is to inform the members of the Wofford Community about an accident that occurred yesterday. Shortly after 5:00 pm, four Wofford students: Jessica Miller, Audra Riddle, John Wood, and Matt Morrison who were riding in a Ford Explorer were involved in a very serious accident on I-26 just south of the Spartanburg county line. They were rushed to the emergency room at Spartanburg Regional Medical Center. John and Jessica have been released from the hospital and are at home with their parents. We expect Audra to be released late this afternoon or this evening. Matt Morrison is in very critical condition in the Neuro ICU.

Jessica, John, Audra, Mr. and Mrs. Riddle, Mr. and Mrs. Miller, Dr. and Mrs. Wood and Mr. and Mrs. Morrison appreciate all the students and staff who have called or stopped by the hospital to express their concern and offer assistance. Please keep all four of these students in your thoughts and prayers especially Matt and his family. Mr. and Mrs. Morrison can be reached in the Neuro ICU waiting room on the 6th floor of SRMC. Anyone wishing to send a card or note to Matt can bring it to the Student Affairs Office, and we will take it to the Morrisons.

In addition, we ask your consideration of Campus Safety Officer John Moore who is battling cancer. He is also at Spartanburg Regional Medical Center.

Several members of the Delta Delta Delta Sorority and Dr. Ron Robinson have organized a prayer gathering for Sunday night. Everyone is invited to attend. Please join us on the steps of the Main Building at 9:00 pm.

Thank you
Roberta Bigger
Dean of Students
