### **The GRE has been Significantly Revised.**

**Details:** Career Services has received the new information booklet on the revised GRE. Beginning in August '11, the GRE will present: new types of questions in both verbal and quantitative reasoning sections. The verbal section reflects the kind of thinking required in postgraduate studies and the quantitative section emphasizes data interpretation and real-life scenarios. The analytical writing section changes little but does ask for more focused replies. There is a new user-friendly computer test design which allows answers to be changed/edited, a "mark and review" feature allowing one to skip questions and return later. For detailed information, see [www.ets.org/gre](http://www.ets.org/gre)
