**General Statement**

**DEGREES**

Wofford College is the South Carolina Methodist College for men.

The College grants the degrees of Bachelor of Arts and Bachelor of Science. The College also confers the honorary degrees of Doctor of Divinity, Doctor of Laws, Doctor of Letters, Doctor of Literature, and Doctor of Science.

**HISTORY**

The Reverend Benjamin Wofford, a local minister of the Methodist Episcopal Church, South, died in the town of Spartanburg, S. C., December 2, 1850. He left in his will a legacy of one hundred thousand dollars to the South Carolina Conference "for the purpose of establishing and endowing a college for literary, classical, and scientific education, to be located in my native district, Spartanburg." One-half of the amount was to be laid aside as a permanent endowment.

A charter was given by the Legislature of South Carolina, December 6, 1851. Suitable buildings having been erected, a president and professors were elected November 24, 1853, and the College was opened August 1, 1854. Since that time it has never been suspended, though for a period during the Civil War it was not above the grade of a classical school. At the close of the war, college classes were again organized.

The donation of Benjamin Wofford was exceptionally large at the time it was made. No Methodist in America had given so large an amount to religious or educational objects. The will of the founder was clear, so that no difficulty or doubt has arisen in carrying out its few details.

Measures were taken immediately after the opening of the College to add to the endowment, and they were meeting with a large and gratifying success when interrupted by the War Between the States, 1861-'65. In the general wreckage of the war the endowment was swept away, leaving to the College only its grounds and buildings. The South Carolina Conference, however, liberally made arrangements to meet the emergency and, by an annual assessment, kept the College from closing its doors. This assessment has been increased from time to time as the needs of the College required and
has become a fixed source of income. In the meantime, since 1870, efforts have been made to restore and add to the endowment, and through the liberality of the people of the City of Spartanburg and of the State, together with the generous cooperation of the General Education Board, Mr. B. N. Duke, Mr. Andrew Carnegie, and Mr. S. Clay Williams, the resources and endowment have steadily increased.

AIMS OF THE COLLEGE

The aims of Wofford College are to place religion at the center of its purpose as an institution and to create an atmosphere congenial to the development of a Christian philosophy of life and a Christian standard of conduct; to maintain high standards in literary, classical, and scientific education; to develop a Christian love of freedom and truth; to stimulate and develop intellectual curiosity, critical acumen, and creative imagination; and to render the greatest constructive Christian service to the individual, to the state, to the nation, and to the Church. Unto these ends shall the affairs of the College always be administered.

LOCATION AND SURROUNDINGS

The College is located in the City of Spartanburg, which, with an altitude of nearly 900 feet above sea level, possesses an unusually healthful climate. Spartanburg has also been long noted as a community with an exceptional social, intellectual, and religious atmosphere. Though a modern commercial city, it still retains the cultural advantages of a college community, offering from time to time opportunities for hearing outstanding leaders of the nation in the intellectual and artistic world.

The College campus consists of about seventy-two acres.

BUILDINGS

Wofford College is proud of her physical plant which consists of twenty-nine buildings, a stadium, several playing fields, and other athletic facilities. In the past few years, six new structures, including two residence halls which contain individual sleeping-studying rooms, have been built. Two other buildings have been completely reconstructed. Some of the structures are depicted in the catalog.
THE WHITEFOORD-SMITH LIBRARY

The Library consists of approximately 74,000 volumes, not including pamphlets and some unbound files of magazines. The collections of the South Carolina Conference Historical Society of the Methodist Church, embracing a large amount of original manuscript material, are separately catalogued and housed in the Library.

COLLECTIONS

The Whitefoord-Smith Library has been enriched by gifts from the personal libraries of friends of the College—L. D. Gillespie; Bishops W. W. Duncan, E. Toland Hodges, Edwin D. Mouzon; Professors Herman Baer, Jr., David Duncan, A. G. Rembert; Presidents James H. Carlisle, William M. Wightman; and Alumni A. D. Betts, and J. Thomas Pate.

Other friends of the College have established memorial funds as endowments to add to, or establish, collections of books. The College would like to recognize their generosity: Professor and Mrs. Warren DuPre, the Sunday School Class of the Pine Grove Methodist Church in Marlboro County, Mrs. J. Thomas Pate, and Mrs. Agnes Dibble Moss.
EDUCATIONAL STANDING

Wofford College is a member of the Southern Association of Colleges and Schools, of the Southern University Conference, of the National Association of Methodist Schools and Colleges, and of the South Carolina Association of Colleges.

PHI BETA KAPPA SOCIETY

The College was granted a Phi Beta Kappa Charter in August, 1940. The Wofford Chapter, known as Beta of South Carolina, was installed in January, 1941. Eligibility for membership in the Phi Beta Kappa Society is based upon scholarly achievements, high character, and special extracurricular intellectual attainments.

STUDENT ACTIVITIES

College life with its various interests offers opportunities for the development and enrichment of the personality of the student, for developing in him a sense of responsibility, for discovering his capacity for leadership, and for helping him to realize the value of effective cooperative efforts toward common ends. The many and various voluntary activities in which students engage are, therefore, not regarded as sidelines to the main purpose of the College, but as essential elements in this main purpose—the making of clear-headed men of strong character, who know how to express themselves intelligently and effectively in the practical affairs of life. Insofar as they contribute to this important end, student activities are encouraged and sympathetically directed by the Faculty.

RELIGIOUS OPPORTUNITIES

Wofford College is a Christian College. For more than one hundred years it has been the South Carolina Methodist College for men. It strives to create an atmosphere congenial to the development of Christian character, both by general influence and direct instruction and training. It insists that the members of the Faculty be men of approved religious character and that they cooperate sympathetically in maintaining and developing the religious life of the campus. In the matter of direct instruction it conducts departments of Philosophy and Religion, which offer courses of study in English Bible, Church History, Methodism, Christian Education, Christian Thought, and Philosophy. In his own religious activities the student receives encouragement and guidance from the Faculty and the Director of Religious Life.

ALUMNI ASSOCIATION

All former students of Wofford College are members of the Alumni Association.

Through an annual gift plan, known as The Living Endowment, the members of the Association have an opportunity to make their loyalty to the College tangible.

The Wofford Alumni Bulletin is published periodically by the Alumni Secretary.

FOREIGN STUDY PROGRAM

In general, carefully planned programs of foreign study have been very successful and are highly recommended. Therefore, the College will permit a qualified student to spend a year abroad (preferably the Junior year) whenever it is felt that the student will benefit from such an opportunity.

A student contemplating such a program of study should consult the chairman of the Faculty committee on Foreign Students and Foreign Study and the Dean of the College. Specific courses that the student plans to take must be approved by the Dean of the College and the chairman of the department in which the student is majoring. After credits and grades are evaluated by the Registrar and Dean of the College, as much as thirty semester hours may be granted for a year of full-time acceptable work. Proportionate credit will be granted for less than full-time work.

CO-OPERATION WITH CONVERSE

In September, 1963 Wofford entered upon a program of co-operation with Converse College, a four-year liberal-arts college for women located only about one mile from the Wofford campus. The two institutions have much in common. They are of comparable size, they bear old and proud traditions of excellence, and they are devoted to the highest ideals of liberal-arts education. Under the program each college permits specially qualified juniors and seniors with permission of the respective deans and department chairmen, to take a limit-
ed number of courses at the other institution. The two colleges contribute to the common academic advancement by a selective sharing of facilities. By this carefully designed plan of co-operation Wofford and Converse offer their students an increase in breadth and depth of curricular and faculty resources.

**ARMY RESERVE OFFICERS' TRAINING CORPS**

The Wofford unit of the Army Reserve Officers' Training Corps (Senior Division) was established during the school year of 1919-20 under the authority granted by Congress in the National Defense Act of 1916 and is one of the oldest ROTC units in the South. Any student entering Wofford College has the opportunity through the ROTC of earning a commission as a second lieutenant in the U. S. Army Reserve. The Wofford unit is now designated a General Military Science unit, and graduates may earn commissions in any branch of the Army except the Medical Corps, Chaplains Corps, and the Judge Advocate General’s Corps.

Enrollment in the ROTC at Wofford is entirely voluntary. Applicants must pass a physical examination prior to final enrollment in either the Basic or Advanced Course. At the time of acceptance, basic students must have reached 14 years of age, and advanced students must qualify for appointment as second lieutenants prior to reaching 28 years of age.

**Scope of Course**

The Military Science Curriculum is a four-year course, but is divided into the Basic and Advanced Courses of two years each. Both courses encompass subjects usable in civilian life as well as purely military subjects. The Basic Course primarily takes up the same subjects a soldier would be given in his Army Basic training.

The Advanced Course is selective and competitive and not all those applying will always be accepted. Cadets so selected will be paid approximately $27.00 per month for which they will agree to continue in the ROTC for the remainder of their course at the institution; to pursue the course in camp training prescribed by the Secretary of the Army, attendance at which is prerequisite to graduation from the College. Payment will be made for travel to and from summer camp along with the pay prescribed for enlisted men of the first grade (E-1) with less than 4 months service of approximately $78.00 per month while at camp. Cadets will agree to accept appointment as reserve or regular officers of the Army if such appointment is tendered and if commissioned at the time of graduation, and subject to the order of the Secretary of the Army, to serve on active duty as commissioned officers in the Army for not less than two (2) consecutive years or to serve on active duty for training for a period of six (6) months, unless sooner relieved of such obligation or discharged under regulations prescribed by the Secretary of the Army; that fulfillment of this obligation is a prerequisite for their graduation from the institution, unless they are relieved of these obligations under regulations prescribed by the Secretary of the Army and that this agreement continues in full force and effect in the event they transfer to another institution. Such students agree to apply for enrollment in the Advanced Course Army ROTC at the new institution if a unit is maintained thereat.

**ROTC Activities**

Besides classroom work the ROTC has several extracurricular activities, such as the ROTC Band, Rifle Team and Morgan Rifles Drill Platoon. Instruments and music are furnished for those interested in the Band. The Rifle Team fires in local, state and national matches. All necessary equipment is furnished. A minor sports letter may be made by those members making the team. The Morgan Rifles Drill Platoon performs precision drills for athletic activities and parades.

**Draft Deferments**

Enrollment in the ROTC does not in itself act as a deferment from Selective Service. The Professor of Military Science is authorized, however, to sign “Deferment Contracts” with eligible students. Deferments will not be issued to Freshmen students until after successful completion of one semester. To be eligible for deferment a student must be in good standing in both his academic and military courses. Deferments in effect will be reviewed periodically to ascertain whether the student is entitled to retain his deferment. Under terms of the contract, the student agrees to complete the basic course, if enrolled therein; to enroll in and complete the advanced
course at the proper time, if accepted therefor; upon completion or termination of the course of instruction therein, to accept a commission, if tendered; to serve on active duty for a period of not less than two years after receipt of such commission, subject to order by the Secretary of the Army; and to remain a member of a Regular or Reserve component of the Army until the sixth (6th) anniversary of the receipt of his commission unless sooner terminated; or, if the Army does not require his service on active duty in fulfillment of this obligation, to serve on active duty for training for a period of six (6) months after receipt of such commission and to remain a member of a Reserve unit until the eighth (8th) anniversary of receipt of his commission.

Physical Education

All students are required to take two years of physical education or the two years of the basic ROTC course. A sound body, as well as a trained mind, is an essential part of the student's equipment not only for military service, but also for life as a whole.

Admission To College

Applicants may qualify for admission to the College as members of the Freshman class or as students with advanced standing. Since the enrollment of students is limited, the Committee on Admissions will restrict its selection of students to those who, in its opinion, are best qualified to benefit from the educational advantages which the College offers.

APPLICATION FOR ADMISSION

Application for admission to the College should be made to the Director of Admissions, Wofford College, Spartanburg, South Carolina. Application forms will be sent on request. If possible the completed application should be in the hands of the Committee on Admissions approximately six months prior to the date on which the applicant wishes to enroll. Therefore, applicants for admission to the Freshman class in September are urged to take the Scholastic Aptitude Test of the College Entrance Examination Board in December or January of their senior year of high school. Students with excellent high school records may secure early approval of their applications by taking the Scholastic Aptitude Test not later than the summer preceding the beginning of their senior year.
degree must apply for readmission to the Committee on Admissions. If a student during his absence from the college has completed any undergraduate work in another institution, he must submit an official transcript of such work, together with a statement of honorable dismissal from that institution.

**PRELIMINARY TESTS AND EXAMINATIONS**

During the week immediately preceding the opening of college, all Freshmen are given placement tests, on the basis of which they are assigned to proper sections in chemistry, English, mathematics and foreign languages. The complete test data become the basis for individual counseling with the student with respect to academic and personal adjustments.

**ADVANCED PLACEMENT PROGRAM**

Exceptionally well-prepared high school seniors who plan to enter Wofford College should confer with their principal or guidance counselor as to the possibility of taking examinations in fields of special proficiency in the Advanced Placement Program administered by the College Entrance Examination Board of Princeton, New Jersey.

Based on satisfactory performance on these examinations, as determined by the subject matter department concerned, advanced placement and college credit at Wofford will be awarded.

**ENTRANCE EXAMINATIONS**

All candidates for admission as beginning freshmen and all transfer candidates with previous college attendance are required to stand the Scholastic Aptitude Test of the College Entrance Examination Board and make a satisfactory score. Applicants are also advised that some colleges to which they may apply require certain of the College Board Achievement Tests. These tests are administered five times a year at numerous centers and locations over the nation and in foreign countries by the College Entrance Examination Board.

Applicants for admission to Wofford College should carefully note that they make application for the entrance examination not to the Office of Admissions at Wofford College but to the College Entrance Examination Board at the address given below. All other application forms should be obtained from the Office of Admissions at Wofford.

High school students should secure from the principal or counselor's office a College Entrance Examination Board Bulletin of Information with an application blank. In the event that this Bulletin of Information with application blank is not available at the high school, or if an applicant is not now in high school, he should request this material from College Entrance Examination Board, P. O. Box 592, Princeton, New Jersey.

The completed application and fee must be sent to the College Board at the same address.

As will be noted in the Bulletin of Information, closing dates for making application for the tests are approximately one month prior to the date of examination.

The Board will report the results of the tests to the college approximately one month after the testing date.

If the entrance examination has been taken previously, applicants should request that the College Board forward their scores to the Director of Admissions at Wofford College.
Summer School

DATE

The Wofford College Summer School begins on Monday, June 15, and ends on Saturday, August 22. The session is divided into two terms of five weeks each. Registration for the first term takes place on Monday, June 15, beginning at 9:00 A.M. Instruction begins on Tuesday, June 16, at 8:30 A.M. Registration for the second term takes place on Monday, July 20.

