**Materiality and the Divine: Baroque art across Europe**

**Details:** This exhibition, including works from Wofford's collection along with loans from the Bob Jones University Museum and Gallery, explores the dynamic and revolutionary art of the Baroque era in Europe. The deeply moving art of this period, C. 1600-1750, with its dynamic and monumental compositions, deep color, realistic detail and dramatic light, reflects seismic changes happening across Europe during religious upheaval and global exploitation. This exhibit is free and open to the public. Located in the Lower Level Richardson Family Art Museum.

**Intersecting Methods: 2020 Portfolio**

**Details:** As a process for creating art, printmaking has many similarities to the scientific method. Printmakers dream up the imagery, experiment with their mediums, proof their plates, manipulate the variables (one at a time) and proof again to be able to create the desired results in the final edition. Intersecting Methods is a portfolio that brings together the arts and the science to create collaborative prints by partnering a printmaker with a collaborator. This event will be held in the Martha Cloud Chapman Gallery in the Sandor Teszler Library.

**Announcements**

**Materiality and the Divine: Baroque art across Europe**  
**Details:** This exhibition, including works from Wofford’s collection along with loans from the Bob Jones University Museum and Gallery, explores the dynamic and revolutionary art of the Baroque era in Europe. The deeply moving art of this period, C. 1600-1750, with its dynamic and monumental compositions, deep color, realistic detail and dramatic light, reflects seismic changes happening across Europe during religious upheaval and global exploitation. This exhibit is free and open to the public. Located in the Lower Level Richardson Family Art Museum.

**Intersecting Methods: 2020 Portfolio**  
**Details:** As a process for creating art, printmaking has many similarities to the scientific method. Printmakers dream up the imagery, experiment with their mediums, proof their plates, manipulate the variables (one at a time) and proof again to be able to create the desired results in the final edition. Intersecting Methods is a portfolio that brings together the arts and the science to create collaborative prints by partnering a printmaker with a collaborator. This event will be held in the Martha Cloud Chapman Gallery in the Sandor Teszler Library.  
**Contact:** Robin Reif (Phone/Ext 864-597-4602)

This exhibit is free and open to the public in the upper level of the Richardson Family Art Museum.

Dear Phillip,

The Wofford College Board of Trustees concluded its spring meeting on campus May 5, 2023. They heard from student, faculty, alumni and parent representatives and celebrated the 508 new members of the Class of 2027 who have paid deposits and will be joining our community in the fall. The board remembered Jerry Richardson ’59, who died on March 1, and received an update on the compensation study and the feasibility of a fund-raising campaign.

The board approved the implementation of Workday, a new enterprise resource planning (ERP) system. Workday’s benefits to the campus community include more reliable human resources data and processes (no more paper timecards), enhanced data security, a cloud-based backup system, and a more modern and secure student registration system. Implementation will begin in June with human resources, payroll and financials deployment; this piece will take about a year to complete. Converting registration and student-centered systems will begin in September 2024, and full integration will take about two years from that point.

The board approved allocating resources to several major campus renovation and renewal projects.

- A renovation of the Reeves Tennis Center will begin in May. Funded by a generous lead gift from Mary and Wade Keisler ’80, the project is scheduled for completion by the end of 2023.
- With the move of the Wofford College Bookstore to The Hub across North Church Street, the former bookstore building will be repurposed as a student study and gathering space. It will be a great option for hanging out between classes for students who commute and the home of student publications and Human
Resources. The renovation is donor-funded and will begin in June with completion by the end of September.

- Information Technology will move most staff to 460 North Church Street, a property the college is leasing, freeing up several areas for faculty offices. The staff in the Help Center will remain in the Olin Building.

Future projects discussed included window replacement in Main Building, scheduled to begin in November; a refresh of the Office of Philanthropy + Engagement, starting in September; and a military memorial to honor Wofford graduates who died while serving on active duty. Funds are being raised to create the memorial in a well-traveled intersection between Main Building and DuPré Administration. To learn more about the project or to make a gift, visit Wofford.edu/militarymemorial.

Finally, the board approved updates to the college by-laws and the tenure and promotion of faculty. Please congratulate the following colleagues when you see them.

