Details: RecycleMania started in 2001 with a friendly competition between several colleges. It is estimated that roughly half of all trash on a College campus is collected in the residence halls. Furthermore, studies have shown that 50% of that trash could have been recycled. RecycleMania has grown in seven years to over 400 US colleges competing to see how each can reduce our trash. Please participate in these important efforts by: • Collect your paper, plastic and aluminum cans • Bring these materials to the recycling containers between the back of the library and Campus Life parking lot. Students will be weighing all recyclables on Monday and Thursday from 2-4 p.m. The competition will run through March 27. We’re excited to see just how Green Wofford can be!

CULTURAL EVENTS
WEEK OF FEBRUARY 2 – FEBRUARY 8, 2009

Wofford Cultural Events

Tuesday, February 3:
Art Exhibition: Sandor Teszler Library Gallery (through March 26). Thomas Scanlin Collection of African Art. Primarily derived from Central and Western Africa, the works in this collection exhibit several of the characteristics of African art as a whole -- especially abstraction -- and rather than being created solely for their beauty, they actually saw use within the society in ritual dancing, celebrations, and expression of status. The visual strength and interest of pieces such as these has profoundly influenced Western art, especially in the work of Picasso and his contemporaries in the early part of the twentieth century.

Talk: 11 a.m. - 12 noon, Olin 213. Craig Halperin, ACM Distinguished Lecturer. Craig "Xray" Halperin hopes to entertain as much as educate with an opinionated presentation on his personal professional journey. He will present stories about some of the projects he has worked on and break down some of the techniques used in films such as Titanic, X-Men 2, The Sum of All Fears, Bee Movie, Kung-Fu Panda and the upcoming A Christmas Carol. While some material may be of a technical nature, the talk is meant to be accessible to anyone with an interest in computer graphics. This talk is hosted by the Wofford Student Chapter of the Association for Computing Machinery and funded by the Faculty Cultural Affairs Committee.

Wednesday, February 4:
Film Screening: 7 - 7:30 p.m, McMillan Theater. First 100 Days. President Obama faces a critical window for action in the first 100 days of the new administration. If he acts boldly, like Roosevelt and Johnson, then Obama can immediately set the planet on the path to a stable climate. Join David Orr, Hunter Lovins, Betsy Taylor, Ray Anderson, Dianne Dillon-Ridgely, Jessy Tolkan, Billy Parish and Wahleah Johns as they discuss global warming solutions for the first 100 days.

Thursday, February 5:

The second roundtable, "Science, Philosophy, and Policy," with Dr. Christine Dinkins, Dr. Steve Zides, Dr. Nancy Williams, and Dr. Linda Powers takes place at 4:45. Each panelist will present a brief statement, and then the floor will be open for discussions between the panelists and the audience.

To the Wofford Community:

The Library has just gone live with a new, enhanced catalog.

It offers many new features:

- **A simple, single-search box:** No need to run separate searches for authors, titles or keywords--just one box.
- **Did you mean…?** The catalog will suggest alternative spellings and help when you are unsure of an exact title or author name.
- **Tag clouds:** Displays links for similar subjects and community tags on the right side of the results page offering an easy way to find additional materials on your topic.
- **Social Tagging:** Add your own tags to organize and share items in the collection. Tag clouds and social tags typically use less formal language.
- **Facets:** No need to re-run your search. Narrow by date, format, location, etc. using the facets on the left side of the results page.
- **Relevancy:** Results are automatically sorted by how well they match your search terms.

How do I use the new catalog?

Search for your topic using the single-search box. Use the facets on the left side of the results screen or the tags on the right side to refine your search.

Try it now: [http://encorelibrary.wofford.edu/](http://encorelibrary.wofford.edu/)

The visual strength and interest of pieces such as these has profoundly influenced Western art, especially in the work of Picasso and his contemporaries in the early part of the twentieth century. The visual strength and interest of the works is well represented in this collection and includes a variety of objects. Olin Teaching Theater (through March 27).

Justice Littlejohn is a 2003 graduate of Wofford College and the University of South Carolina. He has taught in the public schools and his work has been exhibited in galleries in the Columbia area as well as Atlanta. This is his first return exhibition at his alma mater.

Thomas Scanlin Collection of African Art, Sandor Teszler Library Gallery
Primarily derived from Central and Western Africa, the works in this collection exhibit several of the characteristics of African art as a whole - especially abstraction - and rather than being created solely for their beauty, they actually saw use within the society in ritual dancing, celebrations, and expression of status. The visual strength and interest of pieces such as these has profoundly influenced Western art, especially in the work of Picasso and his contemporaries in the early part of the 20th century.