PURPOSE

The Wofford College Summer School is planned (1) to aid the students now in college and high school graduates entering the College in June to accelerate their program of work and (2) to meet the demands of teachers who desire to take courses for certification credit.

ADMISSION

Applicants for admission must have completed a high school course.* A student who wishes to enroll for the accelerated program must fulfill all requirements for admission as outlined on pages 17-20.

CREDITS

Courses are given six periods a week during each term and carry a credit of three or four semester hours each. The maximum credit a student may earn during a term is seven semester hours.

Various state boards of education have different rules for granting professional credits toward teachers' certificates, and teachers should acquaint themselves with these rules before enrolling in the summer school courses. The State Department of Education in South Carolina has made a complete revision of certification requirements. The new requirements specify in some detail the educational training for certification. It should be noted that these requirements include professional courses in education and specialized training in content or subject matter.

For further information consult the Dean of the College.

*Other specific administration requirements and procedures may be found in the Summer School Number of the Wofford College bulletin.

General Academic Regulations

The academic year is divided into two semesters. The official College calendar is printed in the front of this catalog. All students are expected to be present on the dates indicated unless special exceptions are granted by the Registrar.

MATRICULATION, REGISTRATION, AND ENROLLMENT

Registration and matriculation take place in Andrews Field House at the beginning of each semester. All students must register on the date prescribed in the College calendar. All students are required to matriculate at the beginning of each semester and to obtain from the Controller a receipt. No student is permitted to register later than one week after the opening of either semester.

Freshman and Sophomore schedule cards must be approved by their faculty advisers. Junior and Senior students' schedule cards must be approved by the chairman of the department in which they are majoring. All student schedule cards calling for more or less than the normal course load (See pages 25 and 26 for normal course load) must be approved by the Dean of the College.

REGULATIONS REGARDING GRADES

Grades shall be reported so as to indicate one of four things:

PASSED.—A grade of "A," "B," "C," or "D" shall indicate that a student has passed a course. The work is graded according to the following system: "A," excellent; "B," good; "C," fair; "D," passable.

FAILED.—A grade of "F" shall indicate that the student has failed the course and that, in order to receive credit for the course, he shall be required to take the work again.

INCOMPLETE.—A grade of "I" shall indicate that the instructor, because the student has not completed all the work required in the course though he has passed the examination, is unable to report the final grade at the regular time.

All students with incomplete grades who have not satisfied the department concerned and have not obtained a passing grade before the close of the semester following the date of
regular examination in which the "I" was incurred are regarded as having failed on the course concerned and must repeat the course in order to receive credit.

Absent from Examination.—A grade of "X" shall indicate that the student was absent from the examination.

A student absent from examination and marked "X," if his absence has been excused by the Dean of the College, may receive an examination on the payment of a fee of $5.00 to the Controller of the College. The Dean shall arrange with the department concerned for this examination, which must be taken by the student before the close of the semester following the date of the examination in which the "X" was incurred. Otherwise, the grade for the course shall be recorded as "F." If a student's absence from an examination is not excused by the Dean, the grade for the course concerned shall be recorded as "F."

REGULATIONS FOR DROPPING COURSES
The procedure for dropping a course is as follows:
1. Obtain written approval of the Dean of the College or the Dean of Students. In the case of Freshmen, this approval should be obtained from the student's adviser instead of either of the Deans.
2. Obtain written approval of instructor concerned.
3. Take written approvals to Registrar.

The grade in a course dropped for any reason, including withdrawal from the College, shall be WP or WF as determined by the instructor. A grade of WF shall be counted as an F in establishing a student's grade-point ratio.

EXAMINATIONS
Final examinations in all subjects are held in January and May, respectively. The examination record combined with the record made in class constitutes the student's final grade.

EXPLANATION OF QUALITY-POINT SYSTEM
A certain quality-grade is required for graduation and, for the purpose of determining this quality-grade, numerical values called points are given to the grade letters as follows: for grade "A," 4 points for each semester hour of credit; for grade "B," 3 points; for grade "C," 2 points; for grade "D," 1 point.

To obtain a student's grade-point ratio, the total number of semester hours taken is divided into the total number of quality points earned.

In calculating a student's overall grade-point ratio, courses failed will be included only once.

The term "average grade of 'C'" means that the student has twice as many quality points as semester hours taken.

CLASS STANDING
For a student to rank as a Sophomore, he must have to his credit a minimum of twenty-four semester hours and forty-eight quality points; as a Junior, fifty-six semester hours and one hundred and twelve quality points; as a Senior, ninety-two semester hours and one hundred and eighty-four quality points.

AMOUNT OF WORK
Exclusive of basic ROTC 1-2, 51-52 or Physical Education 1-2, 51 or honors courses, no student may take less than 5 courses without special permission from the Dean of the College. A student may take 6 courses (exclusive of ROTC 1-2, 51-52, P.E. 1-2, 51) if his average grade of the preceding semester is "C" or above, or, if by taking 6 courses (exclusive of those listed above), a student may graduate at the end of the current semester. Under no condition may a student take more than this amount of course work.

The total amount of work that a student may take in any one department toward the Bachelor's degree is limited to a maximum of thirty-six semester hours. For purposes of determining this requirement, German and Romance Languages are regarded as separate departments. Required Freshman and Sophomore courses shall not be included in the thirty-six semester-hour limit.

After the final date for registration, a student may not remain in college if his semester hours are reduced, voluntarily or involuntarily, below twelve without special permission of a committee consisting of the Dean of the College, the Dean of Students and the Registrar.
LIMIT ON FINAL WORK FOR GRADUATION

Not more than eight semester hours of work may be taken in another institution of approved standing as the final work necessary for graduation, and this work of Senior grade must first be approved by the Dean of the College.

REGISTRATION FOR LESS THAN NORMAL WORK

A student reported to be in poor health or engaged in outside work that demands much of his time may not register for the normal load of work unless his average grade for the preceding semester is "C" or above.

SUMMER SESSION ELSEWHERE

Wofford students desiring to attend summer school in another college must secure advance approval of the Registrar and of the chairmen of the departments in which the student desires to take such courses.

AUDITING COURSES

A student who wishes to audit a course may do so on securing the consent of the instructor and Registrar. No attendance record of the student is kept, and he may not receive credit for the course.

HONORS COURSES

A senior student may, at the discretion of the Curriculum Committee and the Faculty, be allowed to carry an honors course during the regular academic year. Honors courses are subject to the following regulations:

1. Any honors course may count as part of the major requirement in any field.
2. A student shall be allowed to participate in an honors program only upon invitation by his major department.
3. Only students with an average grade of "B" in all courses and no grade less than "B" in his major field shall be eligible to receive an invitation. Upon mutual consent of department and student, the department shall submit to the Curriculum Committee a request that the student be allowed to participate in an honors program. The request shall be accompanied by a statement concerning the general nature of the work to be undertaken.
4. An honors program may be undertaken only by Seniors and will carry credit of 6 semester hours provided the student is judged to have done work worthy of either an "A" or a "B" grade.
5. The course, if completed satisfactorily, shall be entered on the student's permanent record with a notation to the effect that it is an honors course. Also, the student shall be mentioned at commencement exercises — and shall be listed in a special section of the college catalogue of his graduation year — as having attained "high honors" or "honors" in his field, depending upon whether he received an "A" or a "B" in the honors program.
6. A student may be removed from an honors program at any time, if, in the judgement of the department, his work is not of sufficient merit to justify his continuing.
7. An honors course is not to be subject to the usual 20 hour per semester limit on course load.
8. Each student completing an honors course shall prepare and submit to his instructor three copies of an abstract describing the work done in the course. The department shall then place one copy in the student's permanent file and one copy in the college library. It is expected that the department will keep the third copy in its own files.
9. All applications for honors courses should be made at least in time for consideration by the Curriculum Committee at its last scheduled meeting in the student's Junior year.
10. At the discretion of the department an honors course may be taken in lieu of the research paper course 200 in his department.

IN-COURSE HONORS

Qualified Wofford students may elect In-Course Honors in accordance with the following regulations:

I. ELIGIBILITY. The student must meet the following minimal requirements:

A. At least one previous semester at Wofford.
B. A grade-point average of at least 3.0, either cumulative or current.
II. Procedure for Application and Approval.
A. Written request for In-Course Honors must be presented to the course instructor.
B. A planned program of study must be submitted before the end of the third week of the semester. A special form for this purpose will be available to the student in the office of the Registrar. The complete form will be retained by the course instructor or until the end of the semester and then used for a report, in space provided, to the Dean of the College.
C. Approval of application and program of study must be obtained from the course instructor, the department chairman, and the Dean of the College.

III. In-Course Honors Requirements, Procedures, and Credit.
A. The student shall meet all the requirements of the regular course, including the final examination.
B. No credit may be given for In-Course Honors unless the student earns a grade of at least "B" on both the regular course in the In-Course Honors work. (The grade on one shall not affect the grade on the other.)
C. Honors work shall
   1. consist of independent study, under tutorial guidance;
   2. exhibit "plus qualities" such as initiative, creativity, intellectual curiosity, critical thinking, sound methodology;
   3. include a terminal essay which analyzes or exhibits the results of the study;
   4. culminate in an oral examination by a committee (appointed by the department chairman) of three faculty members including the course instructor (as chairman) and preferably one person from another discipline. The length of the examination shall not exceed approximately one hour.
D. Upon satisfactory completion of In-Course Honors the instructor will report the regular course grade with the suffix "H" added to the course number and with the signatures of at least two of the examiners appearing on the report card.
E. The Registrar will add the “H” suffix to the course number on the student’s record and allow one semester hour credit for the honors work in addition to the regular course credit.

IV. LIMITATIONS.
A. No student may elect more than one In-Course Honors course per semester.
B. No student shall be penalized for failure to undertake honors work. He may, without honors, earn “B’s” or “A’s” in the regular course.
C. No faculty member is obligated to comply with the request of a student for In-Course Honors.
D. No first-semester faculty person shall give In-Course Honors; he should direct the interested student to the department chairman for other possible arrangements.

THE DEAN’S LIST
Students who, at the mid-year or final examinations, have attained an average grade higher than “B” (above 3.00) in the courses of the half-year just closed and who have not received a grade of “D” or “F” or “I” in any course are placed on the Dean’s List for the succeeding half-year. A student must be carrying at least 15 semester hours of work to be considered. A student whose name appears on the Dean’s List may absent himself from classes up to a maximum of 50 per cent of the regular class sessions. The name of a student may be withdrawn from the Dean’s List at any time, if the student fails to maintain a satisfactory standard of scholarship and conduct.

CLASS ATTENDANCE
Students are expected to be present at all their regularly scheduled class and laboratory appointments. Experience has shown that successful students do not absent themselves from class without good reason. One of the major causes for poor academic achievement is excessive absence from class.

The attendance regulations are designed by the Faculty to provide that a large measure of individual responsibility be given to students whose academic records justify the delegation of such responsibility.

Any student who neglects his class preparation may be required to withdraw from the course under the following procedure: (1) A written warning shall be given the student by the instructor, a copy of which shall be sent to the Dean of the College. (2) If the student fails to show satisfactory improvement within a reasonable period of time the instructor may, with the approval of the Dean of the College, require the student to withdraw from the course with a grade of WP or WF as determined by the instructor.

Specific attendance regulations are published in the Terrier Tale.

ACADEMIC PROBATION AND EXCLUSION

The College reserves the right to require the withdrawal of students whose scholarship is not satisfactory and of those who, for any reason, are regarded as not in accord with the ideals and standards that the College seeks to maintain. The purpose of academic probation is to warn a student and to assist him in improving the character of his work.

Academic probation and academic exclusion are determined under provisions of the Academic Probation and Exclusion Rule. A full-time student* comes under the Rule when he has failed to pass eleven semester hours in a semester and twenty- two semester hours in the two most recent semesters. At the end of a full-time student’s academic year**, and again at the end of the next semester, if he has not made up the deficiency, he comes under the Rule if he has not accumulated quality points in accordance with the following schedule:

34 Q.P. at the end of two semesters (first year)
88 Q.P. at the end of four semesters (second year)
147 Q.P. at the end of six semesters (third year)
200 Q.P. at the end of eight semesters (fourth year)

A part-time student (carrying less than twelve semester hours per semester) comes under the Rule at the end of any semester in which he fails more than one course. Also, at the end of his academic year a part-time student (carrying less than twenty-four semester hours) comes under the Rule if he has not achieved during that year a grade-point ratio of 1.5.

* A student is a full-time student in any semester in which he is registered for twelve semester hours or more, and in any academic year in which he is registered for twenty-four semester hours or more.
** Every second semester of attendance after September 1, 1961.
Students coming under the Rule the first time are placed on academic probation. Students coming under the Rule for the second consecutive semester are excluded from the College. A student excluded for the first time is eligible to re-enter in any succeeding semester if in the Wofford Summer School he makes up the deficiencies which resulted in his exclusion. A student excluded for the second time may not make up the deficiencies in summer school and is excluded from the College. A student excluded for the second time may not apply for readmission until the end of one calendar year from the date of such academic exclusion. Readmission under such circumstances will require convincing evidence that his further attendance at Wofford will benefit him and the College. No credits earned during the period of an academic exclusion may be transferred to Wofford.

A student on academic probation may be restored to good standing by making up in the Wofford Summer School the deficiencies which resulted in his being placed on academic probation.

For transfer students the Rule is computed only on credits earned at Wofford. The cumulative quality-point requirements will be computed on the basis of the first, second, third or fourth year at Wofford, as applicable.

For all students enrolled at Wofford for the 1960-1961 session or earlier, who return after September 1, 1961, the Rule is computed only on semesters, years, semester hours, and quality points earned after September 1, 1961. The cumulative quality-point requirement is computed on the basis of the first, second, third, or fourth year after September 1, 1961, as applicable.

**REPORTS ON ACADEMIC PROGRESS**

Each member of the faculty is required to submit monthly failure reports on all Freshmen.

After November 15 for the first semester and March 30 for the second semester, reports concerning scholarship of all students will be sent to parents or guardians. At the close of each semester final reports of class attendance, courses, and grades of all students will be sent to parents or guardians.

**Bachelor of Arts Degree**

**GENERAL REQUIREMENTS**

The requirements for the degree of Bachelor of Arts are based on a broad distribution of studies among the representative fields of human culture and a concentration of studies within a special field. The object of distribution is to give the student a general view of our intellectual heritage and to broaden his outlook. The object of concentration is to aid the student in acquiring comprehensive knowledge and systematic training in a particular field of scholarly achievement. These requirements are designed to guide students into the academic training desirable for their growth, and they are basic to later study in various professions.

