New Officers to Command Squadrums For One Month

The new "E" men are to be the officers here for the next month, and will have time to test their ideas to a greater degree than several previous groups have had opportunity to do.

The student to succeed A/S J. V. Breignier as Student Major is James Grantham, familiar to all as the man who usually piles up the greatest aggregate of points in our inter-scholastic and inter-college track meets. Grantham's toughmness as a former Alabama State and Orange Bowl football player are unexcelled. He is also a leader of men, a comrade in arms and a natural choice as Student Major.

J. Y. Low is to assume new duties as Group Supply Officer, R. E. Johnston will succeed P. H. Linley as the new group Public Relations Officer, and Cornell Harrison has the post of Adjutant. T. W. Large is the Squadron Commander of the incoming "A" squadron. The new captain of "B" Squadron is G. L. Meyers. Squadron commander of "C" is A. Fassnacht, and "D" Squadron will have J. Fraking as its new commander. Good men, in a strict Army sense of the word.

These men and their associates want your cooperation, but they want willing and cheerful cooperation.

It is expected that squadron rivalry for those elusive ribbons and attendant privileges will become keener during the coming month, and all of the officers expect their men to be the best every week.

New Flight Record Staff

The new staff of the FLIGHT RECORD is as follows: Editor, George W. Gruningr; News Editor, H. Davidson; Feature Editor, J. L. Morey; Proof Editor, J. R. Winebrenner; Associate Editor, Phillip Barrager.

That this will be a good month is certain, but in the last sense, its superlative quality depends upon every man in this detachment. Come in on the beam!

OD's will be donned on Monday, October 11. G. I. long-sleeved, V-necked sweaters will be issued to "E" men while they are on flight schedule.

Honor System In Classes

These instructions were drawn up by student Honor Council members, representatives elected by you students.

1. While the Honor System is to be enforced by a Student Council, its success can be established only through active cooperation of the Faculty.

2. In order to remove the temptation which is ever present where a student is within reading distance of his classmates' paper, students will be seated in every other seat where it is possible to do so.

3. Immediately preceding each examination or test, Instructors will remind their classes that they are governed by the Honor System.

4. Instructors will not police the class, or collect text books, or in any way obviousy show mistrust of students' integrity during examinations or tests, but Instructors will remain with classes during examinations and tests.

5. In case a breach of the Honor System comes under the observation of an Instructor, he may report the matter in writing to the Honor Council or he may appear before the Council to give testimony on the matter.

6. Students who detect cheating on examinations will report direct to the Honor Council.

Captain Hexter to Take Vacation

Will Visit New York

Captain Hexter will take a short, but well earned leave from the campus of Wofford College on the 13th of October. His services, as usual, are in great demand by the Army Air Forces; therefore an absence of but ten days in length was granted.

Because of the shortness of his leave, Captain Hexter will be unable to visit his home in California. Accompanied by his wife and eldest son, who is a high school student in Spartanburg, he plans to give the great metropolis of New York City the "once over." He will see as many shows as possible during his brief sojourn there.

The FLIGHT RECORD staff joins the students of this training detachment in wishing their C. O. the best vacation he has ever had.

President Greene to Be Honored

Wofford's President Greene will be absent from our campus for the next two weeks. His mission will be two-fold, and will take place at Mount Union College, Alliance, Ohio, and at the college. President Greene will deliver the annual Carr lectures on "The Mission of the Christian College to the World" to the faculty and students on Founder's Day.

The other highlight, and an important one, is the fact that President Greene will be presented with the degree of LL. D. (Doctor of Laws and Letters).

The 40th C. T. D. wishes to extend its congratulations and wishes him a pleasant sojourn from his duties at Wofford.

Coach Petoskey Plans New Track Meet

Meet Set for a Week From Saturday

Almost before the boys stopped panting after the P. C. race, Coach Ted Petoskey was laying plans for the next track meet, to be staged October 16 at Snyder Field, right back on home soil. Challenges have been sent to the four schools represented at our previous meet, and as all probability they will accept if BQ., EFCT approves. Wofford showed plenty of strength on the field last week, which gives us every reason to believe our chances are more than just good.

Tentative plans include the usual events, with the addition of a three-legged race just for box office appeal. Petoskey aims to please (ain't it the truth!), and if the other coaches want hitches we'll probably have hitches too.

Grantham Elected Captain

Tex Grantham will lead a team made up for the most part of new men. Men like Harris, Janicila, and McCollum won't be easy to replace, but we're counting on plenty of support from the fresher squadrons. Right now the team is particularly lacking in quarter and half milers and high-jumpers. So we're taking this opportunity to urge all who think they can run, to come out, start with the first practice.

