## **Announcements**

### **Campus Parking**

**Details:** Campus Safety reminds students, faculty and staff that all vehicles parked on college property must be registered in Campus Safety and must have the correct sticker displayed in the appropriate location. Campus parking rules and regulations are located on the Campus Safety Web site at <http://www.wofford.edu/campusSafety/default.aspx>. Students are reminded that they will be ticketed if they park in spaces marked for faculty (Admission Lot, south end of Shipp Lot, and the horseshoe behind Main Building). We also ask that students not park on Osage Street (across from Wightman) because it blocks fire department access to the senior village apartments. There are many spaces always available in the Spartanburg Memorial Auditorium lot as well as the lot behind Snyder Field. If faculty members have Converse College students, please let them know that they should come by and register their vehicles as well.

**From:** Bob Keasler, senior vice president for internal operations

Laura Corbin, director of news services  
**Re:** Wofford College Emergency Alert System

Wofford College now has in place the new Wofford College Emergency Alert System, powered by Omnilert Network e2Campus, that will be used to instantly send information about major emergencies affecting campus to registered students, faculty, staff and parents. The system can deliver messages to mobile phones, pagers, e-mail, Web browser and other wireless data devices, such as PDAs.

This service is an important element of Wofford's larger strategy to enhance communications during an emergency. Our goal is to increase safety on the Wofford College campus.

Other means of communicating to the campus community include blast e-mails through Wofford e-mail accounts; Web site postings; blast voice-mails to on-campus telephones; and notifications throughout residence halls, classroom and administrative buildings by residence advisors, residence directors, administrative staff and others. Depending on the situation, Wofford College will use some or all of these redundant means of communications

We urge all students, faculty and staff to register for the Emergency Alert System that provides text messaging and other capabilities.

This is an opt-in service, so you must register in order to receive these emergency notifications; you will be able to opt-out at any time, and if you change cell numbers, carriers or e-mail addresses, you may change those within your account without re-registering.

Register at <http://www.wofford.edu/campusSafety/content.aspx?id=33330>. (If you experience difficulties registering, please contact Laura Corbin at x4180 or at [laura.corbin@wofford.edu](mailto:laura.corbin@wofford.edu).)

We will conduct a **test** of the system on **Friday, Sept. 21**; please register by midnight on **Thursday, Sept. 20**, so that you can be included in the test. (Registration will be available any time, but to be included in the upcoming test, you must register by the deadline.)

*(NOTE: This is a NEW system that replaces the system for which you may have registered this spring. You MUST register in this new system to be able to receive these messages.)*

**Activating the Emergency Alert System:**

Wofford College will only activate the Emergency Alert System in cases of a major emergency that affects campus and the campus community (in whole or in part):

- Natural disaster (such as tornado, hurricane, ice storm, earthquake, flood, etc.)
- Man-made disaster (fire, chemical spill or release, etc.)
- Active shooter (suspected or confirmed active shooter on campus or near campus)
- Other major disaster determined by the Incident Commander and/or senior administrative staff.

The Emergency Alert System will not be used for:

- Routine campus announcements/news
- Street or parking lot closings (unless they are related to a bona fide emergency)
- Other routine information dissemination

### **Message to Students, Faculty and Staff:**

Wofford College's Emergency Alert System is an instant, mass notification system that enables students, parents, and members of the faculty and professional staff to receive updates and alerts via cell phones, personal data assistants (PDAs), e-mail accounts, and personal Web pages (such as Google, AOL, or Yahoo).

Wofford College Emergency Alert System is a **completely voluntary service** provided to the college community and is powered by Omnilert Network e2Campus. **No advertisements or non-emergency alerts** will be sent to you. **You must sign up for the service in order to receive alerts. Because this is a voluntary service, you may choose to opt-in or opt-out of the service at any time.**

You only have to register one time. Use either the cell phone or the e-mail sign up page, not both. Once you have an account, you can add to, or change, how you receive your messages. Links on the page take you to the appropriate sign up page.

### **Information for Parents:**

Parents have the option of receiving Wofford College Emergency Alert System messages. Once registered, all users can add up to a total of two (2) cell phone numbers and two (2) e-mail addresses. If you are a student whose parent(s) would like to receive the alerts, you may add their cell number and/or e-mail information to your account.

### **Of Special Note:**

**You are responsible for any messaging charges from your wireless service provider.** Wofford College is not responsible for any charges your service provider may charge for standard text message fees.

Your information is not shared with or sold to third parties.

If you do not want to receive text messages but would still like to receive the alerts, use the link for registration for e-mail only link provided on the registration page.