Beginning with Freshmen of 1961-1962, students majoring in one of the natural sciences shall receive the B.S. degree. Those majoring in mathematics or psychology, with 16 semester hours in the natural sciences, shall receive the B.S. degree. A student majoring in either of these departments with less than 16 semester hours in the natural sciences shall receive the A.B. degree.

*Final responsibility for meeting all degree requirements rests with the student.*

Students desiring to qualify for the Bachelor of Arts degree must select a major from one of the following departments: Economics and Business Administration, English Language and Literature, Foreign Languages, Government, History, Mathematics, Philosophy, Psychology, Religion, or Sociology.

**Semester Hours and Grades**

A candidate for the degree of Bachelor of Arts must complete one hundred and twenty-six semester hours of work including, but not exceeding, six semester hours in either basic military science or physical education.

In addition to the one hundred and twenty-six semester hours of credit required for a degree, a student must maintain a certain average of excellence in his work. This standard is fixed by the Quality Point System, which requires for graduation an average of at least 2.0 quality points for all semester hours taken, including all semester hours taken in excess of
the one hundred and twenty-six required for a degree. For explanation of the quality point and grading system see pages 23-25.

A student must have in his major field at least twice as many quality points as semester hours taken.

**Degree at End of Summer Session**

A student who completes in summer session the work required by the College for the Bachelor's degree will be granted the degree at the end of that session.

**English 1-2 and 51-52,** twelve semester hours.

These are the basic courses in English required of all students.

**Foreign Languages,** twelve semester hours.

This requirement is satisfied by the completion in college of twelve semester hours. At least 6 of these semester hours must be on the intermediate level or higher.

**History 1-2,** six semester hours.

This is the basic course in history and is required of all students.

**Mathematics,** six semester hours.

This requirement may be met by completion of any two of the following courses: Mathematics 1, 2, 21 or 22. Placement will be made on the bases of high school record and entrance tests.

**Natural Science,** eight semester hours.

This requirement is satisfied by the completion of Biology 1 and 2 or Biology 3 and 4; Chemistry 1 and 2 or 1 and 22 or Chemistry 21 and 22; or Geology 51 and 52; or Physics 21 and 22.

**Philosophy 51, 111, 122, 151, 153,** three semester hours.

This requirement is satisfied by the completion of one of these courses.

**Religion,** six semester hours.

This requirement should be satisfied by the completion of the end of the sophomore year by completing any two courses numbered below 100.

**Social Science,** six semester hours.

This requirement is satisfied by the completion of three semester hours each in any two of the following: Economics 51 and 52; Government 51 and 52; Psychology 51 and 52; or Sociology 51 and 52.

**Basic Military Science or Physical Education,** six semester hours.

This requirement is satisfied by the completion of the required work of the Freshman-Sophomore years in either department. If a student is excused from taking this requirement, he must substitute for it six semester hours of academic work.

**Major Work**

eighteen to thirty-two semester hours.

Major work consists of eighteen to thirty-two semester hours in a major subject. A course open primarily to Freshmen may not count as part of the major work. Under no circumstances may a required course be used to satisfy the requirements of major work.

A "C" average in major work is required.

A student may not take more than thirty-six semester hours in any department. Required Freshman and Sophomore courses shall not be included in the thirty-six semester hour limit.

**Free Electives**

In addition to the above, the student must elect sufficient courses to complete the one hundred and twenty-six semester hours necessary for graduation.
OMISSION OF REQUIRED COURSES

Students with superior preparation in any of the listed courses are encouraged (or may be required at the option of the department) to omit any of them on which they demonstrate satisfactory proficiency in the judgment of the department concerned. Students relieved of such required courses must still take one hundred and twenty-six semester hours of course work in college, except those qualifying under the Advanced Placement program of the College Entrance Examination Board.

THE FRESHMAN AND SOPHOMORE YEARS

Beginning students should familiarize themselves with courses required for a degree from Wofford College, as listed on pages 34 and 35 of the catalog. These required courses should be completed by the student during his Freshman and Sophomore years.

MAJOR WORK

Not later than the close of the Sophomore year, a candidate for the degree of Bachelor of Arts shall select, under the guidance of a departmental adviser, his major work. It is often advisable, especially in certain subjects, for the student to choose his major work in the Freshman year. Many students, however, will find it better to postpone a definite decision until they have had opportunity to acquaint themselves with the offerings of the various departments and to talk over their general plans with advisers.

A Major Work Form must be completed by each student, approved by the Chairman of the department in which he is majoring, and filed with the Registrar prior to the student’s registration for the Junior class.

Bachelor of Science

GENERAL REGULATIONS

The general regulations governing the requirements for the degree of Bachelor of Science are the same as those for the degree of Bachelor of Arts.

Beginning with Freshmen of 1961-1962, a student majoring in one of the natural sciences shall receive the B.S. degree. A student majoring in mathematics or psychology, with 16 semester hours in the natural sciences, shall receive the B.S. degree. With less than 16 semester hours in the natural sciences, he shall receive the A.B. degree.

Final responsibility for meeting all degree requirements rests with the student.

Students desiring to qualify for the Bachelor of Science degree must select a major from one of the following departments: Biology, Pre-Medical Biology, Chemistry, Pre-Medical Chemistry, Mathematics, Physics, or Psychology.

Combined Courses and Teacher Certification

COMBINED ACADEMIC-PROFESSIONAL COURSES

A student may take a certain combination of courses that not only will lead to the Bachelor's degree and furnish the fundamentals of a liberal education, but also will provide special preparation for the pursuit of a profession. The privilege of completing a combined course is conditioned upon admission to a professional school at the close of the Junior year. A student thus admitted registers as a non-resident Senior in the College and as a first-year student in the professional school.

Academic-Engineering Combination

Under an agreement between Wofford and Columbia University in 1952, a combined plan has been devised. Under this plan, inspired by a great need for more liberally educated engineers, a student may follow a prescribed course at Wofford for three years, during which time he must complete the basic graduation requirements at Wofford and also complete certain basic courses in mathematics and the physical sciences which are required for entry into the School of Engineering at Columbia University. Upon completion of these requirements and recommendations by the Faculty of Wofford College, the student is automatically accepted in the School of Engineering at Columbia University. After successful completion of one year at the professional school, the student may be awarded the Bachelor's degree at Wofford; and after the second successful year at the professional school, the student is awarded the Bachelor of Science degree in Engineering by Columbia.

Refer to table in this section for specific course requirements. For the physical sequence, major requirements may be met by a combination of mathematics-physics. Consult pre-engineering adviser frequently.

A similar arrangement with Duke University was completed in 1956. Major requirements may be met by a combination of mathematics-physics. Refer to table in this section for specific courses. Consult pre-engineering adviser frequently.

Academic-Forestry Combination

Through an agreement with Duke University, a combined
three-two (five) year plan is available which leads to a Master of Forestry degree. Three years at Wofford during which the basic graduation requirements of Wofford must be met, followed by two years at Duke University School of Forestry, lead to a Bachelor's degree at Wofford at the end of the first successful year at Duke, and to the Master of Forestry degree at the end of the second successful year at Duke.

During the three years at Wofford, in addition to the basic Wofford graduation requirements, courses in biology, chemistry, and physics are required. Recommendation by the Faculty is required, as in the engineering plans. Major requirements at Wofford allow some choice. For specific course requirements, refer to table in this section. Consult pre-forestry adviser frequently.

**Academic-Law Combination**

A student who desires to transfer before graduation to a school of law and receive the degree of Bachelor of Arts while in residence there may do so by (1) completing, with an average grade of "C" or higher, work through the Junior year, sixty-four semester hours of this work being done in Wofford College, (2) finishing the required subjects and the work of the Junior year in his major and related work, (3) completing satisfactorily the work of the first year in an approved school of law.

No single discipline or program of study can be described as the best preparation for the study of law. There are various methods of approach to legal study, and students differ with respect to the undergraduate studies by which they profit most in preparing themselves for law school. Probably their best approach will be found through a broad, cultural course of study, concentrating in subjects distributed among closely related departments.

**Academic-Medical Combination**

Students pursuing this program will be required to complete through the work normally taken in the Junior Year a major in Biology or in Chemistry. Such majors will be designed as Pre-Med Biology or Pre-Med Chemistry majors, depending upon their choice of major field; and such students must complete at Wofford College a minimum of 64 semester hours, including the work of the Junior Year, or its equivalent. Upon satisfactory completion, with an average grade of "C" or higher, the basic graduation requirements of the College, and the major as outlined above, and upon satisfactory completion of the first year at the professional college, the degree of Bachelor of Science will be awarded.

**TEACHER EDUCATION PROGRAM**

The teacher education program at Wofford includes courses allowing for full preparation for secondary school work, and some courses applicable toward elementary school certification. The Chairman of the Department of Education will advise the student who is interested in public school work in this state with respect to South Carolina Department of Education requirements for certification. Students interested in preparing for work in another state should write to the State Department of Education in the capital city of that state for full certification requirements.

Careful planning and selection of courses is required in
order to satisfy both college requirements and those of teacher certification. The earlier in his college career the student registers his interest in teaching with the Department of Education, the more readily can this planning be affected. The College can within reason assure the student of satisfactory fulfillment of certification requirements if he consults not later than the second semester of the sophomore year, and follows the prescribed courses in the teacher education program. Teacher education candidates should select a major (except physical education) in one of the subject fields normally taught in the public schools. Additional time supplementing the regular four-year college course may be required by the program if students report later than the first semester of the Junior Year.

An outline of the Teacher Certification requirements in South Carolina, as administered at Wofford College, is as follows:

**Recommendation for Certification**

The College advises with the student as to the requirements of the teacher education and the certification programs, and helps with scheduling the appropriate sequence of courses. Responsibility for starting the program and pursuing it to completion, however, rests upon the student. Deficiencies in preparation at the time the candidate applies to the State Department for certification are not the responsibility of the College. Wofford College recommends for certification only those students who have completed satisfactorily all requirements of the program.
Departments and Courses of Instruction

Courses primarily for Freshmen are numbered from 1 to 49; those primarily for Sophomores from 51 to 99; those primarily for Juniors and Seniors, from 101-199. The amount of credit for each course is given in semester hours following the description of the course.

Generally, odd-numbered courses are offered in the first semester, and even-numbered courses are offered in the second semester. Double numbers (hyphenated courses) indicate that the course is a year-course and must be continued throughout the year if credit is received. These hyphenated courses are marked with a “†.” In extraordinary circumstances, a student must secure written permission from the instructor in order to receive credit for either semester of a year-course.

**BIOLOGY**

Mr. Leonard, **Chairman**

Mr. Dobbs Mr. McGavock Mr. Patton

A major in Biology consists of thirty-two semester hours beyond the General Biology sequence. The courses required for the major are: 51, 52, 53, 101, 102, 201 or 203, 202, 204, and 205. The courses with odd numbers will be offered in the first semester and those with even numbers offered the second semester. The courses numbered 50 are to be taken during the sophomore year, 100 and 200 may be taken during the junior or senior year. Every major in Biology should plan to elect the following courses: Chemistry 1-2, during the freshman year; Physics 21-22, during the sophomore year; and Chemistry 51-52 during the junior year. In addition to this, certain graduate programs will require that students select other courses before being accepted for admission. Students should consult the chairman of the department to determine what these may be.

In addition to the requirements listed above, every major will be given a comprehensive examination, covering the fun-
fundamental facts and principles of biology, during the second semester of his senior year. He must pass this to be eligible for a degree with a major in biology.

A major in Pre-medical Biology must include all of the biology courses through the work of the junior year. Pre-medical biology majors should consult the department chairman for advice on the selection of electives in the other sciences.

1. General Biology
First course of a sequence in the survey of plant and animal life. The fundamental facts and principles of biology related principally to plants are studied. Three hours a week lecture and one laboratory period a week. Four semester hours.

2. General Biology
Second course of a sequence in the survey of plant and animal life. The fundamental facts and principles of biology related principally to animals are studied. Three hours a week lecture and one laboratory period a week. (Note: General Biology 2 may be taken before General Biology 1.) Four semester hours.

3-4. General Biology†
A sequence in general biology designed principally for those students who plan to major in biology. Principles of biology are stressed, with major emphasis given to the comparison of processes in plants and animals. Three hours a week lecture and one laboratory period a week. Eight semester hours.

51. Genetics
A study of the principles of heredity with special emphasis on biochemical genetics. Two hours a week lecture and one laboratory period a week. Three semester hours. Mr. McGavock

52. Cell Physiology
A study of the chemistry and physics of the cell, with special emphasis on the functions of basic cell structures. Three hours a week lecture and one laboratory period a week. Four semester hours. Mr. Leonard

53. Biological Instrumentation
This course will introduce the student to the theory and use of some of the instruments used in biological study and research. One laboratory period a week. One semester hour. Staff

55. Human Biology
A course in human anatomy and physiology designed to meet the needs of biology majors and non-majors. The laboratory work includes the dissection of a mammal and execution of physiological experiments. Three hours a week lecture and one laboratory period a week. Four semester hours. Mr. Dobbs

57. Microtechnique
A course devoted to the study of techniques employed in the preparation of biological materials for microscopic study. The student will study the materials he has prepared. One hour a week lecture and two laboratory periods a week. Three semester hours. Mr. McGavock

101. Vertebrate Embryology
This course is intended to familiarize the student with the nature of the basic developmental processes. Some attention will be given to comparative and experimental embryology. Three hours a week lecture and one laboratory period a week. Four semester hours. Mr. Patton

102. Comparative Vertebrate Anatomy
Detailed attention is given to the structure of extinct and extant vertebrates so that the student may become better acquainted with the phylogeny of organ systems. Three hours a week lecture and one laboratory period a week. Four semester hours. Mr. Dobbs

104. Vertebrate Zoology
A study of the functions of the systems of selected vertebrates and invertebrates. Three hours a week lecture and one laboratory period a week. Four semester hours. Mr. Dobbs

201. Animal Physiology
A study of the functions of the systems of selected vertebrates and invertebrates. Three hours a week lecture and one laboratory period a week. Four semester hours. Mr. Dobbs

202. Microbiology
A study of microscopic forms of the plant kingdom. Emphasis is placed on the physiology, cultural techniques, and diagnostic tests of bacteria. Three hours a week lecture and one laboratory period a week. Four semester hours. Mr. Patton

203. Plant Physiology
A study of the functions of plants. Emphasis will be placed on laboratory techniques. Three hours a week lecture and one laboratory period a week. Four semester hours. Mr. Patton

204. The Plant World
A study of the vascular and non-vascular plants. The laboratory will be devoted to the study of local flora. Three hours a week lecture and one laboratory period a week. Four semester hours. Mr. Patton

205. Invertebrate Zoology
A study of the taxonomy, morphology, and physiology of invertebrate animals. Three hours a week lecture and one laboratory period a week. Four semester hours. Mr. Dobbs

206. History of Biology
A study of the development of the biological sciences from the medicine of primitive man to the present. The course is designed to (1) acquaint the student with the historical events and personalities involved in the evolution of modern biological concepts and (2) make him aware of how social, economic, and political conditions and advancements in science can affect one another. Prerequisites: General Biology and History of Western Civilization. Three hours a week lecture. Three semester hours. Mr. Dobbs

208. Plant Ecology
An analysis of plant distribution, the physical factors which control distribution, and the methods of evaluating plant communities. Three hours a week lecture and one laboratory period a week. Four semester hours. Mr. Patton

210. Research
This course is designed to permit a student to learn the techniques of original research. The student will devote himself to literature search, experimental work in the laboratory, and presentation of the results in the form of a paper. Two semester hours. Staff
CHEMISTRY

Mr. Loftin, Chairman
Mr. Cavin Mr. Patterson Mr. Stephens

Major Prerequisite: Chemistry 21-22 or 1-22

A major in chemistry consists of 32 semester hours and must include Chemistry 51-52, 151-152, 162, 201, 212, 261 and 262. These requirements, amplified in the course listings below, are designed to meet the standards for undergraduate training in chemistry as recommended by the American Chemical Society and required by this department, for students planning graduate work in chemistry or for those planning to enter the industry, directly, as professional chemists.

