MEMORANDUM

To: Wofford College Staff and Faculty
From: Office of Residence Life
Date: June 15, 2021
Re: Fall Early Arrivals

As the new academic year and the return of our students to campus approaches, we want to provide you with important information regarding move-in and early move-in for groups faculty and/or staff may advise. First-year students will arrive on Saturday, Aug. 28 and our returning students will arrive beginning on Monday, Aug. 30.

Experience tells us, however, that many of our students have pre-season trainings, opportunities for community engagement, professional development, and other commitments that bring them to campus before our official move-in days. The Office of Residence Life works diligently to support students and colleagues with housing for their early arrival needs each fall. This year our ability to grant early arrival requests is significantly limited due to the shifting campus calendar, residence hall renovations and the calendar for summer camps.

Because of these factors outside of our control, over 60% of our beds on campus will be occupied by off-campus groups or offline completely for renovations until late-August. Therefore:

Early Arrival Groups

Groups requesting early arrival will not be able to access campus housing until at least Wednesday, Aug. 24. **Group advisors/staff leaders should submit requests for early arrival by emailing reslife@wofford.edu before Friday, July 2.** We encourage group leaders and advisors to begin planning with this in mind.

Individual Early Arrivals

Individual returning students needing to return before upper-class move-in will not be able to do so before Aug. 29. An early arrival request form will be available on the Housing Portal beginning in early July. All individual requests for early arrival must be submitted through that form by Friday, Aug. 20.

As a reminder, all early arrival requests will still need to be submitted to the Office of Residence Life for approval.

It is always our goal to support our students and the many outstanding programs offered here at Wofford. We also understand that we must plan with reality in mind, and the time, energy, and labor required by our facilities, housekeeping and residence life teams to turn over more than 1,000 beds before Aug. 24 is already a herculean task. We appreciate your understanding.

Date: June 17, 2021 at 10:00 AM

To: Wofford Staff and Faculty WoffordStaff@Wofford.Edu, Wofford Students WoffordStudents@Wofford.Edu

Dear Friends and Colleagues,

After 24 years of service to the college, Dr. David S. Wood has announced his retirement. He will work through the summer as the college does a national search for his replacement.

David has served the college with distinction, integrity and grace. He has been a true servant leader who has worked in whatever capacity the college needed most — from director of athletics to senior vice president for planning to provost to senior vice president for advancement. He began his career at the college by leading Wofford into its first year of Southern Conference Division I intercollegiate athletics competition, and he concludes his tenure with the successful completion of the \$300 million campaign for Wofford. His influence has been transformational.

We wish David the best and know he will continue to support the college even as he enjoys more time with family and scholarly pursuits. Calhoun Kennedy '89, executive director for advancement, will serve as the interim.

Re: Information Technology Services Update

The college will welcome a new associate vice president for information services and chief information officer next month. Dr. Baz Abouelenein (pronounced Ah-*boo*-le-*neen*) will begin duties on July 19.

Baz is coming from Grantham University, where he was chief information officer and vice president of information technology. Prior to that, he served as chief information officer for Kansas City Kansas Community College. Baz was recently named to EdTech's 2021 Dean's List, which included 30 IT influencers in higher education worth following. His expertise is in improving organizational performance through innovation and technology.

I would also like to extend my sincere gratitude to those serving on the search committee for their hard work and expertise during this successful process. Please join me in warmly welcoming Dr. Baz Abouelenein to Wofford College!