Materiality and the Divine: Baroque art across Europe  
Details: This exhibition, including works from Wofford’s collection along with loans from the Bob Jones University Museum and Gallery, explores the dynamic and revolutionary art of the Baroque era in Europe. The deeply moving art of this period, C. 1600-1750, with its dynamic and monumental compositions, deep color, realistic detail and dramatic light, reflects seismic changes happening across Europe during religious upheaval and global exploitation. This exhibit is free and open to the public. Located in the Lower Level Richardson Family Art Museum.  
Contact: Robin Reif (Phone/Ext 864-597-4602)

Intersecting Methods: 2020 Portfolio  
Details: As a process for creating art, printmaking has many similarities to the scientific method. Printmakers dream up the imagery, experiment with their mediums, proof their plates, manipulate the variables (one at a time) and proof again to be able to create the desired results in the final edition. Intersecting Methods is a portfolio that brings together the arts and the science to create collaborative prints by partnering a printmaker with a collaborator. This event will be held in the Martha Cloud Chapman Gallery in the Sandor Teszler Library.  
Contact: Robin Reif (Phone/Ext 864-597-4602)

Helen DuPré Moseley: Painter, Author, Roller-Coaster Fan, and Art
Stewardess on Flying Saucers

**Details:** Helen Dupré Moseley (1897-1984) is worthy of recognition as an artist, writer, and community leader in Spartanburg, and she would have agreed. She certainly believed her life was worth documenting, as she collected stacks of diaries, scrapbooks, artworks, stereoscopes, and short stories, which are now held in the Spartanburg County Library's Archives. This exhibit is free and open to the public in the upper level of the Richardson Family Art Museum.

We invite members of the Wofford community to show support for survivors of sexual assault by leaving encouraging and supportive messages on our survivors’ wall, which will be located in the Mungo Student Center. We hope that over the course of the month, survivors will be able to see the wall filled with messages of encouragement from members of their community. Please feel free to come by and add your message of encouragement or support. Examples of appropriate messages will be available.

Re: Commencement Weekend

As we begin Commencement weekend, I would like to thank the faculty and staff who have worked to make this celebration of the Class of 2023 possible. There are few things more moving on a college campus than seeing faculty and staff mentors, families and friends gather to honor academic achievement and student success, and Prema and I look forward to this busy and exciting weekend.

Dear colleagues,

Sunday was heartwarming, joyful and a fitting celebration for the Class of 2023. The weather couldn’t have been better, and the campus was a stunning backdrop to Commencement. I’d like to thank all who worked so hard to ensure the success of this day, including:

- The faculty, who spent four years teaching, mentoring, advising and encouraging.
- The staff in the Office of the Provost, with special thanks to the Office of the Registrar, who check and double check and triple check every detail. Honors Convocation, Phi Beta Kappa and ROTC Commissioning were excellent ceremonies!
- The Office of Campus Events for running point on the weekend.
- The team in facilities, who made sure every blade of grass was cut, every stage set and every building clean and ready for the many visitors who were on campus. Your attention to detail is remarkable!
- The Campus Life and Student Development and Equity Diversity and Inclusion staffs, who support student inclusion, accessibility and success every day and who provided lots of celebratory events leading up to Commencement so our recent graduates left realizing how much they are loved. Also, a special thanks to Campus Safety staff for ensuring that the weekend was safe and as orderly as possible.
- Our partners with AVI Foodsystems Inc., who always bring heaping portions of hospitality and professionalism along with delicious food.
- Philanthropy + Engagement, the Business Office, Information Technology, Enrollment, Athletics and Marketing and Communications all played a vital part in planning, staffing, troubleshooting and supporting graduation as well as the many events of the weekend and the weeks of preparation prior.

Prema and I continue to feel enormous gratitude for all of you — our colleagues and friends — who make Wofford College such a remarkable place to live and work.

In recognition of your service and in honor of Memorial Weekend, please consider Thursday at 5 p.m. the start of the long Memorial Day holiday. The campus will reopen on Tuesday, May 30, as we begin an exciting summer.

Thank you again!