A four year major in chemistry for pre-medical or pre-dental students consists of Chemistry 51-52, 151-152, 162, 131, with either 201 or 212, and 261 and 262.

A chemistry major in the Academic-Medical combination (three year program) consists of Chemistry 51-52, 151-152, 162 and 131.

1-2. College Chemistry

The fundamental ideas of chemical structure; atomic theory in relation to the elements; laws of chemical combination; a study of the elements and their compounds, including a very brief introduction to organic chemistry. Chemistry 1-22 (22 substituted for 2) is required of all chemistry majors. Chemistry 1 is prerequisite to chemistry 2 or 22. Three lectures and one laboratory period each week. Eight semester hours. Mr. Patterson Mr. Cavin Mr. Loftin and Mr. Stephens

21. General Chemistry

Designed for freshmen who have had superior preparation in high school chemistry and who plan to take more chemistry. Essentially a short, rapid treatment of general college chemistry followed by consideration in depth of atomic structure as related to chemical and physical properties, and with an introduction to chemical equilibrium from the kinetic approach. Three hours a week lecture and two laboratory periods a week. Not open to students who have completed Chemistry 1 or 2. Five semester hours. Staff

22. Analytical Chemistry, Inorganic

"Qualitative" and "Quantitative" Inorganic Analysis. The qualitative portion will stress chemical equilibrium through emphasis on chemical separations and identifications and will use semi-micro techniques in the laboratory. The quantitative portion will develop precision techniques from an essentially non-instrumental approach. Required of all chemistry majors. Prerequisite: Chemistry 1 or 21. Three hours lecture and two laboratory periods each week. Five semester hours. Mr. Loftin and Mr. Stephens

51-52. Organic Chemistry

A study of the compounds of carbon and related topics. Emphasis is given to both the practical and theoretical aspects of the field, with special attention to the modern concepts of organic reaction mechanisms. The laboratory work consists of the preparation and study of typical compounds, with an introduction to the methods of qualitative organic analysis. Required of all chemistry majors. Prerequisite: Chemistry 1-2 or 21-22. Three lectures and one laboratory period each week. Eight semester hours Mr. Cavin

111. Quantitative Analysis, Inorganic

A study of the theories and techniques of inorganic gravimetric and volumetric analysis as applied to the more common, simple substances from a classical and an instrumental approach, stressing precision and accuracy. Prerequisite: Qualitative Analysis, and required of all chemistry majors. Two lectures and two laboratory periods each week. Four semester hours Mr. Stephens

131. Biochemistry

A study of those aspects of chemistry that relate to plant and animal life, including the important biochemical processes of photosynthesis, digestion, metabolism, excretion and related topics. Three lectures and one laboratory period each week. Prerequisite: Chemistry 22 and 51-52. Four semester hours Mr. Cavin

151-152. Physical Chemistry

A study of the laws and theories of chemistry with emphasis upon the solution of problems. Required of all majors in chemistry. Prerequisites: Chemistry 22 and 51-52, Physics 21-22, and mathematics through differential and integral calculus. Three lectures and one laboratory period each week. Eight semester hours Mr. Loftin

161. Inorganic Chemistry

A survey of the field of inorganic chemistry with emphasis upon the periodic arrangements of the elements. Special attention is given to the development of the modern theories of inorganic chemistry and the relationships between chemical behavior and atomic structure. Required of all chemistry majors. Prerequisite: Chemistry 151, corequisite Chemistry 152. Three lectures and one laboratory period each week. Four semester hours Mr. Stephens

201. Qualitative Organic Analysis

Theory and laboratory analysis or identification of organic compounds and mixtures, with a view toward crystallization and extension of the knowledge gained in Chemistry 51-52. Required for chemistry majors. Prerequisites: Chemistry 151, 152, and at least one year of German. Two lectures and two laboratory periods each week. Four semester hours Mr. Cavin

212. Instrumental Analysis

Theory and techniques of analysis of the more complex natural and industrial substances, involving colorimetric, electrometric, radioisotope and other physical-chemical instrumental methods. Required for chemistry majors. Prerequisite: Chemistry 151, 152, and at least one year of German. Two lectures and two laboratory periods each week. Four semester hours Mr. Loftin

261. Research

Guided original research of a simple nature in the field of the student's interest. Introduction to basic research principles and methods. Literature search and laboratory work leading to solution of the problem and preparation of a written report. Prerequisite: Chemistry 151-152. Frequent conferences. Two semester hours Staff

262. Research

An extension of Chemistry 261. An investigation of another problem or a justified extension of the one involved in 261. Two semester hours Staff
ECONOMICS AND BUSINESS ADMINISTRATION

Mr. Wright, Chairman

Mr. Arthur Marsh Mr. Stephenson Mr. Willis

Students wishing to major in this department may concentrate either in Economics or in Business Administration. Economics 51 and Economics 52 are prerequisites for both majors and should be taken during the Sophomore year. A major in either field consists of twenty-one semester hours beyond Economics 51 and 52. Those majoring in Economics must include Economics 101 and 103. Those majoring in Business Administration must include Business Administration 53 and 54 and Economics 101. Students interested in a concentration in Accounting should also take B.A. 53 and B.A. 54 during the Sophomore year. The actual courses that a student must take are to be determined by the student in conference with the Chairman of the Department.

ECONOMICS

51. Principles of Economics I
This general introductory course is designed to give the students an understanding of our economy. Topics covered include the basic functions of an economy, the economic aspects of business and government organization, the role of money, credit, banking and other financial institutions in our country, national income analysis, business cycles, and policies of stabilization. Three semester hours Staff

52. Principles of Economics II
This is essentially a continuation of Economics 51. The topics covered include price theory, public policies toward business and agriculture, distribution of income, social insurance, theory of distribution, problems of international economics and growth, as well as a comparative approach to different systems. Prerequisite: Economics 51. Three semester hours Staff

101. Money and Banking
A study of the relationship between money and the volume of economic activity, commercial and central banking, credit control under the Federal Reserve System, objectives of monetary policy and International Relations. Three semester hours Staff

103. Intermediate Economic Theory
An intermediate course in economic analysis in which the theoretical aspects of economics are more fully developed. Students are led to see the relationship between theoretical tools and analysis of economic problems. Prerequisite: Economics 51-52. Three semester hours Mr. Wright

104. Seminar in Macro-Economics
A seminar course in advanced Economic Analysis covering material on Macro-Economic Theory, Economic Research and Problems of American Economic Growth and Development. Three semester hours Staff

108. Economic History of the United States
See History 108. Three semester hours

112. Labor Economics
A survey of the principles and problems in labor-management relationships, including a study of collective bargaining as determined by court decisions and Federal statutes. This is a general study of the nature and economics of the labor groups and will bring in current attitudes and trends in labor relations. Three semester hours Mr. Wright

126. International Trade
The importance of international trade to the United States, economic bases of international trade, the balance of payments, foreign exchange credits and collections, combinations in world trade and current proposals for world stability. Three semester hours Mr. Wright

134. Public Finance
The requirement of a sound tax system, the general property taxes, corporation taxes, income, estate and inheritance taxes, incidence of debt, and fiscal policy. Three semester hours Mr. Wright

154. Comparative Economic Systems
This course is an introductory survey of the leading economic systems of capitalism, socialism, communism, and fascism. Topics include the criteria for evaluating economic systems; an introduction to the theories of Karl Marx; and a discussion of economic systems with respect to their theoretical assumptions, social premises, and practical operations. Three semester hours Staff

144. The Development of Economic Thought
A systematic examination of the development of economic analysis from the works of Adam Smith through the modern writers will be attempted. Among others, the theories of Marx, the Austrians, the Neo-classical economists, as well as Keynes and the Marginalists will be considered. Three semester hours Mr. Wright

BUSINESS ADMINISTRATION

53. Principles of Accounting I
An introduction to fundamental principles and practices of accounting. Problems supplement the study of such topics as the theory of debit and credit, the organization of accounts, and the
accounting concepts applicable to the various forms of business organizations. Three semester hours. Mr. Willis

54. Principles of Accounting II
A continuation of Business Administration 53 with emphasis placed on the application of accounting principles to certain specialized problems encountered in the usual conduct of business affairs, such as asset valuation, inventory accounting, and manufacturing cost accounting. In addition, accounting as a tool of managerial control will be stressed. Prerequisite: Business Administration 53. Three semester hours. Mr. Willis

122. Intermediate Accounting II
A continuation of Business Administration 121. Topics studied are accounting for fixed assets, owners' equity and long-term liabilities, analysis of financial statement of sources and uses of funds. Prerequisites: Business Administration 121. Three semester hours. Mr. Willis

124. Business Law I
A study of basic legal principles applying to the conduct of business operations. Topics covered include contracts, agency, and employment, and negotiable instruments. Three semester hours. Staff

125. Business Law II
A continuation of Business Administration 124. Topics covered include partnerships, corporations, bailments, sales of goods, transfer of title, and leases. Three semester hours. Staff

135. Cost Accounting
A study of the basic principles of accounting for the cost of manufactured products. Cost bookkeeping procedures for the accumulation of material, labor, and overhead costs are studied for both job-order and process cost systems. Overhead costing procedures are examined in the light of effects on net income and inventory valuation. Prerequisite: Business Administration 54. Three semester hours. Mr. Willis

136. Cost Control and Analysis
The fundamental techniques of cost accounting are more fully developed and their scope of applicability broadened. Standard cost system is comprehensively treated with emphasis on budgetary cost control and analysis. Prerequisite: Business Administration 135. Three semester hours. Mr. Willis

139. Business Administration Seminar
A seminar course in advanced Business Administration covering material on Business and Market Research, Advanced Managerial Controls and Policy, and Advanced Finance. Permission of the Instructor is required. Three semester hours. Staff

141. Elementary Statistics (Also see Psychology 141)
An elementary course in the basic concepts and practices in statistics. Should be taken by all students planning to enter graduate school. Four semester hours. Staff

EDUCATION Mr. Prince, Chairman

A major in Education will not be offered to those students entering for the first time after September 1, 1961. Courses in the department are suitable as background for professional work in churches, community recreation and education, social work, and college teaching.

Students who wish to prepare for public school teaching should consult with their advisers and the education department before registration in the second semester of the sophomore year, in order to complete prerequisite courses before the junior year, in which the teacher education program begins. Full preparation may be possible, but cannot be guaranteed when the student seeks advice after registering for the second semester of the sophomore year. For a full statement concerning the teacher education program, see pages 43-45.

54. Introduction to Education
Designed to acquaint the general student with some of the principal aspects of the school in American society, its history, aims, organization, and practices. Elective for any student. Prerequisite to all other courses in Education. Three semester hours. Mr. Prince

104. Adolescent Psychology
Developmental psychology as applicable to young people from twelve to twenty. Problems that face young people approaching maturity are considered in detail. This course is required for certification in South Carolina. Three semester hours. Mr. Prince

105. Principles and Methods of Education
The study of educational processes and procedures, with emphasis upon the psychological principles underlying the organization of instructional material and media. Three semester hours. Mr. Prince

109-110. Student Teaching†
This required course in the teacher program affords observation and teaching under supervision in one of the public schools in the area of the college. Ninety clock hours of such experience in the school is a minimum requirement, this to be accomplished over a period of approximately six weeks, with
one full week of actual teaching. Classes at the college are met three hours weekly for the study of the special methods in the teaching field and for conferences and discussions of the practice work. Heavy student responsibility in planning and conducting the course is an additional means of encouraging fuller professional competence. To be taken in the senior year. Application to enroll in this course must be made before registration in the senior year. Prerequisites: Education 54 and Education 105. Co-requisites: Psychology 104 and Psychology 132. Six semester hours.

122. Educational Measurement
A study of the theories basic to standardized tests, their function, construction, and application in the school process. Practice in writing of tests for the various academic subjects. Elementary statistical concepts. Three semester hours. Mr. Prince

126. History and Philosophy of American Education
The historical development of education theories and organization of schools in America, with emphasis upon the relationships between education and the supporting society and culture. Required of teacher education candidates. Three semester hours. Mr. Prince

132. Educational Psychology
A comprehensive course dealing primarily with theory and application in human development and in learning, as basic to the educational enterprise. Three semester hours. Required of teacher education candidates. Mr. Prince

ENGLISH LANGUAGES AND LITERATURE
Mr. Chewning, Chairman
Mr. Arzt  Mr. Coates  Mr. Covington  Mr. Green
Mr. Miller  Mr. Secondi

A major in English consists of twenty-one semester hours in English courses on the junior-senior level and must include English 103-104. Every student majoring in English is required to write a special documented paper as part of one of his advanced courses in English. This paper will be graded by the instructor of the course in which it is written and must be submitted to the chairman of the department for final approval of its documentation. A copy of the completed paper must be placed on file in the records of the department.

1-2. English Composition
A course designed to improve the student's ability to express himself accurately and effectively in writing. Composition and revision of papers of various types. Critical reading of a variety of literary works. English 1 is prerequisite to English 2. Six semester hours.