To: Wofford Faculty & Staff  
From: Bernie Dunlap  

As I think you all know, virtually all institutions of higher learning are in austerity mode. Many are reducing faculty and staff, and most have frozen hiring as well as salaries. We are in a relatively strong position, but we have little choice regarding the completion of a number of facilities projects such as The Glendale Shoals Environmental Studies Center and the Joe E. Taylor Athletic Center. In addition, we must meet our housing obligation by building an additional 48 beds in the Village. And we must keep our departmental promises by filling 5 new teaching positions for the fall semester. Given the fact that we feel obliged to minimize fee increases for new and continuing students, holding the line at 2.9% while setting aside additional financial aid for those most in need, the Board of Trustees is considering a 2009-2010 budget in which there are no salary increases for faculty or staff. The budget will be given final approval at the Board’s May meeting. Should the economy improve sufficiently between now and then, faculty/staff salaries will get priority attention.

This is not altogether happy news, but we should rejoice that it is no worse. Applications and deposits are excellent to this point, and, thanks to you, we are sustaining our momentum as an institution. We are lucky to be where we are.

Baseball Team Hiring for Work Study
Details: We are looking for a student to perform laundry duties after practice each night. This student will wash and dry the laundry each night which will take approximately 2 hours. The laundry needs to be completed before 8:30 a.m. the next day so you are free to do the laundry that night or wait until the next morning. We are usually finished with practice around 9:30 p.m. each night but I would let you know each night when we are finished. There is no scrubbing or cleaning of the gear and is more waiting around than actual work. I will take the laundry down to the laundry room so you would not have to transport it from our locker room. We usually practice two days a week since the season has started. If you would like to pick up more than 4 hours a week, then you are more than welcome to do the gear after home games as well. This would be more detail oriented and would require you to soak uniforms for a couple hours and then wash them. If you have any questions please let me know. Baseball Team Hiring for Work Study

Details: We are looking for a student to perform laundry duties after practice each night. This student will wash and dry the laundry each night which will take approximately 2 hours. The laundry needs to be completed before 8:30 a.m. the next day so you are free to do the laundry that night or wait until the next morning. We are usually finished with practice around 9:30 p.m. each night but I would let you know each night when we are finished. There is no scrubbing or cleaning of the gear and is more waiting around than actual work. I will take the laundry down to the laundry room so you would not have to transport it from our locker room. We usually practice two days a week since the season has started. If you would like to pick up more than 4 hours a week, then you are more than willing to do the gear after home games as well. This would be more detail oriented and would require you to soak uniforms for a couple hours and then wash them. If you have any questions please let me know. Details: “Walk the Line” - Among the pantheon of great country singers, Johnny Cash (played here by Joaquin Phoenix) may just be the most enigmatic. Reese Witherspoon plays his beloved June, alongside co-stars Robert Patrick and Shelby Lynne.

**From:** Lancaster, Amy E  
**Sent:** Thu 2/26/2009 1:48 PM  
**To:** Wofford Students  
**Subject:** Early Registration for Interim 2010 Travel/Study Projects

The Interim registration schedule has been altered a bit from previous years in order to assist students in planning for travel/study opportunities. This year, information will be made available online for all projects in April. Soon thereafter, we will hold information sessions for travel/study projects. **Students will have the opportunity in late April to submit a small $200 deposit and application to the project of their choice.** Students who choose not to take advantage of early registration will still be able to submit travel/study project applications in September for projects that have space available. At that time, a $1000 non-refundable deposit will be due with the travel/study application. Those who have already registered for a project in April will be expected to submit $800 in September. On-campus projects and independent interims will not be affected by this new process. However, all project listings will be posted on the Interim website in April ([http://www.wofford.edu/interim/](http://www.wofford.edu/interim/)) so that you may consider all opportunities when deciding to apply for a travel/study project.

We would also like to remind all students that as always, Wofford Travel Grants will be available for qualified students. Please see [http://www.wofford.edu/interim/content.aspx?id=14594](http://www.wofford.edu/interim/content.aspx?id=14594) for more information. The deadline for these grants is September 18, 2009; students receiving grants will be notified before registration for travel/study projects is finalized in late September. Please be certain to read Daily Announcements for updates later in the semester.
