Dear Colleagues,

I am writing both to fill you in on the activities of the General Education Steering Committee this semester and to let you know about a General Education Open Forum that will be held on Friday, April 22, from 3-5 p.m. in the Olin Building. This forum will be open to all faculty and staff.

**Activities of the General Education Steering Committee (GERSC) this semester**

Our activities this semester have been focused on discussing the General Education Task Group reports. The Task Groups reports we have read and discussed are as follows:

- General Education and the Majors
- Media, Technology and Information Task Group Recommendation
- General Education Task Group on Common Experiences
- Interim as General Education
- General Education and the Notion of Academic Divisions
- Interdisciplinary and Multidisciplinary Study at Wofford
- Civic Engagement and General Education Task Group

GERSC has met six times so far this semester, and we have discussed each of the Task Group reports. In future meetings, we will turn to the notes from conversations with various academic departments about General Education. (These departmental conversations have been spearheaded by Dr. Christine Dinkins. She has also been conducting listening sessions with students this semester.) Once we have gotten through the departmental reports, we will begin the process of trying to conceptualize, based on the Task Group reports and departmental reports, how to translate what these reports tell us about our shared goals and vision into a General Education program. As we begin to work on specific Gen Ed structures, we will continue our practice of soliciting input.

**General Education Open Forum**

This open forum, modeled on the Strategic Planning Town Hall event back in 2014, will be an opportunity for faculty and staff to hear from members of the seven General Education Task Groups.

I will send a note around closer the date with more details, but I wanted to give you the opportunity to get this event on your calendar now. In the meantime, you can read the Task Group reports themselves. They are available on the Curricular Co-Curricular website: [https://wofford.sharepoint.com/sites/currcocurr/_layouts/15/start.aspx#/SitePages/Home.aspx](https://wofford.sharepoint.com/sites/currcocurr/_layouts/15/start.aspx#/SitePages/Home.aspx)

On that page, you can also find notes from this semester’s General Education Steering Committee meetings.

Please feel free to contact me with any questions, and thank you for your help and support in this process so far.

Sincerely,
Sincerely,
Trina

Dr. Sharon Moore from University of Mary Hardin-Baylor will be giving a talk entitled "Modeling Dendritic Cell Immunotherapy Treatments for Prostate Cancer." Dr. Moore was a professor in Wofford's mathematics departments a few years ago (her name was Dr. Hutton at the time). Here is an abstract: "Immunotherapy treatment is a type of cancer treatment that boosts the body’s immune system to fight cancer. In this talk, I will explain how we modify an existing mathematical model of the immune response to a cancer vaccine. The previous model consisted of a system of nine differential equations, including one equation with a time delay. The time delay represents the time needed for a primed dendritic cell to initiate an immune response. We eliminate the time delay term in the system of differential equations to simplify the dynamical analysis of the system and to make the model more realistic. As a result of eliminating the time delay term, the new system includes two new state variables and a total of eleven differential equations. This is joint work with Emek Kose, Chinenye Ofodile, Ami Radunskaya, Ellen Swanson, and Elizabeth Zollinger." This talk should be accessible to students who have had calculus. Influences on the Art of Vincent van Gogh: An Exhibition of Reproductions- Student Presentations
Date/Time: 4/14/2016 1:00:00 PM
Location: Martha Cloud Chapman Gallery
Cost: Free
Details: Students enrolled in Art History 480, a special-topic course on The Life and Art of Vincent van Gogh give presentations on influences on the art of Vincent van Gogh. Though his artistic career was limited to just the last ten years of his short life, Vincent van Gogh (1853-90) was keenly aware of the artistic traditions that preceded him and of the progressive trends in the art of his own time. As an apprentice gallery dealer during his early adulthood, Van Gogh acquired an encyclopedic knowledge of images that served him well in his later years as a painter. Much of his artistic career was spent in isolated locations away from the artistic centers of Paris and Brussels, so his exposure to the art of his own time was sparse. However, much of his artistic influence was from the work of artists he was familiar with from his time as a gallery dealer. The student presentations will overview Van Gogh's art as well as the art of his contemporaries, and provide insight into Van Gogh's role as a stylistic innovator.
locations lacking museums and galleries, however a two-year stay in Paris in mid-career provided exposure to an array of contemporary trends. Among other qualities of temperament and intellect, Van Gogh possessed a powerful ability to assimilate ideas from a wide variety of sources. He was widely read in several languages and keenly interested in German music, Japanese prints, and French naturalist literature. This exhibition explores the formation of Van Gogh's artistic style by identifying the wide variety of influences on his art, by locating the time and place of those influences within the compass of his career, and by exploring the ways and degrees to which Van Gogh absorbed these influences into his own art?in short, how Van Gogh forged an artistic style that was uniquely his own.

