Subject: MEMO FROM DAN MATHEWSON: Faculty & Staff Intramural Team
Date: October 3, 2011 at 3:39 PM
To: Wofford Staff WoffordStaff@Wofford.Edu

Please do not reply to this email. If you have questions or wish to participate, please reply to Dan Mathewson at mathewsondb@wofford.edu.

Dear Faculty and Staff “Athletes” –

I write to you in my capacity as captain, coach, and G.M. of the faculty & staff team that competes in all of Wofford’s intramurals. This is my quarterly rally-the-intramural-troops email, where I cajole you into joining our squad for the upcoming intramural season. Terrier Tag (Wofford’s version of flag football) begins next week, and we shall dominate, as always.

If you are new to Wofford, you might assume that a team of 30-80 year-olds in various states of physical decrepitude would not fare too well against teams of 18-22 year-olds all at the peak of their physical prowess. This assumption, however, is completely mistaken. The truth is that Wofford’s faculty and staff have been tremendously blessed with extraordinary athletic gifts: blazing speed, superhuman strength, grace, cunning, bravery, and above all else, imaginations supple enough to envision themselves possessing these gifts when they (very) clearly do not.

Also, I think we shock the students with the ghastly sight of our uncovered arms and legs. And then we blind them with the sunlight that reflects off our balding heads.

Consistent threats of failing grades seem to help too.

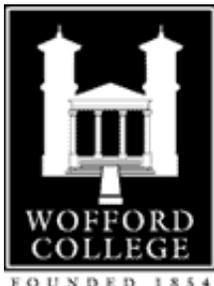

If you are inspired by the thought of dominating our students on the athletic field even as we dominate them in the classroom, then please join me for the new season of Terrier Tag. Games start next week, and we will play once or twice per week, with a usual start time of either 5:00 or 6:00pm.

Shoot me an email if you want on the squad: mathewsondb@wofford.edu.

Onward to victory!

The best fiction disturbs, and tries to open our eyes. This talk will discuss writers who use language to deepen our understanding, who "tell all the truth, but tell it slant."

Gallery Exhibitions:

Amy Holbein
Through October 30, 2011
Martha Chapman Gallery,
Campus Life Building

Although Amy Holbein studied textile design at Eastern Carolina University, where she received her education, she learned to use pastels and oils in developing figurative works and portraits. In more recent years she has begun combining oils and encaustics (cold wax) in abstract and non-objective work. In all her work, she likes complex, layered surfaces loaded with color. She says she hopes these intricate surfaces and heavy infusions of color connect the viewer with "a glimpse of something sacred." Amy Holbein is an instructor in studio art at Wofford College. Her work has been on display at the Spartanburg

Wofford College is committed to providing quintessential undergraduate education within the context of values inquiry. As a learning community, we are united by unfettered pursuit of knowledge and the creative search for truth.

The talk should be accessible to anyone with a good background in Calculus. Refreshments will be served from 3 to 3:30 p.m., in Olin 204. Here's an abstract for the talk: Constructing a Hazard Map for Pyroclastic Flows: Using simulations and data to predict rare events Large granular volcanic events -- pyroclastic flows -- are rare yet potentially devastating for communities situated near volcanoes. Even though large-volume events are uncommon, there is a significant probability that an event larger than any previous event will occur. We propose a method to draw hazard maps that combines field data, digital elevation maps, and flow simulations. As a test case, we focus on calculating probabilities of catastrophic damage due to flow events from the Soufriere Hills volcano on the island of Montserrat.**Contact:** Joseph Spivey**Email:** spivevia@wofford.edu

Wofford Mathematics Colloquium

Date/Time: 10/19/2011 3:30:00 PM

Location: Olin 213

Cost: Free

Details: You are invited to the Wofford Mathematics Colloquium. Elaine Spiller, a mathematician from Marquette University, will talk about how mathematics can be used to predict the flow of lava from a volcano. The talk should be accessible to anyone with a good background in Calculus. Refreshments will be served from 3 to 3:30 p.m., in Olin 204. Here's an abstract for the talk: Constructing a Hazard Map for Pyroclastic Flows: Using simulations and data to predict rare events Large granular volcanic events -- pyroclastic flows -- are rare yet potentially devastating for communities situated near volcanoes. Even though large-volume events are uncommon, there is a significant probability that an event larger than any previous event will occur. We propose a method to draw hazard maps that combines field data, digital elevation maps, and flow simulations. As a test case, we focus on calculating probabilities of catastrophic damage due to flow events from the Soufriere Hills volcano on the island of Montserrat.