Remember, you do not have to be a former star to try out. Maybe you've never tried the sport in which you play the best.

Team Shows High Spirits

Our past record on the track has established a real reputation for this detachment, and both coach and team are optimistic about the outcome of the coming event. Perhaps it's the usual confidence, but we're willing to bet the coach has something up his sleeve. Anyway, spirit goes a long way, and if it will mean the difference between victory and defeat, 40th C. T. D. has it in the bag already.

LIBRARY REOPENS

After a short vacation, Miss DuPre has reopened the library to all Wofford students. Books will be loaned to students for one week periods. The new library hours are: Monday through Friday, 2 to 6 o'clock, and 9 to 1 o'clock on Saturdays.
## Editorial

As each succeeding Quintile "E" leaves Wofford, practically all of the men in the departing group, looking back at their stay in the 40th C. T. D., reach the conclusion that their time was well spent. They feel confident that the new skills they have acquired will enable them to make the grade in their further training. They admit that the physical training, hard as it was to take, has been good for them, and they are glad to have had a brief chance to take the controls of a training plane and "get the feel of the ship." But outside of the good times, the dances and the other recreations, the tendency among the men is to think their time at Wofford has been devoted to learning useful, purely mechanical tricks.

Some Aviation Students often complain when their professors break from the immediate subject at hand to bring out the background. Such students fail to see that the background shows how the foreground is developed, thus changing it from a clever manipulation which is not understood, to a completely comprehended configuration, easily derived from its basic ideas. Perhaps these men may feel that such complete knowledge is unnecessary. However, superficial memories are easily forgotten when they are needed most, when they are needed under fire. The man who will remember necessary information is the man who fully understands it. For this reason, every digression of professors must be examined for the background it contains. Students must learn the idea that the intellectual skills gained at Wofford are mere tricks.

If students take the attitude that the academic routine is merely trick, they may get their bars on a "Wing and a Prayer."

The true pilot, however, wants to come in on both wings.

## Religious Services

Religious services are held on the post for the two weeks following the arrival of a new quintile. Although the services are especially for the new men, everyone is cordially invited to attend.

Catholic services are conducted, by the priests of St. Paul’s Church, in room 206 of the Administration Building. Confessions are heard at 0730, and Mass begins at 0800.

Non-sectarian services, directed by Dr. Nashit, Professor of Psych, and James Crane, Wofford senior at Converse College, begin at 1000 in the chapel. As a special feature, several attractive young ladies from Converse College will lend their vocal talents, which should add much to the service.

## Wings for Wofford

When aviation students first marched on the campus of Wofford College in March of this year, they, in a sense, began a new era with Wofford having only men in uniform. But in a larger sense they entered into a tradition begun many years ago.

Wofford’s special interest in aviation became apparent when scores of men completed the prescribed government course in civilian pilot training. Although Wofford’s ROTC is an infantry unit, it is worth noting that about two hundred and fifty of the eleven hundred alumni in uniform are in the various flying units of the armed services. Most of the two hundred and fifty are members of the AAF.

Many Wofford Airmen have been decorated. Of the sixteen Wofford men decorated for gallantry so far in this war, ten have been flyers. Of these, nine are AAF men.

Since the Wofford student body organized itself into a voluntary military training unit in 1917, almost immediately upon the outbreak of the First World War, there has been organized military training of some type at Wofford.

## Have You Heard?

Where have the Eager Beavers heard, "Young man, you back there, this is not funny?" The G. B.’s won’t know whose favorite that is. (Hint: the man with the Ned Sparks voice.)

Now, here’s one you can’t guess.

“In Field Manual, Twenty-one, dash, one hundred, on page eleven, paragraph thirty-one, it is stated that all officers shall be entitled to the salute, and on page one hundred and thirty-six, paragraph one ninety-three, you can find the General Orders that are to be known verbátim.” Oh! You say you can guess who that is. You’re right!

It’s certain that you remember the mortal sergeant and his “Fellas, I don’t know how I know, but everything that happens comes back to me. I don’t ask anyone but I still find out.”

The students in Squadron “A” should have heard, “Gentlemen, I don’t...” It seems he is always on hand to get the new fellows straightened out during the first few weeks.

Not all the students at 40th have had a certain colorful professor here, but they would never forget “Take seats, take seats,” if they did have him.

These quaint sayings are super chargers for our humdrum existence.

## REVELLE WITH BEVERLY

When you hear the bugle sound, it’s not “Revelle with Beverly” — it’s a Fire Drill.