him well in his later years as a painter. Much of his artistic career was spent in isolated locations lacking museums and galleries, however a two-year stay in Paris in mid-career provided exposure to an array of contemporary trends. Among other qualities of temperament and intellect, Van Gogh possessed a powerful ability to assimilate ideas from a wide variety of sources. He was widely read in several languages and keenly interested in German music, Japanese prints, and French naturalist literature. This exhibition explores the formation of Van Gogh's artistic style by identifying the wide variety of influences on his art, by locating the time and place of those influences within the compass of his career, and by exploring the ways and degrees to which Van Gogh absorbed these influences into his own art?in short, how Van Gogh forged an artistic style that was uniquely his own.

Art History Guest Speaker: "Making Sense of Sacrifice: The Sensory Experience of Greco-Roman Cult"  
Date/Time: 4/20/2016 4:00:00 PM  
Location: Leonard Auditorium  
Cost: Free  
Details: Dr. Candace Weddle, an art historian from Anderson University, will present a lecture on animal sacrifice during the Greco-Roman period. Large-scale sacrifices, including spectacles in which more than 100 bovines were slaughtered and consumed in a single day, were among the most important and impressive Greco-Roman gatherings. The many sensory elements of those sacrifices - for example the sounds of prayers and songs and the smells of blood, burning incense, and roasting flesh - were carefully controlled in order to complete a successful ritual. This talk will offer evidence for the multi-sensory impact of sacrifice, focusing particularly on the senses of hearing, smell, taste and touch and utilizing archaeological and textual evidence as well as insights gained by attending Islamic bovine sacrifices.

Last chance to Nominate a Senior
Details: The deadline is TODAY, Monday, April 18 at 4 p.m., so this is your last chance to nominate a deserving member of the Class of 2016. The Student Affairs Committee, chaired by Prof. Dan Day will be meeting tomorrow to make selections for the College's annual awards to be given at Honors Convocation. Please nominate students who deserve to be recognized for their leadership, service and overall contributions to our college community. Do not presume that others will nominate a senior just because they made a significant contribution. The submission of more than one nomination provides an important indication to the committee of community respect for that nominee. Descriptions of the awards and the nomination form can be found at the following link: http://www.wofford.edu/campuslife/form.aspx?ekfrm=39194. You may nominate more than one student for each award. However, you must complete one form per student.

**Wofford Theatre presents Spring Awakening**
When: Apr 21, 2016, 8:00 PM

Spring Awakening is raucous, awesome, and terrifying. It is a dark and exuberant coming-of-age rock show; it is a frank look at the tumult of teenage sexuality; and it is a poignant and heartbreaking indictment of a repressive social and educational culture that in many ways looks a lot like our current culture. Based on the 1891 play Spring Awakening (Frühling’s Erwachen) by German author Frank Wedekind, the adaptation by Duncan Sheik (music) and Steven Sater (book) won nine Tony awards in 2007 including Best Musical. SPRING AWAKENING IS FOR MATURE AUDIENCES ONLY.

Dear Colleagues,

I am writing to invite all faculty and staff to a General Education Open Forum, during which we will discuss the Task Group reports that several members of our community worked on last semester. The forum will take place this **Friday, April 22, from 3-5 pm** in the **Olin Building**. Even if you can only come to part of it, we will be glad to have you there. Also, there will be tasty food and spirited beverages at this event.