51-52. English Literature
A study of representative masterpieces of English literature from medieval times to the twentieth century, with emphasis upon critical understanding of these works and upon the influences that produced them. Six semester hours. Staff

101. Public Speaking
An introduction to public speaking. Students will be expected to deliver various types of speeches extemporaneously. Emphasis will also be placed on outlining and on reading of famous speeches. Does not count toward requirements for a major in English. Three semester hours. Mr. Coates and Mr. Green

103. American Literature to the Civil War
A survey of American Literature, from its beginning to the Civil War, with emphasis upon the major writers. Required of all English majors. Three semester hours. Mr. Coates

104. American Literature Since the Civil War
Continuation of 103. Required of all English majors. Three semester hours. Mr. Coates

107. Shakespeare
Study of the principal plays of the first half of Shakespeare's career, including the romantic comedies and histories. Lectures and reports on the Elizabethan background. Three semester hours. Mr. Chewning

108. Shakespeare
Study of the principal plays of the latter half of Shakespeare's career, including the major tragedies and romances. Three semester hours. Mr. Chewning

110. Contemporary Drama
Reading of contemporary dramas from Ibsen to the present. Three semester hours. Mr. Miller

112. Contemporary Literature
Major writers of the twentieth century in America and England. Three semester hours. (Not offered in 1964-65) Mr. Miller

113. Prose and Poetry of the Elizabethan Age
A study of the literature of the Elizabethan period exclusive of drammatics. Selections from the poets and from the prose writers will be read; chief among these writers will be Wyatt, Surrey, Sidney, Spenser, Greene, Dekker, Nashe, Camplin, and Bacon. Three semester hours. (Not offered in 1964-65) Mr. Chewning

114. Milton
Reading of all of Milton’s poetry and selections from his prose. Three semester hours.

117. Seventeenth Century English Literature to the Time of the Restoration
Important works will be chosen from the drama, lyric, essay, and criticism. Chief among the authors studied will be Jonson, Webster, Bacon, Donne, George Herbert, Vaughan, and Marvell. Three semester hours. (Not offered in 1964-65) Mr. Secondi

120. English Literature of the Restoration and Eighteenth Century, 1660-1800
A study of important works from the literature of this period. Works to be studied will be selected from satire (poetry and prose), essay, lyric, and biography. The chief authors studied will be Dryden, Swift, Pope, Fielding, Gray, Johnson, and Boswell. Three semester hours. Mr. Secondi

123. The Romantic Period
Consideration of the new creative spirit which shows itself in the poetry of Wordsworth, Coleridge, Shelley, Byron, and Keats, as well as in the minor
126. The Victorian Period
A study of the noteworthy changes in industrial, political, intellectual, and spiritual life of the English people as reflected in the poetry and prose of the Victorian era. Three semester hours. (Not offered in 1964-65)  
Mr. Green and Mr. Covington

127. The Early English Novel
Reading of representative British novels of the eighteenth century and Romantic Period, from Defoe to Scott. Three semester hours. (Not offered in 1964-65)  
Mr. Chewning

128. The Later English Novel
Major novels of the Victorian and modern periods. Three semester hours. (Not offered in 1963-64)  
Mr. Green

130. The Modern American Novel
The novel from James to the present. Three semester hours. (Not offered in 1964-65)  
Mr. Miller

131. Chaucer
Study of Chaucer's major poetry, with some attention to the medieval background and to Chaucerian criticism. Three semester hours. (Not offered in 1964-65)  
Mr. Artzt

132. Russian Literature in Translation
A study of the major writers of the Golden Age of Russian Literature, including Pushkin, Gogol, Tolstoy, Dostoevsky, Turgenev, and Chekov. Special attention will be given to a study of the influence of western thought upon these writers and of their influence upon contemporary western literature. Three semester hours. (Not offered in 1964-65)  
Mr. Coates

133. Comparative Literature
A comparative study of selected works from the great literatures of the world. The course is intended to allow the student to gain some sense of the breadth, nature, and importance of his cultural heritage, so far as he can do this through a study of a few literary works in translation. The first semester is not prerequisite to the second. Three semester hours.  
Mr. Miller

134. Comparative Literature
Continuation of 133. Three semester hours.  
Mr. Miller

135. Principles of Literary Criticism
A study of the principles by which one distinguishes the best from the inferior in literature. Some attention will be given to the opinions of major critics, but the main part of the course will be practical and inductive, and concerned with the discussion of selected works. Three semester hours.  
Mr. Miller

139. Great Narrative Poetry
A rapid survey of narrative poetry from Homer to the present with a special emphasis on epic form and development. Three semester hours.  
Mr. Miller

141. Creative Writing
For juniors and seniors interested in writing poetry, essays, and short stories. Three semester hours.  
Mr. Coates

142. Introduction to Journalism
An introduction to news writing. Emphasis on the actual gathering and writing of news. Three semester hours. (Not offered in 1964-65)  
Mr. Coates

145. History of the English Language
A study of the growth of English as a living language from its beginning to the present with the purpose of clarifying and explaining modern usage. Three semester hours.  
Mr. Artzt
FOREIGN LANGUAGES

Mr. Adams, Chairman
Mr. Bourne  Mr. Fernandez  Mr. Forbes
Mrs. Gagarine  Mr. Miyares  Mr. Salmon

The first object of the courses in Foreign Languages is to teach the student to read the languages readily, with a view to literary appreciation and as an aid in the pursuit of other studies. Prerequisite: French 1-2 for French; German 1-2 for German; Greek 1-2 for Greek; Latin 1-2 for Latin; Russian 1-2 for Russian; Spanish 1-2 for Spanish.

A major consists of at least eighteen semester hours in the department. Twelve semester hours must be taken in French, German, Greek, Latin, Russian, or Spanish. Six additional hours must be taken in any one of these subjects. The remainder of the student's major program will be decided by the student in conference with the Chairman of the Department.

FRENCH

1-2. Elementary French†
Elementary French grammar; pronunciation; dictation; conversation; memorizing of common idioms and everyday expressions; reading of easy stories. Six semester hours. Mrs. Gagarine and Mr. Bourne

51-52. Intermediate French†
Reading of selections from standard prose writers. Advanced grammar; composition and conversation. Prerequisite: French 1-2, or two years of high school French. Six semester hours. Mr. Bourne

101-102. French Prose in the Nineteenth Century†
Reading of selections from the Romantic and Naturalistic writers' History of French literature conducted in French. Prerequisite: French 51-52. Six semester hours. Mr. Bourne

161-162. Composition and Conversation†
Conducted in French. Conversation and composition based on readings from modern writers. Prerequisite: French 51-52. Six semester hours. Mr. Bourne

GERMAN

1-2. Elementary German†
Elementary German grammar; pronunciation; dictation; conversation; memorizing of common idioms and everyday expressions. Reading of easy stories. Six semester hours. Mr. Bourne

51-52. Intermediate German†
Reading of selections from standard prose writers. German lyrics and ballads. Advanced grammar; composition and conversation. Prerequisite: German 1-2, or two years of high school German. Six semester hours. Mr. Bourne

101, 102. Conversation and Composition
Intended to drill the student in the application of grammar and the idiomatic usage of German. Six semester hours. Mr. Forbes

121, 122. Scientific German Readings
Reading of scientific texts of standard difficulty intended for science majors who plan to enter graduate school. Six semester hours. (Not offered in 1964-65) Mr. Forbes

GREEK

1-2. Beginner's Greek†
A thorough study of some book for beginners in connection with reading, in the original, myths, fables, and stories from Greek life. Six semester hours. Mr. Secondi

51-52. Anabasis and New Testament†
During the first semester two or three books of the Anabasis will be read. The second semester will be devoted to the study of New Testament Greek. Sight reading will be practiced throughout the entire year. Six semester hours. Mr. Secondi

LATIN

1-2. Latin for Beginners†
Grammar, composition, and pronunciation. Reading of Latin and Greek myths. Six semester hours. Mr. Secondi

51-52. Readings in Latin Literature†
The first term will be devoted to prose, with emphasis on the orations of Cicero; the second, to poetry, with emphasis on the works of Vergil and Ovid. Sight reading will be stressed. Prerequisite: Latin 1-2, or two years of high school Latin. Six semester hours. Mr. Secondi

RUSSIAN

1-2. Elementary Russian†
Elementary Russian grammar, pronunciation, vocabulary, and use of common idioms. Extensive practice in everyday conversation. Reading and writing. Six semester hours. Mrs. Gagarine

51-52. Intermediate Russian†
Advanced Russian grammar and composition. Readings from standard Russian writers, newspapers, and periodicals. Conversation. Six semester hours. Mr. Adams and Mr. Fernandez

SPANISH

1-2. Elementary Spanish†
Elementary Spanish grammar; pronunciation; dictation; conversation; letter-writing; memorizing of common idioms and everyday expressions. Reading of easy stories. Six semester hours. Staff

51-52. Intermediate Spanish†
Reading of selections from standard prose writers. Advanced grammar; composition; commercial correspondence; conversation. Prerequisite: Spanish 1-2, or two years of high school Spanish. Six semester hours. Staff

103, 104. Spanish Conversation and Composition
Conversation and composition based on readings from modern prose writers. Prerequisite: Spanish 51-52, or its equivalent. Conducted in Spanish. (Not offered in 1964-65) Mr. Salmon and Mr. Fernandez

153, 154. General View of Spanish-American Literature
Rapid reading of representative works from many countries; lectures; history of literature; reports. Prerequisite: Spanish 51-52. Conducted in Spanish. Six semester hours. Mr. Salmon

161, 162. Spanish Prose of the late Nineteenth and Early Twentieth Centuries
Rapid reading of representative works by outstanding writers, with special emphasis on the novel and short story. Lectures; history of literature; outside reading and reports. Prerequisite: Spanish 51-52. Conducted in Spanish. (Not offered in 1964-65) Six semester hours. Mrs. Gagarine
51. History of the United States, 1763-1865
Political, social, and economic history of the American people from the late colonial period through the Civil War. Required of all students majoring in history. Three semester hours. Mr. Jones and Mr. McCowan

52. History of the United States Since the Civil War
Continuation of History 51. Required of students majoring in history. Three semester hours. Mr. Jones and Mr. McCowan

105. Constitutional History of the United States
A historical study of the framing of the Constitution of the United States and the major constitutional doctrines and judicial controversies over the meaning of constitutional provisions. Three semester hours.
Staff, Department of Government

108. Economic History of the United States
American economic life since its colonial beginnings. This course may also be taken for credit as Economics 108. Three semester hours. Mr. Cauthen

113. History of the Old South
A cultural, economic, and social history of the South before the Civil War, with limited attention given to political conditions and developments. Three semester hours. Mr. Jones

114. History of the New South
The South since the Civil War; a continuation of History 113. Three semester hours. Mr. Jones

123. History of South Carolina
A survey of the state's history during both colonial and the early national periods. Three semester hours. Mr. Cauthen

124. History of South Carolina
Continuation of History 123 from about 1800 to present day. Three semester hours. Mr. Cauthen

135. Colonial America
A survey of the establishment and development of the English colonies in America with an emphasis on the operation of the British imperial system and the development of governmental institutions within the colonies. Considerable attention will also be given to some representative thinkers, the climate of opinion, and the social structure of seventeenth and eighteenth century America. Three semester hours. Mr. McCowan

136. Diplomatic History of the United States
A survey of American relations with foreign powers from the Revolution to the present. Three semester hours. Mr. Cauthen

141. England to 1688
The history of England's emergence as a nation: its people, government, constitution, and religion, through the religious problems and constitutional settlement of the seventeenth century. Three semester hours. Mr. Snapp

142. England Since 1688
The history of modern Britain since the Glorious Revolution. Three semester hours. Mr. Snapp

143. The Ancient World
A study of the emergence and development of the early river valley civilization, of the Greek city states, the Hellenistic Age, and the Roman world. Three semester hours. Mr. Bayard

144. History of the Middle Ages
A survey of medieval civilization with emphasis on cultural and institutional developments. Three semester hours. Mr. Snapp

145. Renaissance and Reformation (1300-1600)
A study of developments in Western Europe from about 1500 to about 1600, tracing the rise of commerce, the culture of the Renaissance, the Protestant and Catholic Reformations, and the age of discovery. Three semester hours. Mr. Snapp

146. Europe in the 17th and 18th Centuries
A consideration of the social, economic, political and intellectual development of Europe, including Great Britain, from 1660 to 1789. Special emphasis will be placed on the emergence of the nation state, the rise of modern science, and the intellectual milieu of the Enlightenment. Three semester hours. Mr. Snapp

147. Europe, 1789-1870
A survey of the growth of nationalism and democracy in modern Europe, with attention also being given to diplomatic relations, economic growth, social conditions, and intellectual climate. Three semester hours. Mr. Bayard

148. Europe, 1870-1918
A survey of Europe on the threshold of the twentieth century, with attention given to social conditions, the new states of Italy and Germany, the rise of imperialism, world politics and the struggle for power in Europe through World War I. Three semester hours. Mr. Bayard

151. Europe and the World, 1918-1930
This course and its sequel, History 152, are designed to furnish historical background for better understanding of complex contemporary world problems. Primary emphasis is on the history of Europe, but much attention is given to other areas, and the emphasis is on world-wide international relationships. The two companion courses divide chronologically about 1930. Three semester hours. Mr. Cauthen

152. The World Since 1930: New Age of Conflict
Essentially a continuation of History 151 described above. Three semester hours. Mr. Jones

155. History of Latin America
A survey of the colonial and national periods of Latin American history, designed to give the non-specialist an introduction to Hispanic American background and culture. Three semester hours. Mr. Jones

156. Contemporary Affairs
A course in current history in which the student is encouraged to analyze carefully and objectively contemporary developments. Class discussion is based on extensive reading in numerous periodicals. Three semester hours. Mr. Bayard and Mr. Jones

159. Seminar in Historiography
A study of some of the major trends, assumptions and problems in the writing of European and American history as related to the changing intellectual milieu from the Enlightenment to the present. Three semester hours. Mr. McCowan

160. Seminar in American History
This course is designed to afford the student an opportunity for independent study and training in historical method. An essential requirement is a carefully prepared research paper based on extensive investigation of an approved subject. Required of all students majoring in history, in either the junior or senior year. Three semester hours. Mr. Cauthen
MATHEMATICS AND ASTRONOMY Mr. Hill, Chairman

Mr. Bell Mr. Pegram Mr. Phillips Mr. Cameron

For the major in mathematics, the following courses are required: Math 51-52, Math 81-82, Math 115, 116, Math 121-122.