Leave the curler in your hair, no time for toilettries, just put on your uniform, grab a blanket and scotch. You may look like an Indian squaw, but there is one big difference—a squaw has a papsone on her back.

Seriously, fellows, this is a matter of great importance. The utmost care should be taken to see that all the members of each group are ready and prepared to go on. Why not designate a man in each room for each of these things? Above all, promptness is the essential factor in the successful fulfillment of these drills.

## New Views by ‘A’ Men

It was evening when we detrained in Spartanburg after the long trip from the South, so our first glimpses of Wofford were of old buildings cloaked in shadows, and tree-lined walks.

The Student Officers were brisk and military. Even in the dark they detected and pounced on sloppy marching, and arms bent at the elbows. We thought, “Goodbye, old easy-going basic training days in pleasant Miami Beach! You’ll have to be on the ball from now on!” It was not altogether an unpleasant feeling. It made us throw out our chests a bit and tingle with anticipation as we approached our new post.

The Student Officers weren’t a bad bunch, we found out during our first day. There was more direct contact with efficient and interesting commissioned officers. Those of us who had been to college re-discovered, in the faculty, the thrill of hearing a neatly turned phrase in impeccable diction, and the bone dry, pedantic witticisms of an old college professor.

Mess was a new experience for the Army. Men who used to huddle over their trays like dogs over bones suddenly became gentlemen who ate with exaggerated dignity (with one eye on the student officer). There was plenty of food and it was delicious. Funny how the same G. I. food tastes when an expert gets his hands on it! Instead of K. P., there were pleasant colored waitresses, and white china dishes instead of metal trays.

Drill took on a new meaning. On Saturday as we paraded before the stands and stood inspection. There is a new pride in knowing that before we leave soon, we will be as snappy, clean-cut, and cadet-like as the upperclassmen. We like Wofford and think ourselves lucky to have been sent here.

Teacher to A/S late from mess: "You are better fed than taught." Student’s retort: “I feed myself. You teach me!”

## Male Call

---

**Male Call**

**I HAD A DATE WITH MISS LACE-SIR...**

**THEM COCKIES HEARD THE WIZ ALERTED AN I**

**I HAD TO CANCEL...NOW THEY’RE GONNA GO AN’ GRAB THE OPEN TIME!**

---

by Milton Caniff, Jr.
OFF THEY GO
A Toast to the Host of Those We Boast

The Flight Record is proud to present the names of the men who, having successfully completed their training at Wofford and who will now take the second step toward the goal which we are all seeking. We wish you luck, each and every one of you, and may we meet again somewhere, somehow, up in that blue sky yonder.

Contrary to rumor, Sgt. Joseph Rumore is not betting on the St. Louis Cardinals.

Exercises and Dance

Tonight the 40th C. T. D. will again pay tribute to Quintile "E," who will be leaving us Saturday. The usual exercises will be held in the chapel at 9:30 o'clock. Immediately following the exercises, there will be girls and music waiting in the gymnasium.

The opening prayer for the exercises will be given by Dr. C. B. Waller of Wofford College.

The principal speaker for this evening will be Dr. Henry N. Snyder, honorary president of Wofford. Dr. Snyder graduated from Vanderbilt University in Nashville, Tenn., and Goettengen University in Goettengan, Germany. He joined Wofford's faculty in 1890 and was made the fourth president of Wofford in 1902. He retired from the active presidency in 1942, being succeeded by our present President Greene. He is well known throughout the United States as an organizer of the Southern Association of Colleges and as an author and teacher of English Literature.

Captain Hexter, after bidding his "E" men a fond farewell, will introduce Lt. McCue, who will also, by popular request, say a few well chosen words to the departing men and wish them God-speed.

Yes, everything is planned for the dance—music, beautiful girls, and gay colors. Everyone enjoyed the last dance very much, but this one will even be better. The gymnasium will be decorated in beautiful colors, and girls from Spartanburg, Gaffney, and nearly vicinities will be there to catch your eye.

The dances have been a great success in the past, and we are very pleased with the invitations, which have been handled by Mrs. S. N. Burts, who has taken a very active part in the recreational program at Wofford. She received a Doctor's Degree from New York University, and is without doubt the most popular and regular attendant at our dances. Acting as hostess, she makes it a point to see that everyone meets everyone else. The entire detachment expresses their deepest appreciation for Mrs. Burts' contribution to our social life.
Headsprts
Continues Winning
Streak

We'll have to hand it to them, our officers can do more than just sit at a desk and hand out gripe sheets. Ask
the boys in Quintile, "E," they can tell you a lot—that is if their pride isn't too badly hurt. We all thought our
officers were too old and fat, but they have made the most youthful athletes on the Wofford campus look to their
laurels, if they ever had any, for consolation. That's right, bud, we are at the third umm... track and field
meet held at the Base recently. (Editor's Note: Keeler also holds records in the chow line marathon and in the high
temperature heat, in which Keeler and Miami finished in a dead heat this year—and we do mean HEAT!)

