### ***Dr. Charlie Bass featured in Princeton Review's 'Best 300 Professors'***

**SPARTANBURG, S.C.** – Dr. Charles G. (Charlie) Bass, the Dr. and Mrs. Larry Hearn McCalla Professor of [Chemistry](#) at Wofford College, has been named one of the country's best undergraduate teachers by [The Princeton Review](#).

The Massachusetts-based education services company – best known for its test-preparation courses, books and study survey-based college rankings – profiles Bass in its new book, "The Best 300 Professors" (Random House / Princeton Review).

Published today (April 3, 2012), the book is a collaboration of The Princeton Review and RateMyProfessors.com, the highest-trafficked college professor ratings site in the U.S. The book features top professors in more than 60 fields, ranging from accounting to neuroscience to sports management. They hail from 122 colleges and universities across the

country. A complete list of the professors is accessible at [www.princetonreview.com/best-professors.aspx](http://www.princetonreview.com/best-professors.aspx).

The profile of Bass notes that he "prefers to go straight to having his students attempt to solve problems." He says in the book, "That way, I can help them correct misconceptions. I think this is much more effective than watching me solve problems for them."

Bass believes that "positive reinforcement helps students gain confidence to become willing to work harder," his profile reads, noting that he "cares deeply" that his students "get it."

"I will work as hard as I can to help them understand the course material," Bass says.

Bass receives praise from Wofford's senior administration for his teaching style and success, and for his commitment to providing the best learning environment for his students.

"A great professor is measured by many things, the success of his former students, among others," President Benjamin B. Dunlap says. "What is intangible is the deeper sort of lesson – the passionate commitment to learning, endless efforts to enhance one's mastery, and the recognition that the ultimate purpose of such striving is not mere self-promotion. Charlie Bass teaches all these truths in unforgettable ways, and he embodies them as well."

Dr. David S. Wood, senior vice president for academic affairs and dean of the college, adds, "Charlie Bass is a marvelous professor dedicated to improving our world through perfecting his craft of teaching at the highest level. He is remarkably committed to our students and our college and sets a high standard for us all."

Bass also receives credit for working tirelessly to build the new organic chemistry laboratory, dedicated earlier this year to Dr. William P. Cavin, a 1945 Wofford graduate and professor of chemistry from 1946 to 1988.

"Dr. Bass traveled with me to many cities to present the case for support of the new organic lab," Marion Peavey, senior vice president for development and college relations, says. "Invariably, former Wofford students of his – most of whom are now in the medical profession – would tell me that he was their favorite professor, primarily because of his teaching skills and his willingness to take extra time to help them understand complex problems."

The profile of Bass in "The Best 300 Professors" continues: "All in all, he looks to disarm the common perceptions of the difficulty of orgo (organic chemistry, which Bass teaches), and to make it 'interesting and fun.'"

One student notes, "Dr. Bass is awesome and makes the incredible pain of learning organic chemistry slightly bearable. Definitely recommended." Another says, "Organic chemistry is an impossible subject, but his funny personality and perseverance in teaching make you comfortable in trying to learn it."

Bass credits his wife, Carri, and children, David and Michael with

supporting him in his teaching career. "I am blessed to have a very patient wife and children. Their love and support throughout my career have made it possible for me to spend extra time outside of class with my students. Carri in particular has been unbelievably supportive. She is always there when I need her most. Her words of encouragement always lift me up when I need it most."

In its profile of Wofford, the book notes that the college offers "demanding and challenging academics that expand students' intellectual independence," a "phenomenal" faculty, and "highly intelligent and extremely effective communicators," according to undergraduates.

Professors at Wofford "want to help students gain research opportunities," the book notes, quoting one student: "The fact that professors are the ones that teach the labs speaks volumes."

The profile continues: "In addition to having a well-connected alumni network, Wofford has great success in placing students in graduate and professional programs."

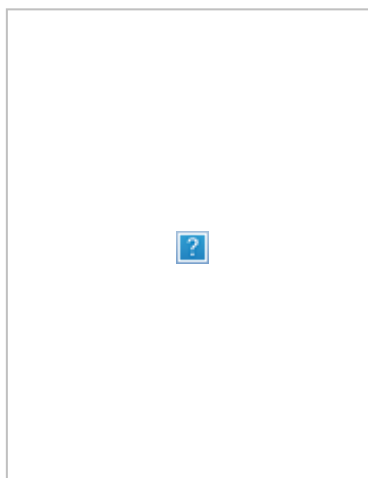

Bass received the Roger Milliken Award for Excellence in the Teaching of Science at Wofford in 2006. He also has been recognized numerous times as the Faculty Member of the year by the Panhellenic Council at Wofford and by the Wofford Campus Union. He serves as the pre-dental adviser for the Wofford Student Affairs Committee. He also is the scout adviser to Wofford's Pi Iota Chapter of Alpha Phi Omega, a national service fraternity.