In addition, for recommendation to graduate school, at least one of the following courses should be taken: Math 131-132, Math 141-142.

The prospective major is strongly urged to choose either German, French, or Russian as his degree language.

1. **Algebra**
   Quadratic equations. Elements of the general theory of equations. Inequalities. Three semester hours. Staff

2. **Plane Trigonometry**
   Primarily analytical trigonometry, Logarithms, Complex numbers through De Moivre's Theorem. Three semester hours. Staff

21-22. **Analytic Geometry and Calculus**
   This is an integrated course containing the Analytic Geometry—lines, conics, polar coordinates, and parametric equations—essential to the calculus. Thorough training in differentiation, integration, application to time rates, maxima and minima, curvature, area, volume and length. Prerequisite: 12 or high school equivalent. Six semester hours. Staff

51. **Intermediate Calculus with Analytic Geometry**
   Sound training in more advanced methods of integration with applications to volumes, centroids and moments of inertia. Infinite series and expansions. Selected topics in Solid Analytic. Partial differentiation and multiple integration techniques, Simple differential equations. Prerequisite: Mathematics 21-22 or high school equivalent. Required for majors. Three semester hours. Staff

52. **Ordinary Differential Equations**
   A study of ordinary differential equations, including the use of differential operators, integration in series, and the application to the solutions of problems in the sciences. Prerequisite: Mathematics 51. Required for majors. Three semester hours. Staff

81-82. **Elements of Modern Algebra and Analysis**
   Axiomatic development of the essentials of abstract algebra and modern analysis. Sets, relations, functions, some mathematical systems (including groups, rings, fields). A development of the real number system, limits of functions, continuity, differentiability, integrability. Required for majors. Six semester hours. Staff

115. **Linear Algebra and Vector Spaces**

116. **Elements of Topology**

121-122. **Advanced Calculus**
   Advanced work with partial derivatives and multiple integrals. Line and surface integrals. Special functions including Fourier Series, Laplace Transforms, and partial differential equations. Prerequisite: Mathematics 51-52. Required for majors. Six semester hours. Staff

131-132. **Modern Analysis**
   A completely rigorous development of a limited number of topics from real and complex variable theory. Alternates with Mathematics 141-142. Prerequisite: Mathematics 81-82. Six semester hours. Staff

**MILITARY SCIENCE**

Colonel Griffin, Chairman

Major Bonham
Sgt. McEwan
S/Sgt. Craft
Sgt. McEwan
Capt. Kicklighter
Capt. Slifer

Courses in Military Science are subdivided into several sub-courses, each being a complete subject within itself and forming the basis for more advanced training. Freshmen will normally have one hour of classroom work per week. Sophomores two hours per week, and Juniors and Seniors three hours per week. An additional two hours per week will be devoted to Leadership Laboratory (Practical work in leadership, drill and command).

1-2. **Military Science Course 1**
   Organization of the Army and ROTC, Individual Weapons and Marksmanship, U.S. Army and National Security, Leadership Laboratory, and one elective course chosen from the following general academic areas: Effective Communications, Science Comprehension, General Psychology, or Political Development and Political Institutions. Two semester hour. Staff

51-52. **Military Science Course 11**
   American Military History, Map and Aerial Photograph Reading, Introduction to Operations and Basic Tactics, and Leadership Laboratory. Four semester hours. Staff

141-142. **Modern Algebra**
   Further study of structure in abstract algebra. General theory of groups, rings, and fields. Alternates with Mathematics 131-132. Prerequisite: Mathematics 81-82. Six semester hours. Staff

**ASTRONOMY**

192. **Descriptive Astronomy**
   A general course designed to give a comprehensive knowledge of the principal facts, theories, and methods of the subject, with particular attention to the basic concepts held by astronomers concerning the structure of the universe. Use is made of the planetarium in familiarizing the student with the night sky and the elements of celestial geometry. Three semester hours. Staff

MUSIC AND ART DEPARTMENT
Mrs. Armitage

51. The Elements of Music
An introduction to the elements of music, both aural and visual. Emphasis is placed on the development of aural recognition and identification of musical patterns, and on the development of proficiency in recognizing and responding to the symbols of music notation. Opportunities for the application of the facts studied will be provided through class participation in musical experiences. Three semester hours.

Mr. Coker, Acting Chairman

101. Music Appreciation
An introduction to the art of perceptive listening. This general survey of music, from the middle ages through the present time, helps to give the student some understanding of the fundamental principals of music as a mode of abstract communication. Experience in guided listening gives opportunities for the creation of a sensitive awareness to the aesthetic values of musical experience, and a foundation for the formulation of informed critical estimates of listening experiences. Three semester hours.

Mr. Coker

102. Art Appreciation
A survey of art in the cultures of the world with emphasis on the appreciation of Western architecture, sculpture and painting, from the pyramids to modern times. Designed to give the student a background for personal enjoyment. Three semester hours.

Mrs. Armitage

103. Art History
A survey of Western art from the 15th to the 20th century, the period of the great art movements of the Renaissance and the Baroque. Three semester hours.

Mr. Coker

104. Art History
A survey of Western art from the 15th to the 20th century, the period of the great art movements of the Renaissance and the Baroque. Three semester hours.

Mr. Coker

105. Italian Renaissance Art
A history of the art of the Italian Renaissance from 1250 to 1600. A comprehensive survey of art movements in painting, sculpture and architecture of this period. Three semester hours.

Mrs. Armitage

106. Graeco-Roman Art
A survey of Greek and Roman art viewed against their historical and geographical backgrounds. The course will include the arts of Crete and Mycenaean; Archaic, Transitional, Classical and Graeco-Roman sculpture and architecture, as well as the important periods of classical revival in America, with particular emphasis on the South. Three semester hours.

Mrs. Armitage

107. Italian Renaissance Art
A survey of Western art from the 15th to the 20th century, the period of the great art movements of the Renaissance and the Baroque. Three semester hours.

Mr. Coker

108. Graeco-Roman Art
A survey of Greek and Roman art viewed against their historical and geographical backgrounds. The course will include the arts of Crete and Mycenaean; Archaic, Transitional, Classical and Graeco-Roman sculpture and architecture, as well as the important periods of classical revival in America, with particular emphasis on the South. Three semester hours.

Mrs. Armitage

109. Oriental Art
A survey of oriental art from 300 B.C. to 1666 A.D. The arts of each country will be studied against the religious, philosophical and cultural background of their periods. The interrelationship of the arts of the different areas will be carefully examined. Three semester hours.

Mrs. Armitage

PHYSICAL EDUCATION
Mr. Scheerer, Chairman

Mr. Brakefield, Mr. Stober

The purpose of this department is to promote health, growth, and development of the body. The various activities included in the program produce the highest muscular coordination and greatly improve the efficiency of the body and mind. Activities included in the program are: calisthenics; tumbling; gymnastics; volleyball; group games; intramural sports; individual and dual sports.

This department also serves the purpose of providing advanced courses in physical education whereby a student may be prepared to teach physical education and coach in high school. A student may fully qualify under the rules of the Department of Education of the State of South Carolina for full-time teaching of physical education in high school by taking the advanced courses below and completing 4—6 semester hours in physiology and anatomy and 6—8 semester hours in chemistry and/or physics.

1. 2. Basic Physical Education†
Course includes basic exercises, games of low organization and recreational activities. Two semester hours.

Mr. Stober

51. Basic Physical Education
Course is a continuation of Physical Education 1-2, with an addition of individual and dual sports. One semester hour.

Mr. Stober

52. Health Education
Course includes a study of personal and community health, safety and first aid. Visits and studies of the county and city health agencies will be conducted to acquaint the student with these agencies and their work. Three semester hours.

Mr. Scheerer

101. Methods and Materials in Health Education
A course in the theory of health education, including a survey of teaching materials and classroom methods. The course covers such topics as first aid, safety, communicable diseases, sanitation and healthful living. An opportunity will be offered each student to qualify for a Standard Certificate in First Aid by the American Red Cross. Three semester hours.

Mr. Stober

102. Group Recreation
Course includes a study of group games that are adaptable to the public schools. Special emphasis is placed on economy of equipment, games adaptable for indoors in limited space, games for the classroom, both quiet and active. Games
103. Organization and Administration of Health and Physical Education

This course covers the various phases of the work of administration in a high school department of health and physical education. A study is made of curriculum building and the use of facilities at the disposal of the director of physical education and intramurals. A survey is made of needed equipment for various types of schools. Three semester hours. Required for certification in Physical Education. Mr. Scheerer

105. Materials and Applied Techniques of Intramural Sports

A survey of high school coaching covering basketball and football. The class will make a thorough study of the science of the games and coaching methods. Three semester hours. Required for certification in Physical Education. Mr. Scheerer

106. Materials and Applied Techniques of Intramural Sports

A continuation of Physical Education 105, with baseball and track being studied. Three semester hours. Required for certification in Physical Education. Mr. Scheerer

107. Intramural Sports Program

A study of the high school intramural programs for the small, medium and large high schools. Students will be required to know the rules and modifications to meet the high school program, to organize and coach the various sports adaptable to the high school, and in addition pass proficiency tests in each of the intramural sports studied. Point systems, intramural councils, awards, coeducational sports, and scoring plans will be studied. Three semester hours. Required for full certification in Physical Education. Mr. Scheerer

108. Tests and Measurements in Health and Physical Education

A study of the tests adaptable to the high school program will be studied. Construction of tests and administration of tests will be studied, also statistical applications to tests will be covered. Three semester hours. Required for full certification in Physical Education. Mr. Scheerer

110. History and Philosophy of Health and Physical Education

The historical background of health and education movements in the world, and a survey of the underlying principles, aims, and objectives of a school health and physical education program. Three semester hours. Required for certification in Physical Education. Mr. Scheerer

111. Materials and Applied Techniques of Intramural Sports

A survey of high school coaching covering tennis. This class will make a thorough study of the science of the sport and coaching methods. Required for full certification. Students must furnish necessary tennis balls and racquet fees. Three semester hours. (This course is limited to physical education students.) Staff

112. Materials and Applied Techniques of Intramural Sports

A survey of high school coaching covering golf. The class will make a thorough study of the science of the sport and coaching methods. Required for full certification. Students must furnish clubs, balls and required green fees. Three semester hours. (This course is limited to physical education students.) Mr. Scheerer

108. Intramural Sports Program

A study of the high school intramural programs for the small, medium and large high schools. Students will be required to know the rules and modifications to meet the high school program, to organize and coach the various sports adaptable to the high school, and in addition to pass proficiency tests in each of the intramural sports studied. Point systems, intramural councils, awards, coeducational sports, and scoring plans will be studied. Three semester hours. Required for full certification in Physical Education. Mr. Scheerer

110. Tests and Measurements in Health and Physical Education

A study of the tests adaptable to the high school program will be studied. Construction of tests and administration of tests will be studied, also statistical applications to tests will be covered. Three semester hours. Required for full certification in Physical Education. Mr. Scheerer

113. Materials and Applied Techniques of Intramural Sports

A survey of high school coaching covering tennis. This class will make a thorough study of the science of the sport and coaching methods. Required for full certification. Students must furnish necessary tennis balls and racquet fees. Three semester hours. (This course is limited to physical education students.) Staff

114. Materials and Applied Techniques of Intramural Sports

A survey of high school coaching covering golf. The class will make a thorough study of the science of the sport and coaching methods. Required for full certification. Students must furnish clubs, balls and required green fees. Three semester hours. (This course is limited to physical education students.) Mr. Scheerer

111. Materials and Applied Techniques of Intramural Sports

A survey of high school coaching covering tennis. This class will make a thorough study of the science of the sport and coaching methods. Required for full certification. Students must furnish necessary tennis balls and racquet fees. Three semester hours. (This course is limited to physical education students.)Staff

112. Materials and Applied Techniques of Intramural Sports

A survey of high school coaching covering golf. The class will make a thorough study of the science of the sport and coaching methods. Required for full certification. Students must furnish clubs, balls and required green fees. Three semester hours. (This course is limited to physical education students.) Mr. Scheerer

114. Materials and Applied Techniques of Intramural Sports

A survey of high school coaching covering golf. The class will make a thorough study of the science of the sport and coaching methods. Required for full certification. Students must furnish clubs, balls and required green fees. Three semester hours. (This course is limited to physical education students.) Staff

PHYSICS

Mr. Olds, Acting Chairman

Mr. Blevins Mr. Parker

A major in physics consists of not less than 26 semester hours in the department, beyond General Physics. These must include Physics 61, Physics 131, and Physics 151. A physics major normally will begin in his freshman year with Physics 21-22 and Math 21-22. Preparation for graduate work in physics should include 8 hours of chemistry, Math 51, Math 52, and Math 121-122. Math 115 is also recommended. French, German, or Russian should be selected to meet the language requirement. Major prerequisite: Physics 21-22.

21-22. General Physics

A study of mechanics, heat, light, sound, electricity and magnetism, and modern physics. The student is expected to demonstrate knowledge of the factual material as well as the ability to apply this knowledge. Prerequisite Math 1-2 or Corequisite Math 21-22. Three lectures and one laboratory per week. Eight semester hours. Staff

52. Elementary Modern Physics

The development of the concepts of modern physics. Stress is placed upon the reasons for the necessity to depart from classical theories; modern theories are presented as a necessary consequence of experimental observations. A terminal course, not usually taken by majors, covering a portion of the material presented more fully in physics 131, 152. Prerequisite: Physics 21-22. Three lectures per week. Three semester hours. Staff

61. Intermediate Mechanics

An introduction to vector Newtonian analytical mechanics. A further development of the mechanics section of Physics 21-22. Prerequisite: Physics 21-22. Corequisite: Math 51. Three lectures per week. Three semester hours. Staff
151, 152. Modern Physics
A study is made of the development of the atomic view of nature with emphasis on the basic experimental evidence. Includes an investigation of atomic and molecular structure and of the properties of the gaseous and solid states based on the atomic or molecular concept. The fundamentals of special relativity and wave mechanics are presented. Nuclear structure, nuclear reactions, and elementary particles are studied. Physics 151 is prerequisite for Physics 152. Physics 131 is a corequisite of Physics 151. Three lectures and one laboratory per week. Each course is four semester hours. \textit{Staff}

161. Advanced Mechanics
A continued study in mechanics with emphasis on mathematical development, including the eigenvalue problem, the Lagrangian and the Hamiltonian formulation of classical mechanics. An introduction to some of the mathematical ideas necessary for a graduate study of quantum mechanics. Prerequisite: Physics 61, Math 122. Three lectures per week. Three semester hours. \textit{Staff}

171-172. Advanced Laboratory Study?
A set of experiments designed to acquaint the student with some of the techniques needed in graduate research and to introduce several of the areas of such research. Some of the classic experiments are included. The student is expected to participate in the design, introduction, and improvement of the experiments and of the apparatus. Prerequisite: Four semesters of laboratory physics. Four semester hours. \textit{Staff}

182. Mathematical Physics
A further development of the methods of mathematical physics including such topics as Fourier analysis, solution of special partial differential equations, the use of matrices and tensors, the operator concept, vector spaces formed by complete sets of orthogonal functions, etc. Open to math and physics majors. Prerequisite: Departmental approval. Three lectures per week. Three semester hours. \textit{Staff}

200. Special Topics in Physics
Individual study and seminar on a topic or topics approved by the department. Emphasis on use of the available literature to pursue an advanced topic in physics. Written and oral reports will be required and usually a presentation to another class, when the topic can be sufficiently related. Prerequisite: Departmental approval. Two semester hours. \textit{Staff}

203. Research
After one semester of research participation, the student may, with the approval of the department, register for a further semester of active participation in one of the research projects currently conducted by the faculty. Two semester hours credit. \textit{Staff}

PHILOSOPHY
Mr. O'Briant, \textit{Acting Chairman}
Mr. Colloms

The study of philosophy offers the opportunity to become acquainted with ideas which are central to western civilization, to deal with problems which are more general than those contained within any other one discipline, and to develop one's ability to think critically and thereby to live wisely and well. A major in Philosophy is composed of twenty-one semester hours of course work, and must include four of the following courses: 51; 111; 122 or 163; 151, 153. The course taken to satisfy the three hours of philosophy required of all students must not be included in the twenty-one hours required for a major.

