On September 17, 1787, 39 delegates to the Constitutional Convention completed their work in Philadelphia and signed their draft of the Constitution of United States of America. Each year, “We the People” pause for a moment during the anniversary week of this event to honor their legacy and develop the good habits of citizenship.

This year, in observance of Constitution Day, Wofford welcomes Dr. Gordon S. Wood, who will speak at 11 a.m. on Tuesday, Sept. 13, in Leonard Auditorium on the subject, “The Origins of American Constitutionalism.”

Dr. Wood is the perhaps America’s most respected authority on the new national period for a series of books that began in 1969 with the Pulitzer Prize winner for that year, “The Creation of the America Republic.” His most recent book is “The Idea of America: Reflections on the Birth of the United States,” published last May. The opportunity to hear and meet Dr. Wood in person presents a rare opportunity for the entire Wofford community.

**Mexico Solidarity Network Speaker**  
**Date/Time:** 9/21/2011 5:30:00 PM  
**Location:** McMillan Theater  
**Cost:** Free  
**Details:** Macrina Cardenas Alarcon will be speaking about her experience as a legal immigrant from Mexico to the United States. This event is included in the Spanish department's Culture and Society series and counts as a cultural event. See details below. Tour Title: On the Edge of Reason—Border Dynamics and The Spread of Violence Tour Speaker: Macrina Cardenas Alarcon, of Tijuana, Mexico, discusses the reasons behind increasing violence along the US-Mexican border, including the effects of neoliberal policies, reliance on a maquiladora economy, migration dynamics, and her work with La Casa del Inmigrante in Tijuana. Macrina is the former Legislative Coordinator for MSN in Washington, DC. She has been working as a community activist and educator in Tijuana for the past 5 years. Tour Overview: Macrina will explore the context and history of US-Mexico border dynamics to shed light on the current uncontrolled violence. Neoliberal economic policies produced a “maquiladorization” of the border economy, with its accompanying poverty and mass migration to the north. Immigration is a fact of life for many Mexican families, particularly rural families. Tijuana and other border cities, are both destinations, as workers look for jobs in the maquiladora sector, and transit point, as workers come to the US as undocumented workers. Tijuana and Juarez are prototypical urban centers in the neoliberal era, boasting industrial parks with modern highways and city services, surrounded by bleak, dusty neighborhoods that house hundreds of thousands of workers typically earning around five to seven dollars a day. From alarming working conditions and violence, to inspiring acts of solidarity and resistance, Marcina Alarcon will share her compelling firsthand stories from the US-Mexican border.

Come learn what it's all about, and meet other Wofford students who are interested in getting involved in government.