A graduate of William Carey University in Hattiesburg, Miss., Bass received his Ph.D. in chemistry from the University of Tennessee. He did post-doctoral research at the University of British Columbia and the Cancer Research Institute at Arizona State University. He has taught at Wofford since 1988.

Bass participated in the Green Chemistry in Education Workshop at the University of Oregon and participates annually at the Dental Day advising conference at the Medical University of South Carolina. He is a member of the American Chemical Society (Organic and Educational Divisions) and the Western Carolinas Division of the American Chemical Society.

The selection of the best 300 professors took into account qualitative and quantitative data from survey findings and ratings collected by both The Princeton Review and RateMyProfessor.com. The professors in the book are not ranked, but each one profiled received high ratings from their important audiences, beneficiaries and critics: the students they teach and inspire.

Winner of the 2011 Sundance Film festival and many other film awards, *Kinyarwanda* is a powerful portrayal of the genocide and one of the few refugees, the mosques, during this terrible time. *Kinyarwanda* interweaves six different tales that together form one grand narrative that provides the most complex and real depiction yet presented of human resilience and life during the genocide. The director, producer, and others involved in making the film will be on hand to answer questions after the screening.

Dear Colleagues,

I am writing to invite you to the opening reception for the college's newest art collection, a large group of paintings and drawings by South Carolina artist Julia Elizabeth Tolbert. The reception is a drop-in affair in the library gallery this Friday from 4-6 p.m. Please encourage your students to attend as well.

Julia Tolbert was a graduate of the University of Georgia MFA program and studied there under noted Southern artist Lamar Dodd. She was active through the 1940s into the mid-1950s. During her lifetime she sold very few works (apparently she wasn't interested in selling), but is included in the collections of the High Museum in Atlanta, the Gibbes Museum in Charleston, the University of Georgia, and a few other museums and galleries. In 2011 members of the Tolbert family transferred nearly the entire output of this artist to Wofford—nearly 300 works of art. Most of the works on display have never been shown. The collection includes oil and watercolor paintings; ink, charcoal, and graphite drawing; lithographs and other prints. During the coming years this new collection will be a great resource for the college and especially for art history and studio art students.

On Friday several members of the Tolbert family will be on hand. I'd like to have us welcome them and express appreciation for their gift. The food will be good as well as the conversation and art.

With appreciation,

Oakley

**Subject:** MESSSAGE FROM PRESIDENT DUNLAP: Upcoming Survey  
**Date:** April 18, 2012 at 9:23 AM  
**To:** Wofford Staff WoffordStaff@Wofford.Edu

To the Wofford Community:

Beginning Friday, April 20, you will receive a message in your in-box from Wofford College with "All 'T's on Wofford" in the subject line. I am writing to ask you to open that message when it arrives. It will contain a link to an important survey, one that is unprecedented in the college's history. I hope you'll click the link to take the survey.

The "All 'T's on Wofford Survey" is an effort conducted by Wofford on behalf of our Board of Trustees to understand how students, faculty, staff, alumni, and parents perceive the college and the qualities you believe make Wofford unique among liberal arts schools. Your thoughts, ideas, and opinions will help inform future marketing efforts so that we may better target students across the globe who want to experience what we have to offer here in our small corner of the Upstate. Your survey answers will also aid the members of our Board of Trustees planning committee as they work with college faculty and staff to chart a course for Wofford's future.

To do those things well, we need your participation. The survey will take approximately 20-25 minutes to complete. I realize that is asking a lot of you. However, as the people tasked with delivering a Wofford education, your perspective is necessary and vital to the process of understanding Wofford's value in the present and positioning it to have a greater impact in the future. If you complete the survey, it will be my pleasure to send you a summary of the results later this summer.

The survey is completely anonymous and will be conducted by an independent market research firm. It will close on April 30.

If you'd like to learn more about the survey, please visit [wofford.edu/allonwofford](http://wofford.edu/allonwofford).

You have my thanks for taking the time to read this message.