51. Problems and Methods of Philosophy
The major areas of philosophy as a discipline with attention to the consequences for living of various philosophical viewpoints. Among the topics discussed are: methodology, theories of knowledge and reality, theories of value including ethics and aesthetics, philosophy of religion, and philosophy of history. Three semester hours. \textit{Staff}

111. Principles of Ethics
A course designed to acquaint the student with the historical background and theories of morality, the factors and conditions that influence human conduct, the nature of the moral life, and the significance of ethical principles for contemporary life. Three semester hours. \textit{Mr. Colloms}

116. Social Ethics
A consideration of practical problems incident to life in our modern world, and the application of the basic ethical insights to their solution. Three semester hours. \textit{Mr. Colloms}

122. Principles of Logic
A general survey of the major topics in the philosophy of language, and the principles of inductive and deductive logic. Designed for the general student and for those who expect to do advanced work in law, medicine, science, theology and philosophy. Three semester hours. \textit{Mr. Colloms}

131. American Philosophy
The development of philosophic thought in America from the Colonial Period to the present. Emphasis will be placed upon selections from the writings of Charles Sanders Peirce, Josiah Royce, George Santayana, William James, Alfred North Whitehead and John Dewey. Three semester hours. \textit{Mr. Colloms}

135. Philosophy of Religion I
The nature of religion, God, and His relation to the universe, the nature and destiny of man, religious knowledge, the problem of evil, religious values, and the significance of religious practices. Three semester hours. \textit{Mr. Colloms}

136. Philosophy of Religion II
The consideration of the foundations, variety, growth, meaning and validity of religious experience. RELIGION
Mr. Bullard, Acting Chairman
Mr. Nesbitt Mr. W. M. Wilson

The purpose of this department is to provide a core of academic studies in the field of Religion as the basis for a better understanding of the Christian faith and of the nature and proper use of its credentials, the Bible.

The courses are designed to offer a focus of religious meanings for the guidance of life and the integration of knowledge. In this way the College hopes to satisfy more fully its obligation to the Church in producing an enlightened laity. A major is provided in these courses to prepare students planning to enter the various branches of the Christian Ministry for graduate study in professional schools of theology. Historical methods and philosophical principles of procedure are essential in all offerings of the department as befitting the academic search for truth.

The requirement for graduation is six semester hours, which should be satisfied by the end of the sophomore year by completing any two courses numbered below 100. The requirement for a major in Religion is twenty-two hours in courses numbered above 100, including Religion 200.

9. In all laboratory courses a student is required to pay the cost of replacement of apparatus and materials broken or damaged by him. This amount is to be paid to the Controller prior to the examination.

FINANCIAL ASSISTANCE

Through the generous gifts of endowed scholarship funds by friends of the College several scholarships have been established for deserving students. These scholarships are supported by the income from invested funds. All scholarship endowments are held in trust and are kept separate and distinct from other holdings of the College. All income is applied in accordance with the terms of the gift.

All scholarships are awarded for one year by a committee of administrative officers and are to be used exclusively in the payment of college fees. The holder of an endowed scholarship in one year may apply for a renewal of this scholarship for the succeeding year, which may or may not be granted.

An student enrolled in the College, or any prospective student, may apply for a scholarship. No application, however, may be made formally by a prospective student until application for admission has been made, all necessary credentials presented, and notification of acceptance given.

The College reserves the right to withdraw the grant of a scholarship or of free tuition, at the close of any semester, from a student whose scholarship is not satisfactory and who, for any other reason, is regarded as not in accord with the ideals and standards that the College seeks to maintain. By satisfactory scholarship is meant the making of at least an average grade of "C" on the semester's work.

No grant of scholarship or free tuition will be made to help delay the expenses of a student enrolled in the Summer School.

All applications for scholarships should be made on forms available from the Wofford Committee on Student Financial Aid.

Work Scholarships

A limited number of work scholarships for students are available on the campus. Application for such scholarships should be made on forms available from the Wofford Committee on Student Financial Aid.

Ministerial Scholarships

A $250.00 scholarship will be granted to boarding students who are studying for the Methodist Ministry. A $250.00 scholarship will be granted to boarding students who are the sons of Methodist ministers in full connection with a Methodist Conference or who are the sons of Approved Supply Pastors currently serving full time in the South Carolina Conference of the Methodist Church. A $150.00 scholarship will be granted to day students who are the sons of Methodist ministers or Approved Supply Pastors currently serving full time in the South Carolina Conference. A $150.00 scholarship will be granted to day students who are preparing for the Methodist Ministry.

A $150.00 scholarship will be granted to day students who are the sons of ordained ministers in the full time active ministry of denominations other than Methodist.

Honorary Scholarships

National Spanish Scholarship—The College offers annually a scholarship of one hundred dollars to the South Carolina state winner of the National Spanish Contests, which is sponsored by the American Association of Teachers of Spanish and Portuguese and administered by the South Carolina chapter of that organization. Loans

Wofford College Student Loans: To help worthy students complete their college course. Beneficiaries shall be worthy in scholarship, character, and conduct. Administered through the Committee on Student Financial Aid. In the case of endowed loan funds, only the earnings of these funds are used for loans and the amount available annually depends upon the income from investments and on the amount repaid on loans previously made to students. There are other loan funds in which both the principal and interest are used for loans, and the amount available annually depends on the amount repaid on loans previously made to students.

The following regulations govern the making of Wofford College student loans:

1. No loan shall be made to a student who violates any of the regulations of the College or whose scholastic work is unsatisfactory.

2. A student is not eligible for a loan until he has been in residence for one semester.

3. Loans will be made only to students who are taking a regular course leading to a degree.

4. Every applicant for a loan must present with the application such security as the Committee may approve, and no money shall be advanced before a note with approved security is in the hands of the Committee.

5. No loan may be made to defray any expenses other than college expenses.

6. The amount of the loan that may be made in any one year shall not exceed the sum of $400.00.

7. In the event of a student's leaving college prior to his graduation, his note becomes due at once.

8. Applications for loans should be made to the Committee on Student Financial Aid, on blanks secured from the Controller. The granting or withholding of a loan is a matter entirely within the discretion of the Committee on Student Financial Aid.

Board of Education of the Methodist Church Loan Fund—Open to members of that Church of at least one year's standing, $250 in the Freshman year, $300 in the Sophomore year, $350 in the Junior year, and $400 in the Senior year. SELECTIVE SERVICE

The college maintains close relationships with the Selective Service System and attempts to do all within its power to advise students of the latest developments and interpretations and the special provisions of the law relating to college students.

Many responsible educators and government officials have voiced the opinion that a student contemplating entering college should not be deterred by impending military service. Some students may be permitted to finish, while those who are not will be well along the path toward the bachelor's degree before entering the service.

Full-time students in good standing may be considered for deferment by their local draft boards upon consideration of class standing (as reported on S. S. Form 109), results of the Selective Service College Qualification Test, and related data compiled by the local board. Those who are called for induction while satisfactorily pursuing a full-time course of instruction will receive a mandatory postponement of induction until the end of the academic year, provided they have had no previous postponement of induction.

Students desiring S. S. Form 109 sent to local boards should consult the College registrar.

Assistance to Veterans and Dependents

Subsistence and allowance checks are sent to veterans (to guardians in the case of dependents of deceased veterans) by the Veterans Administration. Any preliminary inquiries regarding nonreceipt of these checks, therefore, should be made to the Veterans Administration.

Under this program, a veteran pays his fees at the time of registration but
Student Services

Every effort is made to encourage and develop a cohesive sense of college community among all members. The relation between students and faculty outside the classroom is one of informality and friendliness.

The offices of the Deans and the Registrar exercise general supervision of the entire personnel program. Services provided by the admissions department, the residence halls, counseling and advising, extra-classroom activities, health, facilities, and the placement bureau, all exist to meet the needs and develop the capacities of the student.

The student activities program is coordinated by the Student Activities Committee, a group of faculty and student representatives. They serve as a clearing house and policy advisory board for all matters pertaining to student affairs. The Dean of Students and his staff, the Student Government Association, the Interfraternity Council, as well as other campus organizations such as the Student Christian Association, implement the program.

Through the office of the Dean of Students, student leaders are delegated as many of the functions of student life as they will willingly and responsibly accept.

ORIENTATION

In late July or early August, every new student will receive a letter informing him of the date and time he is expected to arrive on campus, as well as specific instructions about what to bring and where to report for the orientation program required of all new students. During this orientation period, the entering students become acquainted with each other, student leaders, faculty members, faculty advisers, the curriculum, campus facilities, and the College traditions, standards and policies.

Every new student is given a series of academic tests for counseling purposes. Carefully planned social activities also help students become better acquainted with each other and faculty members.
GUIDANCE AND COUNSELING PROGRAM

Freshman Advisers:

Each Freshman, upon his arrival at the College, is assigned to a faculty adviser who remains his adviser until the junior year, when the student has selected his major. Freshmen will plan their programs with the assistance of the advisers during the period of orientation. It is required, also, that Freshmen and Sophomores, before each registration, consult the adviser about their programs of studies.

The adviser will be available during regular office hours for student conferences. The student should assume that the adviser desires to aid him with friendly, helpful counsel. At the same time the student should take the initiative in consulting the adviser about his personal and academic problems.

Departmental Advisers:

Each student is assigned to a departmental adviser as soon as his selection of a departmental subject for major work is approved. The departmental adviser is available at stated periods for student conferences. It is expected that the student will consult the adviser on all matters relating to his major and related work.

STUDENT HEALTH

The College maintains an infirmary on campus staffed by a registered nurse with College physicians on call. Preventive as well as remedial attention is given. The medical program is under the direction of the staff of the Mary Black Hospital and Clinic.

The medical fee entitles a student living on campus to medical care for ordinary cases of sickness and accidents. Hospitalization in the infirmary is permitted for a limited time for minor illnesses when bed care is necessary. The College does not assume the cost of X-rays, special nurses, consulting physicians, surgical operations, laboratory tests, treatment of chronic conditions, convalescence from operations, or care in other hospitals.

The College retains the services of a consulting psychiatrist on a limited basis. If requested by the student or thought desirable by a member of the College staff, students may be referred on a confidential basis to him for consultation.

As a part of the comprehensive fee, each resident student is enrolled in a student group insurance plan for sickness and injury. The financial benefits of the plan may be found in the section on fees and expenses. Day students are expected to be financially responsible for all injuries sustained on the campus. Group accident and health insurance is available in the Controller's Office.

STUDENT EMPLOYMENT

Some part-time jobs on the campus are available to students who need financial assistance. Also, there are many opportunities for part-time employment in the city of Spartanburg. Students who are interested in securing such part-time employment should consult with the Dean of Students.

While many Wofford undergraduates hold part-time jobs, experience has shown that only exceptionally able Freshmen students can hold regular outside employment and at the same time do satisfactory scholastic work. It is recommended that a student come to college prepared to maintain himself for at least his first half-year without the necessity of undertaking additional outside work.

PLACEMENT SERVICES

Wofford College is glad to assist graduating Seniors and alumni in securing jobs in fields appropriate to their interests and abilities. The Director of Alumni Affairs and Public Relations is charged with the responsibility of administering the placement program of the College.

In early fall, the Seniors are given an opportunity to register with the Placement Office. Assistance is given students in preparing and making desired contacts for placement upon graduation by informing students of job opportunities, arranging interviews between employers and applicants, and helping students gather and present their credentials to prospective employers.

Representatives of various businesses and industries are invited to visit the College for discussion and personal interviews with students. The College, of course, does not guarantee a position, but makes every effort to assist alumni and graduating students to obtain positions.

The Placement Office is located in Black Alumni Hall.
FINANCIAL AID FOR GRADUATE STUDY

Many graduate and professional schools offer excellent scholarships, fellowships, and assistantships for advanced study. Wofford takes pride in the large number of its graduates holding such graduate scholarships. Chairmen of all departments are glad to help Wofford graduates secure such grants. In addition, the Faculty Committee on Graduate Scholarships and Fellowships makes every effort to assist students in securing financial assistance for graduate and professional study.

STUDENT LINEN SERVICE

Students are required to furnish bed linens, blankets and towels. Service is provided on campus for renting these items from a private concern. Full information is mailed to each student one month prior to the beginning of the fall semester.

Student Regulations

General Statement

Registration as a student at Wofford College implies that the student will familiarize himself with the rules and regulations governing the conduct of students, and that he will abide by such regulations so long as he remains a student at the College.

Wofford College is not interested in formulating a complete set of detailed rules in order to control student behavior, but the College does expect the students at all times, and under all conditions, to govern their conduct in accordance with the generally accepted principles of good behavior. Wofford expects her men to consistently and continually conduct their behavior as becoming to gentlemen.

The College reserves the right to suspend, expel, or require a student to withdraw or to resign at any time.

A student suspended or expelled for infractions of regulations, or for other reasons, is not entitled to an honorable dismissal.

Students who desire to withdraw from the College should apply to the Dean of Students for permission to withdraw. The permanent record card of any student who withdraws without permission will carry the notation "Withdrew unofficially."