**About your Wofford College Emergency Alert System Account:**

The Emergency Alert system is a separate account and is not the same as your universal Wofford College account.

Before you sign up for your alert account, here are some suggestions and helpful information:

- You only have to register one time. Use one or the other – either the cell phone or e-mail sign up page.
- Once your registration is confirmed, you can log in to your account and:
  - Add an additional cell phone number and/or e-mail address.
  - Change your status from active to inactive.
  - Change your cell phone number or e-mail address.
  - Reset your password.

**Details:** Wofford College now has in place the new Wofford College Emergency Alert System, powered by Omnilert Network e2Campus, that will be used to instantly send information about major emergencies affecting campus to registered students, faculty, staff and parents. This service is an important element of Wofford's larger strategy to enhance communications during an emergency. Our goal is to increase safety on the Wofford College campus. We urge all students, faculty and staff to register for the Emergency Alert System that provides text messaging and other capabilities. This is an opt-in service, so you must register in order to receive these emergency notifications; you will be able to opt-out at any time, and if you change cell numbers, carriers or e-mail addresses, you may change those within your account without re-registering. Register at <http://www.wofford.edu/campusSafety/content.aspx?id=33330>. (If you experience difficulties registering, please contact Laura Corbin at x4180 or at [laura.corbin@wofford.edu](mailto:laura.corbin@wofford.edu).) ## CAMPUS SAFETY ALERT

On Monday morning at approximately 2 a.m., a male Wofford student was assaulted and robbed near the campus on Memorial Drive. Fortunately, the student suffered no serious injury. In cooperation with the City of Spartanburg Police, Wofford is working to protect and ensure the safety of our community.

We strongly recommend that all students and employees exercise good judgment regarding their personal safety.

- Make sure you are in groups of two or more when walking at night off campus.
- Make every effort to park on campus in the designated lots. If you must park on Memorial Drive and you are alone, call Campus Safety at 597-4350 for an escort to your residence hall.
- Report any suspicious persons on or off campus immediately to Campus Safety at 597-4911.

The incident did not take place on campus, but Campus Safety officers will increase patrols on Memorial Drive as well as the parking lots on campus to help ensure safety. Wofford College, the City of Spartanburg and the Spartanburg Memorial Auditorium are working together to heighten security efforts in these areas.

**Details:** It is extremely important for students, faculty and staff to register for the new Wofford College Emergency Alert System. Powered by Omnilert Network e2Campus, the system will be used to instantly send information about major emergencies affecting campus to registered students, faculty, staff and parents. This service is an important element of Wofford's larger strategy to enhance communications during an emergency. Our goal is to increase

safety on the Wofford College campus. We urge all students, faculty and staff to register for the Emergency Alert System that provides text messaging and other capabilities. This is an opt-in service, so you must register in order to receive these emergency notifications; you will be able to opt-out at any time, and if you change cell numbers, carriers or e-mail addresses, you may change those within your account without re-registering. Register at <http://www.wofford.edu/campusSafety/content.aspx?id=33330>. To the Wofford Campus Community:

At 11:30 a.m. today (Friday, Sept. 21), we conducted a test of the Wofford Emergency Alert System.

The test generated a message delivered to **REGISTERED** cell phones, PDA, pagers, e-mails and Web browsers.

- If you are registered and received the message on all registered devices, no response is needed.
- If you are registered, but DID NOT receive the message on all registered devices, please contact Laura Corbin at [laura.corbin@wofford.edu](mailto:laura.corbin@wofford.edu). Please put "Emergency Alert System" in your subject line.
- If you have NOT REGISTERED to receive these messages, you are strongly urged to do so immediately at <http://www.wofford.edu/campusSafety/content.aspx?id=33330>.

Wofford's Emergency Alert System is an instant, mass notification system that enables students, parents, and members of the faculty and professional staff to receive updates and alerts via cell phones, personal data assistants (PDAs), e-mail accounts, and personal Web pages (such as Google, AOL, or Yahoo).

This service is part of our larger strategy to enhance communications during an emergency. Our goal is to increase safety on the Wofford College campus.

Wofford College Emergency Alert System is a **completely voluntary service** provided to the college community and is powered by Omnilert Network e2Campus. **No advertisements or non-emergency alerts will be sent to you. You must sign up for the service in order to receive alerts.** Because this is a voluntary service, you may choose to opt-in or opt-out of the service at any time.

You only have to register one time. Use either the cell phone or the e-mail sign up page, not both. Once you have an account, you can add to, or change, how you receive your messages. Links on the page take you to the appropriate sign up page.