Sincerely,  
Bernie

**Date:** April 19, 2012 at 10:34 AM  
**To:** Wofford Staff WoffordStaff@Wofford.Edu, Wofford Students WoffordStudents@Wofford.Edu

To: The Wofford Community  
From: President Dunlap

A very special event will occur at 7 p.m. in Leonard Auditorium this coming Monday, April 23, when the renowned Vega Quartet returns to Wofford. The group will perform a fascinating program, including one of Mozart's most intriguing works—the highly inventive D-minor quartet (K. 421), followed by a spirited work by the young contemporary composer, David Kirland Garner, “I ain't broke (but I'm badly bent).” The final selection—and the reason you should join the many attendees from outside the college—will be the Brahms String Sextet in B-flat major, surely among the most passionate music of sort that has ever been composed. For this work the Vega Quartet will be joined by Christopher Rex on cello and our own Eun-Sun Lee on viola. It is no exaggeration to suggest that, among your most vivid memories of Wofford, will be having heard a live performance of this extraordinary work while you were here. Do yourself a favor and attend.

To: Wofford Campus Community:

As is Wofford's annual tradition, the 2012 Presidential Seminar students will be performing their rendition of Seamus Heaney's "Antigone: The Burial at Thebes" tomorrow, Wednesday, April 25, at 4 p.m. on the Seal of Main Building. Refreshments will be served beforehand.

*"Sophocles' play...stands as a timely exploration of the conflict between those who affirm the individual's human rights and those who must protect the state's security. After the War of the Seven Against Thebes, Antigone, the daughter of Oedipus, learns that her brothers have killed each other, having been forced onto opposing sides of the battle. When Creon, king of Thebes, grants burial to one but not the 'treacherous' other, Antigone defies his order, believing it her duty to bury all of her close kin. Enraged, Creon condemns her to death, and his soldiers wall her up in a tomb. While Creon eventually agrees to Antigone's release, it is too late: in a tragic repetition of events in her family's history, she takes her own life." -Seamus Heaney*

**Subject:** MESSAGE FROM LISA WARE: "All 'I's on Wofford Survey"  
**Date:** April 26, 2012 at 1:07 PM  
**To:** Wofford Staff WoffordStaff@Wofford.Edu

To: Wofford Community

Thank you to everyone who has taken the survey so far. We're just over the half-way point (the survey period is April 20 – 30) and have met our response goals for alumni and parents. Faculty and staff who are also Wofford alumni or parents may still take the survey. You'll be able to identify in multiple categories - as an alumnus, parent, staff member, or faculty member - once you enter the survey.

**We need your responses, please.** The purpose of the "All 'I's on Wofford Survey" is to understand how the college is perceived by each of the constituent groups mentioned above, as well as prospective students. **As faculty and staff, you know the college better than anyone.** What makes Wofford special? How do you experience Wofford? What should its future look like? The survey is a great opportunity to voice your answers to those and other questions. It is completely anonymous and administered by a market research firm located in Chicago. Survey data will support the Board of Trustees Planning Committee as they work with college employees to create a plan for moving from current perception to desired perception.

**Everyone who takes the survey will receive a copy of the results this summer. A small number of survey takers will have the opportunity to participate in focus groups held after the survey closes. If chosen, you'll be compensated \$75 for approximately three hours of online discussion time occurring over a two-day period in early May.**

Please note: the survey email will not come from Wofford or from President Dunlap. The email will come from Peacock Nine, the market research firm administering the survey, and the subject line will read "You are invited to the "All 'I's on Wofford Survey" by Wofford College." If you haven't received your invitation, please check your Junk Email folder or your deleted items folder. If you still don't have the survey, please contact me, and I'll have another message sent to you.

Thank you again to everyone who has taken the survey so far, and I hope you will all take it before the April 30 closing date. If you have questions, please don't hesitate to contact me at ext. 4263 or via email ([warelm@wofford.edu](mailto:warelm@wofford.edu)).

**Date:** April 27, 2012 at 10:12 AM  
**To:** Wofford Staff WoffordStaff@Wofford.Edu

To: Faculty and Staff

The annual Bible signing process for our graduates will occur in the Dean's Dining Room beginning today (Friday, April 27). We have moved the location to make it more convenient and comfortable. The Bibles will be on three separate tables and will not be mixed between tables which will allow you to complete the project in smaller increments if you want to do so. Refreshments will be available to you in the serving area! Faith says, "Just don't spill anything on the Bibles."

In all seriousness, our tradition dates to our founding, and it is an important keepsake for our graduates. We know they treasure your signatures. Please make every effort to participate.