Modeled on the Strategic Planning Town Hall event a few years ago, where we were invited to hear from members of the four Strategic Planning groups, this event is an opportunity to hear from members of the General Education Task Groups and to provide feedback and ask questions about their work.

Whether you have read the Task Group reports in their entirety and have lots you’d like to say about them, or you’ve not only *not* read them, but really have no idea what the Task Groups even were (but you’re curious about what’s going on), this event should be interesting – and, I hope, helpful – for you.

We will begin by convening in Olin Theatre to explain the logistics of the concurrent sessions and to provide a general overview of where we are in the General Education Reform process (which, at this point, is more of a review process). Forum attendees will then have the opportunity to go to a series of three 20-minute concurrent sessions. Representatives from each Task Group (listed below) will be available for conversation during each of the time slots, so attendees can hear from three different Task Groups of their choosing.

**Format**

*3-3:15* – Opening remarks in Olin Theatre (logistics of sessions, etc.)

**Three concurrent sessions:**

*3:20 – 3:40* - Session I

*3:45 – 4:05* – Session II

*4:10 – 4:30* Session III

(Olin 114, 116, 118, 201, 210, 213, 220)

*4:35-5:00* – Closing discussion, feedback (Olin Theatre)

**The Task Groups are as follows:**

- General Education and the Majors
- Media, Technology and Information Task Group
- General Education Task Group on Common Experiences
- Interim as General Education
- General Education and the Notion of Academic Divisions

Common Experiences Task Group member -
I assume you saw the message sent out from Trina regarding Friday’s open forum. I was at a conference last week when GERSC met to make these plans but, it seems that our task group is being asked to be available to discuss our report and explain the conversations that took place. I wanted to encourage you to attend and assist with our session. Of course, if you would like to learn about other task group reports, you don’t have to spend the entire time with our group.

The preparation you can do for Friday is to simply re-read our task group’s document to remind yourself of the conversations that took place. We will likely give a short summary of our report in each session and then open it up for questions and comments.

I’m happy to try to answer any questions about Friday (at least get the answers for you) and hope to see you then.

Thanks,
Kara

To Wofford faculty and staff:

Salutations at the end of the semester,

As the 2015-2016 school year winds to a close, the Center for Innovation and Learning (CIL) is still running strong with a few events and workshops left to help both faculty and staff get through this semester by brainstorming for the next! For more details/information on any of the following, please visit the updated CIL website at http://www.wofford.edu/CIL/.

**Teachers Talking Teaching Series Roundtable (Tomorrow, Wednesday, 4/20)**
- In the final event of our inaugural year, we’ll be chatting with faculty who participated in this year’s Faculty Learning Community on Digital Pedagogy and ePortfolios. In this informal roundtable discussion, we’ll talk both specifically about what we learned from our readings and more broadly about the role of technology in the classroom. We’d love for you to join us and share your thoughts. As always, light refreshments will be served. The event will be held in Olin 207A at 3:30 p.m. Wednesday.

**Pathbrite/ePortfolios on campus (info session Thursday, 4/21, and training 5/17)**
- You may have heard us mention either Pathbrite or ePortfolios at some time this year, and if you’re curious to learn more, we’d be delighted to chat with you over coffee. We’ll have an open information session (with coffee provided) the morning of Thursday, April 21, in Olin 211 at 9 a.m. We’ll also be having a Pathbrite training session on May 17 from 12:30 to 3 p.m. (with catered lunch provided and a stipend for participants). All interested faculty and staff are invited to participate; please email Cate Blouke to RSVP or ask questions (bloukecm@wofford.edu).

**Digital Assignments and Reflective Writing Workshop (5/17)**
- John Miles and Cate Blouke will be running a workshop that encourages a two-pronged approach to digital assignments/classroom projects. We’ll help participants create digital assignments and discuss how to use reflective (meta-cognitive) writing to help grade student work. The workshop will provide a framework for designing assignments that require minimal technological expertise from faculty and provide increased agency to students. It will run from 9-11:30 a.m. with catered lunch provided afterward and a stipend for participants. All interested faculty and staff are invited to participate; please email Cate Blouke to RSVP or ask questions (bloukecm@wofford.edu), and we welcome you to stick around for the Pathbrite/ePortfolio workshop afterward.