S/Sgt. Tom Smith, former Louisiana College track star, cracked his own Keeler Field (Miss.) javelin mark with
a 206-1/2-inch heave at the third summer track and field meet held at the Base recently.

Chatter...

Would any man make a half mile if he ran a half mile each day? That's a good question, chum, and it's just
what Coach Ted Petoskey is going to find the answer to. Victims for the experiment at the present are the future
pilots, or should we say future trackmen, of Squadron "A."

History makes news, but the fact that Wofford lost a track meet last Saturday by two-thirds of a point is not
news. Whether the loss was due to the inability of the Wofford Cindermen, or the aggressiveness of a pencil
may be called history, in a sense of way. Assuming that the pencil was honest, and we really think it was,
Coach Petoskey and his charges are making efforts to regain the laurel. There is even talk of a steeplechase
which goes through Headquarters, into the Chapel, and out a second story window. A visitor on the day of the
meet might look for almost anything!

Since track meets are becoming very popular, it is only to show their all-out effort will be made to keep Wofford
in the lead. Track meets have a noticeable effect on the morale of the students, as well as fitting in with the
P. F. R. program.

All men interested in becoming a Wofford Blanket are only to show their willingness to participate in practice
each afternoon from 1730 to 1830. You'll need those strong arms, strong legs, and strong bodies, fellows—now
is the time to get them. Come on out and install in yourself a strong will to win! Add ability to win to your
will to victory!

Wofford Drops
Close Meet

In a triangular track meet held last Wednesday, September 29, at P. C., Clinton, S. C., the Wofford College
track team placed a very close second, losing out by two-thirds of a point. The host, P. C., lead the team score
with 57 1-3; Wofford, 56 2-3; Erskine, 15. Two relay trophies were brought home and "Tex" Grantham
won the individual trophy with his exciting pentathlon victory.

The first silver cup was won when the distance relay team of Faehndrich (440), Trough (220), Kolton (220),
and Smith (880) came in first. The second cup was won in the last event and the important mile relay. Running
successive quarters and winning by 80 yards were Faehndrich, Smith, Harris, and Janicula.

In the five-event contest, the pentathlon, "Tex" Grantham captured first in the 100, 880 and broad jump
and second in the shot put and sixth in the rope climb, to gain the title and

4. Drecker, high jump. 5. McCullough. 6. Lemon, chins. 7. Torok,

Let's Go, Young Man

Starting this Saturday, the 40th C. T. D. will renew its weekly track meets. This will be one of the several steps
made to boost the low P. F. R. average made by the two late Quintile "F's."

Coach Petoskey said, in all seriousness, that the men thrown two weeks ahead of schedule had made a very
poor showing in their physical training program. Petoskey said, "Men who are being moved ahead of schedule
should put forth extra effort to improve their P. F. R. average. He's right, fellows; you get out of anything
only what you put into it. Think it over.

Htory make the best all-round track man. Meehan nabbed a third place to help add to the Wofford score.

Other points gained by Wofford was Charley McCollum's second win in the high jump with 5 feet 6 inches,
and Lemon's chinning and second place relays in the 440, 880 and sprint medley.

Have you readers wondered lately who connected the steam radiators in our rooms? Who is responsible for the public address system at the dances at the gym? Who, in warmer days, provided for the
cooling apparatus for the dancers? Who is responsible for the beauty of the Wofford College campus? Who
maintains the plumbing facilities, showers and so forth?

He is Mr. O. G. Moss, Superintendent of Grounds and Buildings and head of a crew of 20, dedicated to make conditions better, and living easier, for the students of Wofford College.

PT—

You'll groan, you'll grunt, and you'll gripe.

You'll strain with all your might;
You'll then wonder why the Lord
won't let you die.

And let him who looks on win the fight.

"Tea shirts today," comes the cry.

Then lamner than hell, the "GOLD-BRICKS" limp by;

Sick call is booming, 'cause to them it
ain't human.

They are here to do nothing but fly.

By these, don't let others be fooled,

You'll profit if you follow the rules;
If you object it's "F's," and to you we
suggest,
See Shorty, the Tel, or the Mule.

By A/J James Grantham.