Dear Administrators, Faculty, and Staff Members

I hope that all of you are doing well and that you enjoyed your fall break. It is my pleasure to inform you that Twin Towers is hosting its annual Halloween Carnival this **Wednesday** from 5:00-7:00 pm. We have a very exciting evening of activities for children planned that includes a moon bounce, snow cones, a lot of candy, and much, more. Over 20 student organizations will be providing safe, fun activities for children to experience and enjoy. We hope that you will bring your families out for a night of fun and excitement! Costumes are encouraged!

The Halloween Carnival will take place on the lawn in front of Main Building. In the event of rain, the Halloween Carnival will be moved to Andrews Field House. Upon arrival, we ask that each parent sign a liability form for his/her child before participating in the activities. If you need assistance at any time during the carnival, please feel free to call me at 864/542-3266. You may also notify Twin Towers members wearing bright blue t-shirts with a picture of Boss on the back.

We look forward to seeing you and your family at the Twin Towers Halloween Carnival this Wednesday! If you have any questions or concerns, please do not hesitate to contact me.

Win \$250 for Creating a Logo

Details: Are you creative? Do you want to earn \$250? If so, we need your help to create a name and logo for a multi-campus initiative! Wofford and Converse Colleges are looking for inspired students, faculty, and/or staff to create a name and logo for our joint social entrepreneurship initiative that will facilitate social change in our community using one of the area's most powerful resources--students. What we need from you: 1. A digital submission of a name 2. A digital submission of a logo (capable of being enlarged to 8x10) Both of the above need to be emailed to hagersk@wofford.edu as attachments by 5 p.m. on Monday, Oct. 24. ***The Wofford name or logo cannot be incorporated within the new logo. Re: National Republican Debate

As announced yesterday, Wofford is hosting the first National Republican Party Presidential Debate in South Carolina on Saturday evening, Nov. 12, 2011, in the Benjamin Johnson Arena in the Campus Life Building. CBS News will be directing this event and airing it live. This special opportunity to be in the national news media and part of the national conversation with our political leaders means that we have to make some adjustments to our daily life the week of Nov. 6-13.

Our IT and Communications/Marketing staff members have created a special web page with information at www.wofford.edu/debate. Wofford's access to tickets to this event will be VERY limited and will not be sufficient to provide them to all of our college community. Students, faculty, staff and alumni may request tickets through the South Carolina Republican Party. To request up to four (4) tickets, go to www.scgop.com/debate/. Please note that this is a request, and does not guarantee tickets.

The Student Affairs office is coordinating student volunteers for the event. Volunteers are needed for several days beginning on Friday, Nov. 11, going through Sunday morning, Nov. 13. Volunteers MAY have an opportunity to attend the debate, but we cannot guarantee that privilege at this point. Workers and volunteers must have a valid driver's license and may need to use their own vehicle. Students who can volunteer should send an email to Beth Clardy at clardyby@wofford.edu. Students must include their full name and cell phone numbers on their email.

Because of the weekend snowstorm in the Northeast, the library's enhanced book catalog service is not working. You can still search for books by using the "Classic Catalog" link now highlighted in red underneath the usual search box. All other features including searches for articles, course reserves, research guides and the library web page are unaffected. We hope full capability will be restored in the near future.

Subject: MESSAGE FROM PRESIDENT DUNLAP: Bishop Will Willimon, Wofford alumnus, to speak at 7 p.m. Wednesday in Leonard Auditorium

Date: October 31, 2011 at 10:41 AM

To: Wofford Students WoffordStudents@Wofford.Edu, Wofford Staff WoffordStaff@Wofford.Edu

To: The Wofford Community
From: President Dunlap

Bishop Will Willimon, who is speaking in Leonard Auditorium at 7:00 pm on Wednesday, November 2nd, is not only a Wofford alumnus and a former Wofford trustee, it was he and his wife Patsy who, outside our Teszler Library, erected the stone bench engraved the Shakespeare sonnet, "Let Us Not to the Marriage of True Minds Admit Impediment." It was on that spot that Will proposed to Patsy. A celebrated author, Bishop Willimon is one of four bishops from various faiths who have challenged Alabama's draconian immigration law in the federal courts. He is, in short, a morally engaged religious leader of the old school. He is also a spell-binding speaker. I urge you not to miss a chance to hear him in person.