**2016-2017 CIL Faculty Fellows**
- The CIL is pleased to be able to offer 4 fellowships for the 2016-2017 school year: 2 Digital Pedagogy Fellowships and 2 Writing in the Disciplines Fellowships. Fellows will work with Cate Blouke and John Miles (respectively) to develop or continue to expand projects in their courses related to teaching with technology or using writing effectively in courses beyond the first year. We’ll have more details available on the website soon, but please reach out to Cate or John if you think you might be interested. Applications will be due at the end of May.
We hope to see you at any of these upcoming events, and if you'd ever like to chat about assessment, course development, or reflective teaching practices, email John Miles at MilesJD@wofford.edu to make an appointment. Similarly, if you'd like to brainstorm or troubleshoot incorporating digital technologies into your classes, email me (Cate Blouke) at BloukeCM@wofford.edu to set up a time to chat!

Best,
Cate

Art History Guest Speaker: Making Sense of Sacrifice--The Sensory Experience of Greco-Roman Cult
Date/Time: 4/20/2016 4:00:00 PM
Location: Leonard Auditorium
Cost: Free
Details: Dr. Candace Weddle, an art historian from Anderson University, will present a lecture on animal sacrifice during the Greco-Roman period. Large-scale sacrifices, including spectacles in which more than 100 bovines were slaughtered and consumed in a single day, were among the most important and impressive Greco-Roman gatherings. The many sensory elements of those sacrifices ? for example the sounds of prayers and songs and the smells of blood, burning incense, and roasting flesh - were carefully controlled in order to complete a successful ritual. This talk will offer evidence for the multi-sensory impact of sacrifice, focusing particularly on the senses of hearing, smell, taste and touch and utilizing archaeological and textual evidence as well as insights gained by attending Islamic bovine sacrifices.

**Wofford Theatre presents Spring Awakening**
When: Apr 27-29, 2016, 8:00 PM
Where: Tony White Theatre
Contact: Ashlyn Keightley
http://www.wofford.edu/boxoffice/

Spring Awakening is raucous, awesome, and terrifying. It is a dark and exuberant coming-of-age rock show; it is a frank look at the tumult of teenage sexuality; and it is a poignant and heartbreaking indictment of a repressive social and educational culture that in many ways looks a lot like our current culture. Based on the 1891 play Spring Awakening (Frühling’s Erwachen) by German author Frank Wedekind, the adaptation by Duncan Sheik (music) and Steven Sater (book) won nine Tony awards in 2007 including Best Musical. SPRING AWAKENING IS FOR MATURE AUDIENCES ONLY.

**Drawn from Landscape: Studies from the Art and Earth Collaboration, Martha Cloud Chapman Gallery**
When: Apr 26, 2016
Where: Martha Cloud Chapman Gallery
Contact: Youmi Efurd
Description:
In the spring of 2016, Wofford professors Kris Neely and Dr. Kaye Savage continued their course collision collaboration by sharing field experiences between two distinct courses. The classes met together once each week to investigate the natural sources of art materials through hands-on laboratories. Students used natural materials - soapstone, clay, handmade watercolors, chalk, charcoal, and graphite - to interpret and communicate attributes of the landscape. Each of the five sections of this exhibition represents the work of a group with members from both courses -- Materials and Methods (ARTS 247), mostly first year students, and Art and Earth (ENVS 330), a class of five senior art and science students. The art, objects, and curated information in this exhibition represent the students' own work and their collaborative visions.

When: Apr 24, 2016
Where: Martha Cloud Chapman Gallery
Contact: Youmi Efurd
Description:
This exhibit was created by the students enrolled in Art History 480, a special-topic course on The Life and Art of Vincent van Gogh taught by Professor Peter Schmunk. This exhibition explores the formation of van Gogh's artistic style by identifying the wide variety of influences on his art, by locating the time and place of those influences within the compass of his career, and by exploring the ways and degrees to which van Gogh absorbed these influences into his own art - in short, how van Gogh forged an artistic style that was uniquely his own.