Drinking

Since Wofford College is strongly opposed to the use of alcoholic beverages by students, a statement of policy is necessary in the interests of the College community.

The possession or consumption of alcoholic beverages, including beer, anywhere on the campus or in any College building, dormitory, or fraternity lodge is prohibited; nor may alcoholic beverages be served or consumed at any social function given by an organization of the College whether held on or off the campus.

The College wishes to encourage and promote the highest standards of conduct; therefore, ungentlemanly behavior on or off campus is also a violation of regulations. This will be interpreted to include any evidence of drinking displayed by students returning to the campus.

Any disregard of the regulations will result in disciplinary
action for the individual and the jeopardizing of the charter
of any approved organization. Violators may be punished by
loss of social privileges, probation, suspension or separation
from the College.

Hazng
Any type of physical punishment, humiliation, or intimida-
tion by any student of another or other students is classed as
hazing and is not permitted.

Conduct Violations
Students found guilty of violating accepted standards of
personal honor will be subject to discipline by the Judicial
Council. Stealing, cheating, gambling, and lying are no more
tolerable in college affairs than they are in one's personal
relationships.

Additional information concerning student conduct will be
found in the Wofford Terrier Tale which is distributed to all
students.

Automobile Rules
All motor vehicles owned and operated on the campus by
students, faculty, and staff members must be registered with the
office of the Superintendent of Buildings and Grounds. The
students will take care of this matter during the registration
period or within 72 hours after they bring an automobile on
campus. The campus includes the Memorial Auditorium park-
ing lot.

Each student, faculty or staff member will be issued a
decal which must be affixed permanently to the front wind-
shield for the car to be properly registered. The cost to each
student for this permit is $1.00 for the college year, September
through August.

The administration reserves the right to withhold or suspend
the privilege of automobile use by students if, in its opinion,
such action is justified.

No Freshman living on the campus may keep an automo-
ible or motorcycle at the College or in the vicinity of Spar-
tanburg with the following exceptions: Those who are (1) over
21 years of age; (2) married; (3) physically handicapped
(written verification from doctor); and (4) other exceptions
in cases of extreme hardship. If eligible for one of these ex-
ceptions, the student must apply in writing or in person to the
Dean of Students and, in turn, receive written approval.

The Terrier Tale contains the parking and traffic regula-
tions.

Resident Students
All students, except those coming daily from their homes,
are required to live in the College residence halls. Exceptions
to this regulation may be granted by the Dean of Students
only when good reason for so doing exists.

All resident students are required to board in the College
dining hall. Day students may purchase meal tickets from the
Controller.

Students other than Freshmen are assigned the rooms of
their choice, on the basis of class seniority. Upperclassmen
who wish to retain the same rooms for another year must notify
the Dean of Students in writing and make a $25.00 non-
refundable room reservation deposit by the end of the first
week following spring holidays.

Freshmen, insofar as facilities permit, are assigned with
their requested roommates in college housing designated for
first-year students. All rooms rent for the same price. The
majority of the rooms are designed for occupancy by two men.
A few single rooms are available. Fraternity lodges do not
offer living quarters except for two house managers in each
lodges.

In each housing unit, there are full-time staff personnel
known as Resident Supervisors. They are available to students
with personal problems and questions regarding procedures,
policies, and other aspects of campus life.

Specially trained upper-class students, known as Hall Coun-
selors, are assigned to the residence halls to lead in the organi-
ization of the residence group and to aid the other student
residents in the solution of problems.

All dormitories are equipped with basic furnishings of
single beds, mattresses, dressers, desks, and chairs. Residents
are encouraged to obtain their own drapes, pictures, bed-
spreads, rugs and lamps after arrival at the College.

Students are expected to be financially responsible for the
loss of their personal belongings through fire or theft.
CHAPEL ATTENDANCE
All students are required to attend chapel and assembly exercises. Specific attendance regulations are published in the Terrier Tale.

PUBLIC REPRESENTATION OF THE COLLEGE
No student on academic probation may represent the College in any extra-curricular activity. Any student or student group representing Wofford College must conform to all standards of eligibility governing such representation and must have the prior approval of the appropriate college official and must so conduct themselves as to reflect credit on the College.

Student Activities
Wofford College has numerous honor societies, professional fraternities and clubs, religious groups, and social organizations, which the student may join.

Student Government
Each student automatically becomes a member of the Student Government Association upon enrollment. Student government at Wofford College is a cooperative organization based on mutual confidence between the student body, the faculty, and the administration.

The organization is patterned on the state and national form of government, but adapted to the local needs of the Student Body. Powers are distributed into the three branches, (1) legislative, (2) judicial, and (3) executive. A full outline of the Student Government Association may be found in the Terrier Tale.

Student Christian Association
Since 1879 there has been an active Young Men’s Christian Association in the College. For better adaptation to local purposes this Association has developed into the present-day Student Christian Association.

The purpose of the Wofford Student Christian Association is to unify the student body into an interdenominational fellowship and to help develop a Christian college community. It strives to promote Christian leadership in campus affairs.

Blue Key
Blue Key is a national honorary leadership fraternity. It is designed to honor those students who have been active in extra-curricular activities and who have maintained a scholastic record above the average.

The Block “W” Club
The Block “W” Club is an honorary organization. A student is eligible for membership only after he has won a letter in one of the six major sports: football, basketball, track, baseball, tennis, or golf.

Senior Order of Gnomes
The Senior Order of Gnomes gathers together four of the most prominent and influential members of the Senior Class. Each year, near the end of the session, the retiring Senior Order elects the new members.
Circle K Club
Circle K is a national service organization sponsored by Kiwanis International. Membership is based on leadership, service, and character. Circle K engages in several worthwhile projects throughout the year. The Wofford Circle K Club received its charter in the spring of 1960.

Debating Council
Each year Wofford participates in a number of intercollegiate debates with the leading colleges and universities of this section. Teams are made up of men chosen in competitive try-outs and trained by members of the Faculty. The debates are scheduled and conducted under the supervision and control of a member of the Faculty.

Glee Club
The Glee Club program of activities is designed to give qualified students the opportunity to develop and use choral music skills. Through the regularly scheduled rehearsals, instruction in music and the techniques of singing is given to help the group become better prepared for its numerous public appearances throughout the year. A spring tour is planned in addition to other out-of-town performances on other occasions. Some scholarship aid is available.

Band
Students with previous band experience are eligible to participate in the activities of this group upon application to, and acceptance by, the Director. A Concert Band, Pep Band and R.O.T.C. Marching Band function throughout the year. Some instruments are furnished by the College and R.O.T.C. unit. However, it is suggested that students use their own instruments if possible. Some scholarship aid is available.

Pi Gamma Mu
Pi Gamma Mu is a national social science honor fraternity. The purpose of this fraternity is to ingrain in its members the ideals of tolerance, idealism, and scientific procedure in dealing with the complex social problems of our day. This fraternity, which enrolls students with high ratings in social science courses, does not seek to support any particular economic pattern for society. It does, however, encourage its members to adopt objective research and painstaking fact-finding before coming to any specific decision.

Delta Phi Alpha
Delta Phi Alpha, the national honorary German fraternity, seeks to honor excellence in German and to give students thereby an incentive for higher scholarship. Upperclassmen of high scholastic standing in German are eligible to membership.

Sigma Delta Pi
Sigma Delta Pi is the national honorary Spanish fraternity which permits excellence in Spanish. It is open to upperclassmen who have exhibited their skill in both the written and the spoken language.

Student Affiliate Chapter Of A.C.S.
This is a local chapter of undergraduates affiliated with the American Chemical Society. A charter was granted the Wofford society in 1949. The aims of this student group are pre-professional and are achieved through bi-monthly meetings. Lecture-demonstrations of new processes and theories of general interest are presented in the meetings of the organization.

Pre-Medical Society
The Pre-Medical Society was organized in 1946 for the purpose of acquainting the pre-medical students with the field of medicine and furthering their interest in the profession. Lectures by prominent persons in the field of medicine feature the monthly meetings, and one meeting each year is of the lecture type, with the public invited to attend. Membership in the society is limited to Juniors and Seniors.

Scabbard and Blade
Scabbard and Blade is a national honorary leadership fraternity. Its purpose is to honor students enrolled in Advanced Military Science, who, in addition to maintaining a high scholastic average, have demonstrated outstanding leadership traits. Selections are made near the end of the year by the graduating members and the professors of Military Science.

Morgan Rifles
A Wofford Chapter of the Pershing Rifles was founded in May of 1959. In May of 1962 the unit voted to withdraw from the Pershing Rifles National Organization and rename the unit "Morgan Rifles" in honor of the Revolutionary War Hero, General Daniel Morgan. Guidon and uniforms were redesigned utilizing the Wofford school colors. The unit now has more local significance while still retaining the mission of developing and recognizing outstanding leadership.

This select drill team performs intricate drill maneuvers and represents the College in parades and other activities throughout the state. The unit is commanded by a Cadet Lieutenant and is composed of Juniors, Sophomores and outstanding Freshmen who are members of the ROTC Cadet Corps.

Social Fraternities
Fraternities exist at the will of the institution, on this campus as in the case elsewhere. The purpose and activities of such groups shall be consistent with the main objectives and formal organization of the College. No organization shall require of its members any activity incompatible with scholastic attainment and spiritual growth, which are the primary objectives of the College. Thus, fraternities can justify their existence as members of the College community only so long as they contribute to and do not detract from the basic purposes of the College.

Specific regulations concerning fraternity organizations may be found in the Terrier Tale.

The following social fraternities have chapters in the College: Delta Sigma Phi, Kappa Alpha, Kappa Sigma, Pi Kappa Alpha, Pi Kappa Phi, Sigma Alpha Epsilon, and Sigma Nu.

Athletics
INTRAMURAL SPORTS
Provision is made for organization and participation of intramural teams in various sports, including volleyball, softball, baseball, touch football, paddle-ball, paddle tennis, golf, ping-pong, blizkball, track and field, tennis, and basketball. All students are urged to participate in these sports because of their influence upon the building of healthy bodies and the development of character.

INTERCOLLEGiate ATHLETICS
A program of intercollegiate athletics is recognized as an important part of college life, and, on account of its educational values, the College gives to it encouragement and direction. The College believes in high amateur standards for intercollegiate athletics. The College is a member of the Southern Intercollegiate Athletic Association, and its standards conform to the rules and requirements of this association.

Wofford fields intercollegiate teams in football, basketball, baseball, track, tennis, and golf.
THE PUBLICATIONS BOARD

The Publications Board is composed of four faculty members appointed by the President of the College and five student members elected to represent the three upper classes and the student body at large.

This Board exercises financial control over the three principal student publications and elects their editors-in-chief and business managers. However, it is at the service of the student staffs for suggestions or advice concerning their work.

Publications under the jurisdiction of the Board are the Old Gold and Black, a weekly newspaper; the Journal, a literary magazine; and the Bohemian, a year book.

No student publication may be started at the College without the approval of the Publications Board.

The following publications afford to those students who have special aptitude for such matters, excellent training in journalism and in business management. Interested students are assisted and encouraged by the Faculty in their efforts.

The Old Gold and Black

The Old Gold and Black is a newspaper edited by the students. It keeps the record of the news and happenings of the campus, together with editorial comments and interpretations of matters of special interest to students.

The Journal

The Journal was established in 1889 and is a magazine intended to represent the best intellectual life of the student body. In addition to its editorials, the material in it consists of essays on serious topics, stories, and poems, and the method of treatment is literary in character. It is published five times during the school year.

The Bohemian

The Bohemian is a handsome, illustrated volume published annually near the close of the year by the student body. It is a history of the Senior Class throughout its college course, and a record of all student activities and achievements for the current year—literary, oratorical, athletic, social, and religious—and the illustrations include photographs of various groups and college organizations and pictures of campus scenes and buildings.

The Terrier Tale

This is the student handbook. It is published and distributed to the student body each September. The Administration appoints a student editor and business manager, with the Dean of Students as adviser to the student staff. The Terrier Tale is a valuable source of information on practically all phases of student life.

HONORS

The degree of Bachelor of Arts or Bachelor of Science with honors is conferred under the following rules:

Students who have completed a minimum of ninety-two

semester hours in Wofford College are eligible for general honors at graduation. Those who earn an average of at least three and one-half quality-points per semester hour are recommended for a degree magna cum laude. Those who earn three and three-fourths quality points per semester hour are recommended for a degree summa cum laude. All semester hours taken in Wofford College on which the students receive a grade are counted in the determination of honors.

PRIZES AND MEDALS

The Howard B. Carlisle Medal in Oratory.—Medal given annually to the winner of the Oratorical Contest by Mr. Howard B. Carlisle, Jr. This prize was begun a number of years ago by Mr. Howard B. Carlisle.

The Helmus Poetry Prize.—As a result of a generous bequest by Mr. Andrew Helmus in 1957, three prizes, first $25, second $15, third $10, will be given annually to students submitting the best original poems to a faculty committee.

The Herald-Journal Award in Journalism.—Four prizes of $25 each given by Mr. Phil Buchheit, publisher of the Spartanburg Herald-Journal, for the best editorial, the best feature story, the best news story, and the best sports story appearing in the Old Gold and Black during the year.

The Algernon Sydney Sullivan Award.—Bronze medallions awarded annually by the College through the benefaction of the Southern Society of New York to a Senior student and one or other person who is not a student of the institution, who need not be a graduate of any college or university, but who shall have some interest in, association with, or relation to said institution, official or otherwise, of a nature to make this form of recognition by said institution obviously appropriate and insure his or her proper appreciation of the same. These awards are based solely on the recognition of nobleness and humanitarian qualities of character.

DEPARTMENTAL AWARDS

Departmental awards are granted each year to outstanding Senior students in the various departments of the College. These awards are made on the basis of academic achievement, character, and intellectual promise. Not more than one such award is made in any one year by a department.

Visits To The Wofford College Campus

Parents, students, alumni and friends are cordially invited to visit the Campus. On the opposite page is a map of the Campus. Visitors should report to DuPre Administration Building (Building number 1) for information and assistance. Administrative offices are open on weekdays from 9:00 until 5:00 and on Saturdays from 9:00 until 12:30, except holidays. The College's telephone switchboard is open weekdays and Saturdays from 9:00 A.M. until 11:00 P.M. On Sunday the switchboard is open from 1:00 P.M. until 5:00 P.M. and from 6:00 P.M. until 11:00 P.M. The switchboard maintains the same hours as the administrative offices (see above) when classes are not in session because of holidays. The College's telephone number is Area Code 803, 585-4821.
